Donnor, 2013-09-13 The Education of Black Males in a Post Racial World examines the varied structural and discursive contexts of race masculinities and class that shape the educational and social lives of Black males The contributing authors take direct aim at the current discourses that construct Black males as disengaged in schooling because of an autonomous Black male culture and explore how media social sciences school curriculum popular culture and sport can define and constrain the lives of Black males The chapters also provide alternative methodologies theories and analyses for

making sense of and addressing the complex needs of Black males in schools and in society By expanding our understanding of how unequal access to productive opportunities and quality resources converge to systemically create disparate experiences and outcomes for African American males this volume powerfully illustrates that race still matters in post racial America This book was originally published as a special issue of Race Ethnicity and Education The Cambridge Handbook of Social Problems: Volume 2 A. Javier Treviño, 2018-03-22 The introduction of the Affordable Care Act in the United States the increasing use of prescription drugs and the alleged abuse of racial profiling by police are just some of the factors contributing to twenty first century social problems The Cambridge Handbook of Social Problems offers a wide ranging roster of the social problems currently pressing for attention and amelioration Unlike other works in this area it also gives great consideration to theoretical and methodological discussions This Handbook will benefit both undergraduate and graduate students eager to understand the sociology of social problems It is suitable for classes in social problems current events and social theory Featuring the most current research the Handbook provides an especially useful resource for sociologists and graduate students conducting research Sociology of Crisis Myrto Tsilimpounidi, 2016-11-03 The global financial crisis has demonstrated the impact and implications of late capitalism and its bedfellow globalisation In the European context crisis is seen as a threat to the stability of the region rather than a local or national concern Post 2008 crisis is social and political rather than merely financial as Western countries witness the consequences of consumption growth and profit In this book Tsilimpounidi demonstrates how sociologists must develop new approaches to examining rapid shifts in the social landscape since crisis is not merely reflected in balance sheets but is mediated through spectacular imagery of loss deprivation and increased vectors of marginalisation Providing focused and valuable insight into the pressing problems of those living in Greece in relation to the wider spheres of the nation and at the level of the European Union Sociology of Crisis takes an approach that is firmly located within a critical sociological appeal to reflexivity A timely engagement with the problem of crisis at a macro level and in dialogue with the everyday experiences of crisis on a micro level this interdisciplinary title will appeal to both undergraduate and postgraduate students interested in sociology social policy geography urban studies and research methods social science Getting Signed David Arditi, 2020-09-28 Record contracts have been the goal of aspiring musicians but are they still important in the era of SoundCloud Musicians in the United States still seem to think so flocking to auditions for The Voice and Idol brands or paying to perform at record label showcases in the hopes of landing a deal The belief that signing a record contract will almost infallibly lead to some measure of success the ideology of getting signed as Arditi defines it is alive and well Though streaming social media and viral content have turned the recording industry upside down in one sense the record contract and its mythos still persist Getting Signed provides a critical analysis of musicians contract aspirations as a cultural phenomenon that reproduces modes of power and economic exploitation no matter how radical the route to contract Working at the intersection of Marxist sociology cultural

sociology critical theory and media studies Ardití unfolds how the ideology of getting signed penetrated an industry created a mythos of guaranteed success and persists in an era when power is being redefined in the light of digital technologies

The Biopolitics of Disability David T. Mitchell, 2015-07-21 In the neoliberal era when human worth is measured by its relative utility within global consumer culture selected disabled people have been able to gain entrance into late capitalist culture The Biopolitics of Disability terms this phenomenon ablenationalism and asserts that inclusion becomes meaningful only if disability is recognized as providing modes of living that are alternatives to governing norms of productivity and independence Thus the book pushes beyond questions of impairment to explore how disability subjectivities create new forms of embodied knowledge and collective consciousness The focus is on the emergence of new crip queer subjectivities at work in disability arts disability studies pedagogy independent and mainstream disability cinema e g *Midnight Cowboy* internet based medical user groups anti normative novels of embodiment e g Richard Powers's *The Echo Maker* and finally the labor of living in non productive bodies within late capitalism

The SAGE Encyclopedia of Higher Education Miriam E. David, Marilyn J. Amey, 2020-05-21 Higher Education is in a state of ferment People are seriously discussing whether the medieval ideal of the university as being excellent in all areas makes sense today given the number of universities that we have in the world Student fees are changing the orientation of students to the system The high rate of non repayment of fees in the UK is provoking difficult questions about whether the current system of funding makes sense There are disputes about the ratio of research to teaching and further discussions about the international delivery of courses
