political theorists seeking to engage with the details of Hegel's early and mature social thought By bringing Hegel's earliest writings into dialogue with his Philosophy of Right Goldstein argues that Hegel's mature political philosophy should be understood as a response to his youthful failure to build a sustainable account of the good life upon the foundations of ancient virtue This study reveals how Hegel's mature response integrates ancient concerns for the well ordered life and modern concerns for autonomy in a new robust conception of selfhood that can be actualized across the full expanse of the modern political community
