Sir Gardner Wilkinson And His Circle:

Sir Gardner Wilkinson and His Circle Jason Thompson, 2010-07-22 Following in the footsteps of Napoleon's army Europeans invaded Egypt in the early nineteenth century to gaze in wonder at the massive inscrutable remains of its ancient civilizations One of these travelers was a twenty four year old Englishman John Gardner Wilkinson His copious observations of ancient and modern Egyptian places artifacts and lifeways recorded in such widely read publications as *Manners and Customs of the Ancient Egyptians* and *Handbook for Travellers in Egypt* made him the leading early Victorian authority on ancient Egypt and paved the way for the scientific study of Egyptology In this first full scale biography of Wilkinson 1797-1875 Jason Thompson skillfully portrays both the man and his era He follows Wilkinson during his initial sojourn in Egypt 1821-1833 as Wilkinson immersed himself in a contemporary Egyptian lifestyle and in study of its ancient past He shows Wilkinson in his circle of friends among them Edward William Lane Robert Hay and Frederick Catherwood And he traces how Wilkinson continued to use his Egyptian material in the decades following his return to England With the rise of professional Egyptology in the middle and later nineteenth century Sir Gardner Wilkinson came to be viewed as an amateur and his popularity diminished Drawing upon recently opened sources Thompson returns Wilkinson to his rightful place within centuries of Egyptian scholarship and assesses both the vision and the limitations of his work The result is a compelling portrait of a Victorian gentleman scholar and his cultural milieu [Wonderful Things: A History of Egyptology, Volume 1](#)

Jason Thompson, 2015-03-01 The discovery of ancient Egypt and the development of Egyptology are momentous events in intellectual and cultural history The history of Egyptology is the story of the people famous and obscure who constructed the picture of ancient Egypt that we have today recovered the Egyptian past while inventing it anew and made a lost civilization comprehensible to generations of enchanted readers and viewers thousands of years later This the first of a three volume survey of the history of Egyptology follows the fascination with ancient Egypt from antiquity until 1881 tracing the recovery of ancient Egypt and its impact on the human imagination in a saga filled with intriguing mysteries great discoveries and scholarly creativity *Wonderful Things* affirms that the history of ancient Egypt has proved continually fascinating but it also demonstrates that the history of Egyptology is no less so Only by understanding how Egyptology has developed can we truly understand the Egyptian past [Lost Ramessid and Post-Ramessid Private Tombs in the Theban Necropolis](#) Lise Manniche, 2011 Part of the Carsten Niebuhr Institute Publications series this volume is a study of tombs of officials in the Theban necropolis now lost but recorded in the manuscripts of travellers to Egypt in the early and mid 19th century It also includes the fragments of relevant wall decoration in museums and other collections [Wonderful Things](#) Jason Thompson, 2015 The discovery of ancient Egypt and the development of Egyptology are momentous events in intellectual and cultural history The history of Egyptology is the story of the people famous and obscure who constructed the picture of ancient Egypt that we have today recovered the Egyptian past while inventing it anew and made a lost civilization

Archaic Sculpturings of Cups, Circles, &c. Upon Stones and Rocks in Scotland, England, & Other Countries James Young Simpson, 1867 **Material Theories** Elena Chestnova, 2022-06-19 Material Theories takes a radically new approach to well established thinking on nineteenth century architecture and design by investigating Gottfried Semper's classic ideas about dressing metamorphosis of material and cultural development culminating in his two volume publication *Style* This book demonstrates how Semper's theories crystallised among his encounters with material things of the late 1840s and early 1850s It examines several discursive frameworks and phenomena which shaped the attitude to artefacts in Europe in the mid nineteenth century and which were specifically pertinent to Semper's evolution archaeology and antiquarianism the domestic interior print media collections and the embodied relationship between the designer and their work For the first time this book examines the construction of a design theory not only as an intellectual endeavour but also as a process of confrontation with material things It employs recent approaches to material culture in particular Thing Theory in order to show that Semper's artefact references constituted his ideas rather than simply giving impetus to them It will be an important investigation for academics and researchers interested in interior design history as well as scholars of material culture and history of design theory **Marvellous Thieves** Paulo Lemos Horta, 2017-01-16 Although many of its stories originated

centuries ago in the Middle East the *Arabian Nights* is regarded as a classic of world literature by virtue of the seminal French and English translations produced in the eighteenth and nineteenth centuries Supporting the suspicion that the story collection is more Parisian than Persian some of its most famous tales including the stories of Aladdin and Ali Baba appear nowhere in the original sources Yet as befits a world where magic lamps may conceal a jinni and fabulous treasures lie just beyond secret doors the truth of the *Arabian Nights* is richer than standard criticism suggests *Marvellous Thieves* which draws on hitherto neglected sources is a brilliant fluent and original work of literary scholarship Robert Irwin *Literary Review* This fine book cogently probes an influential period in the knotted and at times sordid history of the *Arabian Nights* serving as a fine example to those unraveling this promiscuous and forever malleable set of stories Charles Shafaieh *Wall Street Journal* Intelligent and engrossing The great merit of Horta's book is that its interest always lies in the story of the story in mapping out the complex network of the translators editors and travellers behind the *Arabian Nights* in ways that enrich our sense of this remarkable text Shahidha Bari *Times Higher Education* *The Red Land* Steven E.

Sidebotham, Martin Hense, Hendrikje M. Nouwens, 2008 For thousands of years Egypt has crowded the Nile Valley and Delta The Eastern Desert however has also played a crucial though until now little understood role in Egyptian history Ancient

inhabitants of the Nile Valley feared the desert which they referred to as the Red Land and were reluctant to venture there yet they exploited the extensive mineral wealth of this region They also profited from the valuable wares conveyed across the desert between the Nile and the Red Sea ports which originated from Arabia Africa India and elsewhere in the east Based on twenty years of archaeological fieldwork conducted in the Eastern Desert The Red Land reveals the cultural and historical richness of this little known and seldom visited area of Egypt A range of important archaeological sites dating from Prehistoric to Byzantine times is explored here in text and illustrations Among these ancient treasures are petroglyphs cemeteries fortified wells gold and emerald mines hard stone quarries roads forts ports and temples With 250 photographs and fascinating artistic reconstructions based on the evidence on the ground along with the latest research and accounts from ancient sources and modern travelers the authors lead the reader into the remotest corners of the hauntingly beautiful Eastern Desert to discover the full story of the area s human history Visualizing Egypt Paulina Banas,2025-04-15

Illustrated publications and the role of market forces in shaping representations of Egypt at a time when European colonial interests in the region were at their peak with 80 color and black and white illustrations In the nineteenth century following Napoleon Bonaparte s 1798 campaign in Egypt new possibilities of travel and improvements in printing technology saw an emergence of publishing ventures in France and Britain dedicated to the production of albums and travel accounts featuring images of Muslim Egypt and Islamic architecture and catering to a growing European fascination with the East Visualizing Egypt analyzes the context and process of production of these highly illustrated publications from their conceptualization to the finished product and its afterlife from marketing to the sales of these books and from circulation to their reception by nineteenth century audiences By tracing the long arduous and often risky publishing journeys of the makers of these books including publishers writers and artists such as the Frenchman mile Prisse d Avennes Paulina Banas reveals a complex terrain of changing market demands collaborations and conflicting views and the unsettled authorship of these works prompting us to think more profoundly about artistic and intellectual exchange in the world of nineteenth century Orientalist book production Visualizing Egypt considers nineteenth century book illustrations on Egypt and the Orient not merely as expressions of enduring ideology and colonial propaganda but as representations shaped by the often overlooked commercial exigencies of the growing publishing industry and the reckless competition within it **The Lost Manuscript of Frédéric**
