Huron, 2018-03-13 An investigation of the practice of commoning in urban housing and its necessity for challenging economic injustice in our rapidly gentrifying cities Provoked by mass evictions and the onset of gentrification in the 1970s tenants in

Washington D C began forming cooperative organizations to collectively purchase and manage their apartment buildings These tenants were creating a commons taking a resource housing that had been used to extract profit from them and reshaping it as a resource that was collectively owned by them In Carving Out the Commons Amanda Huron theorizes the practice of urban commoning through a close investigation of the city s limited equity housing cooperatives Drawing on feminist and anticapitalist perspectives Huron asks whether a commons can work in a city where land and other resources are scarce and how strangers who may not share a past or future come together to create and maintain commonly held spaces in the midst of capitalism Arguing against the romanticization of the commons she instead positions the urban commons as a pragmatic practice Through the practice of commoning she contends we can learn to build communities to challenge capitalism s totalizing claims over life

For All the People John Curl,2012-07-01 Seeking to reclaim a history that has remained largely ignored by most historians this dramatic and stirring account examines each of the definitive American cooperative movements for social change farmer union consumer and communalist that have been all but erased from collective memory Focusing far beyond one particular era organization leader or form of cooperation For All the People documents the multigenerational struggle of the American working people for social justice While the economic system was in its formative years generation after

generation of American working people challenged it by organizing visionary social movements aimed at liberating themselves from what they called wage slavery. Workers substituted a system based on cooperative work and constructed parallel institutions that would supersede the institutions of the wage system. With an expansive sweep and breathtaking detail, this scholarly yet eminently readable chronicle follows the American worker from the colonial workshop to the modern mass assembly line, from the family farm to the corporate hierarchy, ultimately painting a vivid panorama of those who built the United States and those who will shape its future. John Curl, with over forty years of experience as both an active member and scholar of cooperatives, masterfully melds theory, practice, knowledge, and analysis to present the definitive history from below of cooperative America. This second edition contains a new introduction by Ishmael Reed, a new author's preface discussing cooperatives in the Great Recession of 2008 and their future in the 21st century, and a new chapter on the role co-ops played in the Food Revolution of the 1970s.

Warsaw Housing Cooperative Magdalena Matysek-Imielińska, 2019-07-25. This book discusses the unknown and remote urban experiment of modernist social practices and dreams of a better tomorrow. It describes the history of the Warsaw Housing Cooperative not as a historical relic or a single case study, but instead analyses this working class social housing estate in itself, an extremely interesting emancipatory project from the perspective of contemporary urban studies. It focuses on issues related to the power of architecture, architects, and the estate residents themselves, the city's performative actions, problems related to the polycentric character of the city, authorities, the opportunities of building urban institutions, and social identities and urban common goods. Inspired by the history of the Warsaw Housing Cooperative, the book investigates how the estate residents, assisted by social reformers today called urban activists, organised the urban space of performative democracy and how they developed anti-capitalist urban survival strategies and created new lifestyles. It also analyses how passive tenants turned into active citizens, claiming their right to the city. The inspiring book is intended for researchers in the field of performative studies, urban sociologists, critical urban studies, researchers, animators of social life, and urban activists.

Hidden History of Arlington County Charlie Clark, 2017. For over two centuries, Arlington County has been a steadfast center for government institutions and a vibrant part of the Washington D.C. community. Many notable figures made their home in the area, like Supreme Court chief justice Warren Burger, General George Patton, and a beauty queen who almost married crooner Dean Martin. The drama of Virginia's first school integration unfolded in Arlington, beginning in the late 1950s. In the 1960s, two motorcycle gangs clashed in public at a suburban shopping center. Local author, historian, and *Our Man in Arlington*, Charlie Clark, uncovers the vivid and hidden history of a capital community.
