The Heart Of England Oxford Paperbacks:

English Novel Hist 1895-1920 David Trotter, 2022-02-22 First Published in 1993 Written specifically for students and assuming no prior knowledge of the subject David Trotter's *The English Novel in History 1895-1920* provides the first detailed and fully comprehensive analysis of early twentieth century English fiction Whereas all previous studies have been rigorously selective Trotter looks at over 140 novelists across the whole spectrum of fiction from the innovations of Joyce's *Ulysses* through to popular mass market genres such as detective stories and spy thrillers By examining the novels in both stylistic and historical terms David Trotter looks at the ways in which writers responded to contemporary preoccupations such as the spectacle of consumption and the growth of suburbia or to anxieties about the decline of Empire racial degeneration and sexual anarchy He also challenges the view that literature of the period can be interpreted as a neat procession from realism to Modernism [Subject Index of the Modern Books Acquired by the British Museum in the Years ... , 1927](#) ***The Heart of His Mystery*** Waterfield John Waterfield, John Waterfield, 2009-10 Shakespeare has traditionally been viewed as Queen Elizabeth's poet laureate and as the official mouthpiece of the Elizabethan age But the Elizabethan world was torn apart by the religious divisions initiated by the Reformation and vitiated by the government's merciless persecution of Catholics As it was the victors who wrote the history the English Reformation has been portrayed as a peaceful transition enjoying majority support when in fact it was nothing of the kind Elizabeth's regime was a police state which sanctioned the use of torture where Catholic priests and those who harboured them were liable to summary and bloody execution The persecution of Catholics was continued by James I evoking the violent response of the Gunpowder Plot *The Heart of His Mystery* examines Shakespeare's life and work against this background There is strong biographical evidence that he was himself a Catholic and a detailed survey of his plays and poems shows that his imagination was intimately bound up with his religious faith When we realise that his human compassion grew from his membership in a persecuted community we can glimpse the mystery he has encrypted in his works and we come closer to understanding the hidden heart of Shakespeare the man *The Feeling Heart in Medieval and Early Modern Europe* Katie Barclay, Bronwyn Reddan, 2019-12-02 The heart is an iconic symbol in the medieval and early modern European world In addition to being a physical organ it is a key conceptual device related to emotions cognition the self and identity and the body The heart is read as a metaphor for human desire and will and situated in opposition to or alongside reason and cognition In medieval and early modern Europe the feeling heart the heart as the site of emotion and emotional practices informed a broad range of art literature music heraldry medical texts and devotional and ritual practices This multidisciplinary collection brings together art historians literary scholars historians theologians and musicologists to highlight the range of meanings attached to the symbol of the heart the relationship between physical and metaphorical representations of the heart and the uses of the heart in the production of identities and communities in medieval and early modern Europe *The Heart of Leonardo* Francis

Wells,2014-07-08 This book contains all of Leonardo Da Vinci s drawings on the heart and its physiology accompanied by re translations of all of the associated notes All Leonardo s drawings have been interpreted in the light of modern knowledge by a practicing cardiac clinician and anatomist The veracity of his work is proven against contemporary dissections of cardiac structure and comparison of his illustrations with contemporary images generated by Magnetic Resonance scanners and high definition ultrasound will astound the reader Perhaps the most interesting element is the re dissection of the Ox heart set against Leonardo s own drawings His place in the greater scheme of anatomical development will be put into context with his ideas of man s place in the microcosm macrocosm continuum Books and Prints at the Heart of the Catholic Reformation

in the Low Countries (16th-17th Centuries) Renaud Adam,Rosa De Marco,Malcolm Walsby,2022-10-24 Often considered the advent of mass media the use of books and prints by Protestants has been widely studied and has generated a rich and plentiful bibliography In contrast the production and use of the same media by the proponents of the Counter Reformation have not received the attention they deserve especially in the context of the Low Countries The twelve chapters in this volume provide new perspectives on the efficacy of the handpress book industry to support the Catholic strategy in the Spanish Low Countries and underline the mutually beneficial relationship between the Counter Reformation and the typographic world This volume represents an important contribution to our understanding of the sociocultural and socioeconomic background of the Catholic Netherlands Annual List of New and Important Books Added to the Public Library of the City of Boston Boston Public Library,1901 **Entangling Web** Alec Ryrie,Mark A. Europe has a tremendously important role in the history of Christianity and was the continent with the most Christians from roughly the year 900 to 1980 However Europe is now home to only 22 percent of all Christians in the world down from 68 percent in 1900 The major trend of European religion in the twentieth and twenty first centuries has been secularization disestablishment and decreased influence of state churches lower importance of religion in the public sphere the decline of religious beliefs and practices and individual religious switching from Christianity to atheism and agnosticism One hundred years ago it was true that the typical Christian in the world was a white European Given current trends however Europe is clearly no longer the geographic nor demographic center of world Christianity Yet that does not mean Europe has no role in the future It is still the home of major Christian communions such as Catholics Rome Anglicans Canterbury Russian Orthodox Moscow and Lutherans Geneva European mission agencies are active throughout the world providing theological education and social welfare programs combatting climate change and advocating for gender equality Durée as Einstein-in-the-Heart Candice Lee Kent,2024-03-29 Durée as Einstein in the Heart traces the trajectory of modernist interaction with Bergson and Einstein through the works of Virginia Woolf 1882 1941 and Mary Butts 1890 1937 It presents an overview of critical approaches that focus on time in Woolf s novels and that foreground Bergson in their analyses of Woolf It then examines how Woolf s formal experimentation and theorisation of time in Jacob s Room 1922 and Mrs Dalloway

1925 relates to Bergson's temporal theories This is followed by a discussion on the role Bergson's thinking played in the early formulation of Butts's ideas of time and an analysis of how Bergson's ideas emerge in the short story *Angele au Couvent* 1923 concluding by highlighting points of contrast in the engagements of Woolf and Butts The book then documents the growth of Butts's interest in Einstein's ideas and shows how she amalgamates these with Bergson's thinking in her journals and in the most intense of her fictional engagement with Einstein's ideas the novel *Death of Felicity Taverner* 1932 It discusses Butts's responses to the popular science genre and examines the important role played by J W N Sullivan and Arthur Eddington in the development of her understanding and interpretation of physics It concludes with a discussion of Butts's antisemitic characterisation of Kralin as purveyor of corrupted science in contrast with the Taverners who are conscious of *dur e* and delight in the abstractions of scientific truth

The Play of Conscience in Shakespeare's England Jade

Standing, 2023-12-29 Having a conscience distinguishes humans from the most advanced AI systems Acting in good conscience consulting one's conscience and being conscience wracked are all aspects of human intelligence that involve reckoning deriving general laws from particular inputs and vice versa and judgement contemplating the relationship of the reckoning system to the world While AI developers have mastered reckoning they are still working towards the creation of judgement This book sheds light on the reckoning and judgement of conscience by demonstrating how these concepts are explored in *Everyman* *Doctor Faustus* *The Merchant of Venice* and *Hamlet* Academic student or general interest readers discover the complexity and multiplicity of the early modern concept of conscience which is informed by the scholastic intellectual tradition juridical procedures of the court of Chancery the practical advice of Protestant casuistry and Reformation theology The aims are to examine the rubrics for thinking through regulating and judging actions that define the various consciences of Shakespeare's day to use these rubrics to interpret questions of truth and action in early modern plays and to offer insights into what it is about conscience that developers want to grasp to eliminate the difference between human and non human intelligences and achieve true AI
