Colonialism and Postcolonial Development James Mahoney, 2010-02-15 In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the colonizing nation is of little consequence **Decolonization,**

Self-Determination, and the Rise of Global Human Rights Politics A. Dirk Moses, Marco Duranti, Roland Burke, 2020-07-16 Leading scholars demonstrate how colonial subjects national liberation movements and empires mobilized human rights language to contest self determination during decolonization *The Oxford Handbook of Caribbean Constitutions* Richard Albert, Derek O'Brien, Se-shauna Wheatle, 2020-07-23 The Oxford Handbook of Caribbean Constitutions offers a detailed and analytical view of the constitutions of the Caribbean region examining the constitutional development of its diverse countries The Handbook explains the features of the region s constitutions and examines themes emerging from the Caribbean s experience with constitutional interpretation and reform Beginning with a Foreword from the former President of the Caribbean Court of Justice and an Introduction by the lead editor Richard Albert the remainder of the book is divided into four parts Part I Caribbean Constitutions in the World highlights what is distinctive about the constitutions of the Caribbean Part II covers the constitutions of the Caribbean in detail offering a rich analysis of the constitutional history design controversies and future challenges in each country or group of countries Each chapter in this section addresses topics such as the impact of key historical and political events on the constitutional landscape for the jurisdiction a systematic account of the interaction between the legislature and the executive the civil service the electoral system and the independence of the judiciary Part III addresses fundamental rights debates and developments in the region including the death penalty and socio economic rights Finally Part IV features critical reflections on the challenges and prospects for the region including the work of the Caribbean Court of Justice and the future of constitutional reform This is the first book of its kind bringing together in a single volume a comprehensive review of the constitutional development of the entire Caribbean

region from the Bahamas in the north to Guyana and Suriname in South America and all the islands in between While written in English the book embraces the linguistic and cultural diversity of the region and covers the Anglophone Caribbean as well as the Spanish French and Dutch speaking Caribbean countries *Patterns of Caribbean Development* Jay

Mandle,2010-11-26 First published in 1982 this study attempts to put contemporary Caribbean development into historical perspective By first constructing a Marxist framework for the study of development Jay Mandle assesses the reasons why the region emerged underdeveloped and evaluates post world war two efforts to overcome the legacy of poverty through a strategy of industrialization through invitation Identifying the reasons why a Marxist framework yielded results which were unsatisfactory the author then explores the requirements which must be met for a more reliable study of the Caribbean s economic development Case studies of Cuba Jamaica Guyana Trinidad and Tobago examine the extent to which these requirements have been met *Urbanization and Urban Growth in the Caribbean* Malcolm Cross,1979-06-14 This book

originally published in 1979 as part of the Urbanization in Developing Countries series examines the nature and impact of unplanned urban growth in the Caribbean Unlike other parts of the underdeveloped world Caribbean societies are unique in having been created by European economic and strategic needs The original instrument for this domination was the plantation that generated the infamous history of migration from Africa and Asia and which continues to exert an important influence in determining the structure and growth of major urban centres The book also surveys some distinctive features of Caribbean societies including family life religions and social divisions apparently based on race and colour and concludes by affirming the need to redirect development strategies from Western models towards the creation of a uniquely Caribbean identity based on the redevelopment of land and the revival of agriculture Examples are drawn from Cuba Haiti Puerto Rico and the Commonwealth Caribbean *Ordering Independence* S. Mawby,2012-08-20 Spencer Mawby analyses the conflicts

between the British government and Caribbean nationalists over regional integration the Cold War immigration policy and financial aid in the decades before Jamaica Trinidad and the other territories of the Anglophone Caribbean became independent *An Ethical Turn in Governance* Pearson A. Broome,2021-04-09 The recurring image throughout the developing world is one of the disintegration of civil order debilitating leaders into a crisis of governance Not a day goes by without extensive media coverage of some form of corruption perceived or real concerning the lack of productivity and or increasing incidences of fraud and unethical behavior An Ethical Turn in Governance The Call for a New Development Narrative posits that the intensification of this crisis is compatible with the root cause of capitalist modernization with its rapid and disorientating changes To mitigate the accompanying effects a call is made for re conceptualization of the search for a solution through incorporating and strengthening the value of an ethical consciousness in our thinking and policies of governance The idea is an urgent possibility perhaps even a controversial and ambitious proposal for countries to begin imagining how it might be brought about and what it would look like The central aim and objective is to move toward a

framework for continued theory development and empirical research thereby offering a new narrative on governance and by extension development Recognizing that the inclusion of an ethical turn in governance is fraught with difficulty because of the different opinions the relativism of different value systems and options identified often derived from the perspectives of various stakeholders a call is made for an interactive discourse in the public sphere The argument advanced is that a body politic with sensible social values germane to the policy process is the best way in which human conduct is ordered guided and appraised in order to live together in well functioning societies critical for the success of any democracy

Harris, 2017-12-01 Punishing the Black Body examines the punitive and disciplinary technologies and ideologies embraced by ruling white elites in nineteenth century Barbados and Jamaica Among studies of the Caribbean on similar topics this is the first to look at the meanings inscribed on the raced gendered and classed bodies on the receiving end of punishment Dawn P Harris uses theories of the body to detail the ways colonial states and their agents appropriated physicality to debase the black body assert the inviolability of the white body and demarcate the social boundaries between them Noting marked demographic and geographic differences between Jamaica and Barbados as well as any number of changes within the separate economic political and social trajectories of each island Harris still finds that societal infractions by the subaltern populations of both islands brought on draconian forms of punishments aimed at maintaining the socio racial hierarchy Her investigation ranges across such topics as hair cropping the 1836 Emigration Act of Barbados and other punitive legislation the state reprisals following the 1865 Morant Bay Rebellion in Jamaica the use of the whip and the treadmill in jails and houses of correction and methods of surveillance policing and limiting free movement By focusing on meanings ascribed to the disciplined and punished body Harris reminds us that the transitions between slavery apprenticeship and post emancipation were not just a series of abstract phenomena signaling shifts in the prevailing order of things For a large part of these islands populations these times of dramatic change were physically felt
