Media Research Marshall McLuhan, 2014-01-02 Herbert Marshall McLuhan 1911 1980 received his PhD in English literature from Cambridge University and taught in the United States and Canada He is best known however as the founding father of media studies McLuhan was Director of the Center for Culture and Technology at the University of Toronto Among his ground breaking works on the psychic and social dimensions of communication technology are *The Gutenberg Galaxy* 1962 *Understanding Media the Extensions of Man* 1964 and *The Medium Is the Message An Inventory of Effects* 1967 Michel Moos premise is that Marshall McLuhan s importance derives from his achievements in rethinking the entire process of education and training itself not with his popular fame as media guru and he analyzes McLuhan s work from the feedback effect his vision continues to provide rather than from the perspective of interpreting McLuhan s pronouncements on the electronic media Moos contrasts McLuhan s thoughts with those of such thinkers as Roland Barthes Fredric Jameson Friedrich Kittler Donna Haraway and Deleuze and Guattari and renders an updated account of the effect of the mass media on our society and ourselves The concept the medium is the message is the hub around which Marshall McLuhan s explorations revolved McLuhan s interests ranged from sixteenth century literature to twentieth century business practices With wit and literary flair he reported the media s influence on society and on the individual He concluded that we could not escape being transformed by the forces that are hidden deeply within the electronic telecommunications revolution of the sixties For McLuhan the new mediums of film television and the emerging realm of the digital were the modern equivalent of Gutenberg s printing press *Essays by M McLuhan Edited and with a Commentary by M A Moos* **Harley Parker** Gary Genosko, 2025-05-15 This is the first book about the life and work of Harley Parker 1915 1992 Canadian museum exhibition designer typographer and painter As friend and collaborator of media luminary Marshall McLuhan Parker s influence extended far beyond the realm of art In this groundbreaking intellectual biography Genosko shows that Parker s unique perspective on museums is based on his application of McLuhan s medium theory to exhibition design His emphasis on the role of the senses anticipated much of contemporary sensory studies which will bring his work into focus for a new generation of scholars A highlight of Parker s career as Head of General Display at Toronto s Royal Ontario Museum 1957 1968 was his Hall of Invertebrate Fossils which opened to considerable acclaim in early 1967 That same year he mounted a multimedia gallery at the Museum of the City of New York These milestones underscore Parker s profound impact on museum studies and communication theory Central to this comprehensive study is the rediscovery of Parker s lost manuscript *The Culture Box* which would have confirmed his role as a central figure in the Toronto School of Communication

had it not been lost for some fifty years Scholars in communication cultural and museum studies will benefit from this exploration of Parker s thought as will those interested in sensory studies and the enduring value of McLuhan s ideas
