

Social Control In The Colonial Economy

John O. Ledyard

Social Control In The Colonial Economy:

Social Control in the Colonial Economy Jonathan R. T. Hughes, 1976

The ^AOxford Encyclopedia of Economic History Joel Mokyr, 2003-10-16 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history

The Economy of British America, 1607-1789 John J. McCusker, Russell R. Menard, 2014-01-01 By the American Revolution the farmers and city dwellers of British America had achieved individually and collectively considerable prosperity The nature and extent of that success are still unfolding In this first comprehensive assessment of where research on prerevolutionary economy stands what it seeks to achieve and how it might best proceed the authors discuss those areas in which traditional work remains to be done and address new possibilities for a new economic history

Historical Political Economy of Washington, D.C. Abdul Karim Bangura, 2000 This collection of papers presented November 22 1999 at Howard University presents a wide range of findings on the political economic system of Washington D C Prefaced by an introduction to the field of Political Economy for the general reader the book presents chapters in chronological order beginning with the communal system and concluding with today's post industrial service system which permeates the District Each chapter concludes with a discussion of the classical and radical perspectives on the historical period

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain's declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this

volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it *The Economics of Informational Decentralization: Complexity, Efficiency, and Stability* John O.

Ledyard, 2012-12-06 In this volume are papers written by students and co authors of Stanley Reiter The collection reflects to some extent the range of his interests and intellectual curiosity He has published papers in statistics management science international trade and welfare economics He co authored early papers in economic history and is reported to be largely responsible for giving the field its name of Cliometrics He helped initiate nurture and establish the area of economics now known as mechanism design which studies information decentralization incentives computational complexity and the dynamics of decentralized interactions The quality craft depth and innovative nature of his work has always been at an exceptionally high level Stan has had a strong and important direct effect on many students at Purdue University and Northwestern University He created and taught a course which all of his students have both dreaded and respected Using the Socratic method in remarkably effective ways to teach theory skills he has guided prodded and encouraged us to levels we did not think we were capable of Some of his students are represented in this volume But even those whose careers took directions other than mathematical economics still consider that training to be an important component of their success Stan's students include department chairmen business executives Deans a Secretary of the Air Force and a College President His guidance has been necessary and fundamental to whatever successes we have had **From Market-Places to a Market**

Economy Winifred Barr Rothenberg, 1992-11-15 Through innovative use of little used archival material Rothenberg finds that the relevant economic magnitudes farm commodity prices wages for day and monthly farm labor and the determinants of rural wealth holding behaved as if they had been formed in a market This ground breaking discovery reveals how an agricultural economy that lacked both an important export staple and technological change could experience market led growth To understand this impressive economic development Rothenberg discusses a number of provocative questions

The Cambridge Economic History of the United States Stanley L. Engerman, Robert E. Gallman, 1996-04-26 In the past several decades there has been a significant increase in our knowledge of the economic history of the United States This three volume History has been designed to take full account of new knowledge in the subject while at the same time offering a comprehensive survey of the history of economic activity and change in the United States This first volume surveys the economic history of British North America including Canada and the Caribbean and of the early United States from early settlement by Europeans to the end of the eighteenth century The book includes chapters on the economic history of Native Americans to 1860 and also on the European and African backgrounds to colonization Subsequent chapters cover the

settlement and growth of the colonies including special surveys of the northern colonies the southern colonies and the West Indies to 1850 Other chapters discuss British mercantilist policies and the American colonies and the American Revolution the constitution and economic developments through 1800 Volumes II and III will cover respectively the economic history of the nineteenth century and the twentieth century American Studies Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 **A Bibliography of Historical Economics to 1980** Deirdre N. McCloskey, George K. Hersh, Jr, 1990 Historians and economists will find here what their fields have in common the movement since the 1950s known variously as cliometrics economic history or historical economics A leading figure in the movement Donald McCloskey has compiled with the help of George Hersh and a panel of distinguished advisors a highly comprehensive bibliography of historical economics covering the period up until 1980 The book will be useful to all economic historians as well as quantitative historians applied economists historical demographers business historians national income accountants and social historians
