Social Context Of Law:

Law in a Social Context Lon Luvois Fuller, Thomas W. Bechtler, 1978 **Law in social context series**, **The Social Construction of Sexual Harassment Law** Mia Cahill, 2020-08-26 This title was first published in 2001 The global legal landscape is littered with attempts to provide context and meaning for sexual harassment law Most have failed because they have limited themselves to the mere words of law This cross national study is the first to expand our notion of sexual harassment law and implementation by exposing the relationship between law and its social context demonstrating how this fundamentally influences legal understandings and outcomes Taking a unique theoretical approach this book explores perceptions of law within national corporate and the individual contexts analyzing the potentials of each level to influence the social understanding of law and the wider role of law in society itself The result is a pioneering work of fresh insight which will appeal to a broad range of academic disciplines The Social Context of Law Sheryl J. Grana, Jane C. Ollenburger, 1999 Appropriate for courses in Sociology Political Science and Criminal Justice departments specifically for the Sociology of Law Law and Society and Introduction to Law This text examines the intertwining relationship between law and society The central themes of the text emphasize the relationship of social conditions social ideas and people to the creation interpretation and use of law These three concepts are further used to illustrate how law is formulated in a cross cultural context as well as within the confines of gender race and social class **Reporting Crime: Effects of social context on the decision of victims to notify the police** Heike Goudriaan, 2006 The De Gruyter Handbook on Law and Digital Technologies Massimo Durante, Ugo Pagallo, 2025-09-22 The De Gruyter Handbook on Law and Digital Technologies provides a comprehensive accessible and thought provoking guide to the current and future regulation of digital technologies It addresses key legal challenges such as reconceptualizing crucial deep rooted notions including those of person autonomy democracy the rule of law sovereignty constitutionalism and governance The handbook proposes critical explorations of the potential impact of digital technologies on new and traditional forms of governance and regulation across different and competitive normative perspectives such as law economy social norms and legal design In this framework it addresses the societal transformations brought about by digital technologies the legal means for regulating the field and the impact of governance in areas such as fintech sustainability outer space or healthcare **The Social Contract Rediscovered** Wenwei Guan, 2025-06-30 The Social Contract Rediscovered conducts a critical analysis of the historical evolution of legitimacy tracing its development from natural law to positive law and finally to post modern critiques It fills a scholarly gap by addressing the overlooked aspect of the consent process The book begins with a recap of the historical development of social contract theory It draws from a broad base of jurisprudential and social theories to think through how social contract s rise and fall forms an integral part of legitimacy s modernization process from the Enlightenment driven Industrial Revolution s global proliferation to the end of the 20th century It then integrates discussion of consensus construction at

three levels private contract legitimacy national development consensus and global modern exchange mechanism in the late 20th century Rather than ask how state legitimacy is constructed in social contract theory the book asks what role an individual plays in the process of consensual legitimacy construction This individual oriented perspective calls for a jurisprudential construction of process legitimacy and consensual legitimacy s onto epistemological integrity Providing a new perspective on the social contract this book will interest scholars of private law international trade and development law

Law, Sexuality, and Society David Cohen,1994-02-25 Examines the regulation of sexuality the family and unorthodox religious beliefs in classical Athens by placing the question in a larger comparative and theoretical framework *A Social Theory of International Law* Kazuko Hirose Kawaguchi,2013-11-11 The ability to shape one s own destiny to make decisions on the basis of one s own ideals and goals is a uniquely human characteristic It is shared by the groups that human beings form peoples nations and other communities each bound by a common destiny The very existence of different individuals and groups that have this characteristic virtually guarantees that there will be conflicts among them And yet it is also human to want to find common ground with others When individuals or groups emphasize their differences the result is conflict when they find common ground cooperation becomes possible However even when it appears that cooperative efforts have resolved the sources of conflict not all conflict will disappear Conflict is a natural part of all human interaction Both conflict and cooperation exist simultaneously All social phenomena can ultimately be reduced to the question of how these two human characteristics are reconciled and allowed to coexist on the same plane **A Social Theory of International Law** Kazuko Hirose,2003-01-01 There has long been an advocacy for the sociology of international law and yet it has never been constructed so systematically and axiomatically as in this book Based on vital terms such as action and system this book has conducted an investigation into the auspices or the fundamental international sociological conditions over which international law is built and accordingly into how international law can control global relations The significance of this work lies in its aim of showing by the application of a consistent logic how complex observed phenomena can be explained and understood on the basis of certain shared fundamental perceptions drawn from common experience By asking how a state acts in a complex system that consists of at least two subsystems having different goals and different logics two specific issues are discussed 1 The relationship between domestic and international law namely that between Article 9 of the Constitution of Japan and the UN Charter especially the provisions for a collective security system as mentioned in chapter VII 2 The relationship between international law and international politics namely the relationship between the prohibition of the use of nuclear weapons and the logic of nuclear deterrence
