The Heritage of Trees Fred Hageneder, 2001 A wide ranging study of the symbolism and cultural meaning of the tree through history from the Cosmic Tree of antiquity to modern European American and Asian customs and beliefs In the companion volume *The Spirit of Trees* Fred Hageneder captivated readers with a passionate and informed account of the natural life and ecology of trees *The Heritage of Trees* evokes forest customs images and meanings of the forest from the Stone Age to modern times

Trees in Anglo-Saxon England Della Hooke, 2010 Trees played a particularly important part in the rural economy of Anglo Saxon England both for wood and timber and as a wood pasture resource with hunting gaining a growing cultural role But they are also powerful icons in many pre Christian religions with a degree of tree symbolism found in Christian scripture too This wide ranging book explores both the real historical and archaeological evidence of trees and woodland and as they are depicted in Anglo Saxon literature and legend Place name and charter references cast light upon the distribution of particular tree species mapped here in detail for the first time and also reflect upon regional character in a period that was fundamental for the evolution of the present landscape Della Hooke is Honorary Fellow of the Institute for Advanced Research in Arts and Social Sciences at the University of Birmingham

Envisioning God in the Humanities Courtney J. P. Friesen, 2018-11-09 The humanities offer insights into the highest and lowest capabilities of our own natures and at their best they function as prophetic champions of human dignity and as inspired celebrants of beauty *Envisioning God in the Humanities* pays tribute to the career of Melissa Harl Sellew a scholar and teacher who embodies the ideals of these academic disciplines The collaboration of these essays attests to the potentialities for transcendence that emerge from rigorous and collective reflection on the texts images and ideas produced in ancient societies Taking its cue from Professor Sellew s own distinguished scholarship this collection of studies begins with analyses of the New Testament Gospels then moves more broadly toward the religious life of the ancient world as attested both in literature and materiality among Jews and Christians Greeks and Romans Just as Sellew has done throughout her career so this volume invites us into to the joy of exploring distant societies and in so doing into the fuller discovery of one s own self

possible future of these beautiful trees **The Afterlife in Early Christian Carthage** Stephen E. Potthoff, 2016-12-01 The Afterlife in Early Christian Carthage explores how the visionary experiences of early Christian martyrs shaped and informed early Christian ancestor cult and the construction of the cemetery as paradise Taking the early Christian cemeteries in Carthage as a case study the volume broadens our understanding of the historical and cultural origins of the early Christian cult of the saints and highlights the often divergent views about the dead and post mortem realms expressed by the church fathers and in graveside ritual and the material culture of the cemetery This fascinating study is a key resource for students of late antique and early Christian culture
