Music, Medicine and Religion at the Ospedale Di Santo Spirito in Rome Naomi J. Barker,2024 Explores the use of music as therapy and shows how it operated in the hospital s institutional social and historical contexts undergoing change in response to broader cultural and religious movements This book explores connections between the physical care of the sick based on the study of medicine concepts of healing founded on religious thought and the practice of music at the Ospedale di Santo Spirito Hospital of the Holy Spirit in Rome The hospital was a unique institution that was regulated by the Roman Catholic Church but simultaneously reflected the significant shifts in scientific thought emerging during the period that coincided with post Tridentine reforms in the church The volume discusses the hospital s foundation architecture and links with the papacy It also reflects on the then acceptable ways of knowing informed by religious concerns and medical traditions The tripartite relationship between religion medicine and music within the institution was complex At times they existed side by side at others they intersected Drawing on extensive archival research such as financial records decrees

records of apostolic visits and inventories as well as surviving musical sources printed and manuscript the book makes connections between intellectual beliefs about music and actual musical practices It explores the early use of music as therapy and investigates the musical ideals and practices of the monastic regime which ran the hospital In a wider sense the book shows how music operated in the hospital s institutional social and historical contexts and how it underwent change over time in response to broader cultural and religious movements

Music and Gender in English Renaissance Drama

Katrine K. Wong,2013-05-02 This book offers a survey of how female and male characters in English Renaissance theatre participated and interacted in musical activities both inside and outside the contemporary societal decorum Wong s analysis broadens our understanding of the general theatrical representation of music or musical dramaturgy and complicates the current discussion of musical portrayal and construction of gender during this period Wong discusses dramaturgical meanings of music and its association with gender love and erotomania in Renaissance plays The negotiation between the dichotomous qualities of the heavenly and the demonic finds extensive application in recent studies of music in early modern English plays However while ideological dualities identified in music in traditional Renaissance thinking may seem unequivocal various musical representations of characters and situations in early modern drama would prove otherwise Wong building upon the conventional model of binarism explores how playwrights created their musical characters and scenarios according to the received cultural use and perception of music and at the same time experimented with the multivalent meanings and significance embodied in theatrical music
