Sociology And The Twilight Of Man Homocentrism And Discourse In Sociological Theory:

Sociology and the Twilight of Man Charles C. Lemert, 1990 *Sociology and the Twilight of Man* Charles C.

Lemert, 1979 A critique of modern sociological theory this brilliant new work rather than announcing the twilight of man accepts the event both as an intellectual conclusion and an empirical fact and proceeds systematically to examine the alternatives beyond the Weber Durkheim Parsons episteme Addressing himself to the issues of pluralism in sociological theory Lemert rigorously examines representative writings of important theorists in America and Europe including the writings of Homans Lexical Explanation Blalock Theory Constructionism Parsons Analytic Realism Blumer Symbolic Interactionism Schutz Berger Luckmann Phenomenology Cicourel Ethnomethodology and Habermas Critical Theory Lemert challenges the celebrated pluralism hypothesis in his argument that recent sociological theory is not so pluralistic after all and has not made particular use of available styles of thinking *Sociology and the Twilight of Man* is an important contribution to the modern sociological enterprise for several reasons First it raises basic questions about the progress made beyond earlier theoretical writings Second it questions the explanatory force of current theories Third it questions whether contemporary theory can continue to develop in a meaningful way without a profound reexamination of its assumptions and premises And fourth it demonstrates the value of discursive analysis to theoretical studies Lemert's critique could lead to fundamental revisions of sociologists' perception of their discipline **Bibliography of Semiotics, 1975-1985**, 1986-01-01 This

Structural Lie Charles C. Lemert, 2015-12-22 *The Structural Lie* tackles one of social science's most mysterious problems How is it possible to derive statements about the grand structures of social life from their effects in the small movements of everyday life Prominent sociologist Charles Lemert shows how Marx and Freud provide some answers to this question Marx derived from the commodity his picture of the capitalist system Freud diagnosed the character of psyches from the details of

dreams slips and jokes This wonderfully readable and engaging book lays the foundation for a new social science in an age where a microchip can convey a world of information *Race of Time* Daniel Chaffee, Samuel Han, 2015-11-17 Charles Lemert is one of the most renowned critics of social theory and theorists today The editors of this book have offered and contextualised many of his best essays and situated them against the backdrop of American sociology The breadth of Lemert's work doesn't stop at an academic engagement with theoretical debates such as globalisation or postmodernism but cuts right to the heart of abiding social issues His work is focused and continues to probe pressing questions such as the rise of vulnerabilities in an era of new capitalism By weaving together personal narrative research lucid explanations and a dynamic engagement with social theory of old and new his unique prose renders accessible complex theoretical debates **The**

Order and Agency in Modernity Kwang-ki Kim,2012-02-01 In this unique analysis of three prominent theorists of modern sociology theory is understood as implicitly but importantly reflecting especially modern problems of individual and social life From the grand theoretical systems of Talcott Parsons to the unique symbolic interactionism of Erving Goffman and the radically mundane ethnomethodology of Harold Garfinkel a wide variety of noted sociological theories have addressed central issues of sociology against the backdrop of modern society When this modern backdrop is brought into the foreground of analysis sociological theories assume new depth and breadth and new historical significance The author outlines features of the modern experience drawing upon neglected cultural theorists of modernity and then shows how these features of modernity are reflected and incorporated in the scholarship of Parsons Goffman and Garfinkel The result is an original and eclectic analysis that illuminates previously overlooked dimensions to modern sociological theory and suggests new possibilities for meaningful and rewarding comparisons between theoretical traditions
