

Extremism Canada (Perry & Scrivens):

<https://uottawa.brightspace.com/d2l/le/content/242656/viewContent/4048351/View>

Abstract: This article highlights the social, cultural, and political landscape in which organized hate groups emerge, drawing from a 3-year study of the right-wing extremist movement in Canada. Through extensive interviews with law enforcement, community activists and hate group activists, as well as open source intelligence, we examined the factors that are associated with the emergence of right-wing extremist groups and rightwing inspired violence in Canada in the early to mid 2010s. Here, our focus is on the social contexts that enable such groups to flourish. We first lay out the theoretical frame to understand how broader social, cultural and political patterns render “permission to hate”. We consider the environmental factors that we identified, during our fieldwork, as particularly important in facilitating right-wing extremism.

Video Game Addiction The Push To Pathologize Video Games (Bean, Nielsen, et al.):

<https://uottawa.brightspace.com/d2l/le/content/242656/viewContent/4048353/View>

Abstract: With proposals to include “gaming disorder” in both the Diagnostic and Statistical Manual (DSM) and International Compendium of Diseases (ICD), the concept of video game addiction has gained traction. However, many aspects of this concept remain controversial. At present, little clarity has been achieved regarding diagnostic criteria and appropriate symptoms. It is unclear if symptoms that involve problematic video gaming behavior should be reified as a new disorder or are the expression of underlying mental conditions. Nonetheless, the recent proposals around gaming disorder from respected bodies such as the World Health Organization and the American Psychiatric Association seem to lock much of the applied research into a confirmatory trajectory. Since the DSM–5 proposal, research is increasingly focused on the application of the proposed criteria, as opposed to broadly testing validity and necessity of the overarching construct. This raises multiple concerns. First, the current approaches to understanding “gaming addiction” are rooted in substance abuse research and approaches do not necessarily translate to media consumption. Second, some research has indicated that “video game addiction” is not a stable construct and clinical impairment might be low. Third, pathologizing gaming behavior has fallout beyond the therapeutic setting. In light of continuing controversies, it is argued that the currently proposed categories of video game addiction disorders are premature.

Sociology Canada Readings:

Sociology Canada Christopher Beattie, Stewart Crysedale, 1977 **Sociology Canada** Christopher Beattie, Stewart Crysedale, 1974 **The Measure of Canadian Society** John Porter, 1987-01-01 Vertical Mosaic In this book are gathered ten of his outstanding essays written over a period of twenty five years Porter's well known ex student Wallace Clement provides the introduction for this volume and Richard Helmes Hayes has compiled an updated bibliography of writings by and about John Porter **Ideological Perspectives on Canada** M. Patricia Marchak, 2011-06-15 Marchak argues that liberalism and socialism have many commonalities such as the goals of equality and freedom for citizens Corporatism however is opposed to equality and promotes an authoritarian hierarchy resembling the older conservative ideology To support her argument Marchak provides a general overview of the study of ideologies analyzes liberalism and socialism in the context of Canada and uses Marxist theory to explain past and present class structure and the emergence of a corporatist social structure A valuable contribution to the debate about the society we live in Ideological Perspectives on Canada attempts to look at ideologies from an objective standpoint while admitting that analysts can never fully remove themselves from the web of their own society which in the Canadian case is steeped in liberalism socialism and corporatism **American Sociological Hegemony** Danesh A. Chekki, 1987 Provides a synthetic comparative analysis of the dominant influence of American Sociology on the sociologies of India and Canada It examines the positivism humanism controversy and the roles of sociologists and argues for the development of a global sociology Selected by Choice as an Outstanding Academic Book of 1988 1989 *The Changing Face of Canada* Roderic P. Beaujot, Donald W. Kerr, 2007 Canadian society is rapidly changing This concise up to date volume masterfully captures this change Edited by two of Canada's leading demographers Roderic Beaujot and Don Kerr this book is an exciting entry in Canadian population studies drawing from a variety of disciplines including sociology geography economics history and epidemiology The Changing Face of Canada is an essential text for demography courses across the country Each reading has been meticulously edited and concisely ordered into five essential sections fertility mortality international migration domestic migration and population distribution population aging population composition Vital issues include the role of immigration in Canada's future the deteriorating economic welfare of immigrants globalization undocumented migration and unwanted refugees Aboriginal population change implications of unprecedented low fertility and the astonishing demographic transformation of Canadian cities **Latin Americans Integration Into Canadian Society in B.C** Bernardo Berdichewsky, 2007-01-01 *Multiculturalism and Immigration in Canada* Elspeth Cameron, 2004 Multiculturalism in Canada offers a solid introduction to the history and development of the ideology of multiculturalism in Canada This ideology which has become the primary designator of Canadian society began in the early 1970s when vocal elements in the population who were neither English nor French strongly responded to the investigations of the Committee on Bilingualism and Biculturalism Given Canada's early racist tendencies the establishment

of multiculturalism was a remarkable shift in public thinking. Many issues associated with immigration have arisen in the public debates around multiculturalism. Some people are convinced that it is a pernicious ideology that enforces the ghettoisation of those different from the mainstream. Others see dangers in the way some aspects of multiculturalism are merely tokens of an all inclusive society. Still others contend that the voices of ethnicities aside from those of the two charter groups, English and French, are scarcely heard and that worse, those marginalised voices are appropriated by mainstream writers. On the whole, however, Canadians, especially younger Canadians, welcome a liberal outlook that is inclusive of a wide variety of ethnicities. For them and for many immigrants, Canada is a society that is multiple and layered, one rich in meaning. They tend to see Canada as a microcosm of the larger world, one that presents a useful model of tolerance for the world at large. Increasingly marginalised new Canadians are excelling in the arts communities, telling all Canadians what various aspects of the culture shock of transplantation feels like. This book includes a representative sample of their works.

Sociologies in Dialogue Sari Hanafi, Chin-Chun Yi, 2020-07-21 *Sociologies in Dialogue* brings together expert contributions from international scholars who reflect on the importance of collaboration between diverse sociological perspectives to enhance our understanding of the role of sociology as an academic discipline and as a vehicle for social change. By exploring the distinctive practices and research of a range of sociologists, the book shows how an open dialogue between sociologists is critical to addressing major sociological issues across the globe, such as inequality and ethnocentrism, and challenging the hierarchies of knowledge production and circulation. Contributors also discuss novel strands in theory and methodology, such as multicultural sociology, cosmopolitanism, and multiple modernities. An important contribution for researchers and students interested in global sociology, sociological theories, and methodologies. *Reading Canadian Women's and Gender History* Nancy Janovicek, Carmen Nielson, 2019-05-06 Inspired by the question of what's next in the field of Canadian women's and gender history, this broadly historiographical volume represents a conversation among established and emerging scholars who share a commitment to understanding the past from intersectional feminist perspectives. It includes original essays on Québécois, Indigenous, Black, and immigrant women's histories and tackles such diverse topics as colonialism, religion, labour, warfare, sexuality, and reproductive labour and justice. Intended as a regenerative retrospective of a critically important field, this collection both engages analytically with the current state of women's and gender historiography in Canada and draws on its rich past to generate new knowledge and areas for inquiry.
