Social Crisis And Social Demoralization:

Dictionary of Sociology Henry Pratt Fairchild, 1944-01-15 Preface Every science must have its special vocabulary or terminology Sciences deal with ideas thoughts and concepts and these must be expressed in words Even the facts which are the groundwork of science must be set forth largely in words No science therefore can have any more precision and exactitude than the words or other symbols such as mathematical or chemical formulae in which it is embodied Quite generally this situation calls for a special dictionary or glossary for each particular science W.E.B. Du Bois and the Africana Rhetoric of Dealienation Monique Leslie Akassi, 2018-11-02 As the rich words from the African proverbs resonate into the twenty first century regarding the importance of identity and telling the stories of people of African descent through the eyes of the people the grand rhetorician and griot of the twentieth century Dr William Edward Burghardt Du Bois s infamous problem remains so today the problem of the colour line After the election of Barack Hussein Obama the first African American president of the United States after the Civil Rights Movement after Brown versus the Board of Education after the students right to their own language after Plessy versus Ferguson and the murders of innocent young African American males including Emmett Till Timothy Thomas Trayvon Martin John Crawford III Tamir Rice Jordan Davis Eric Garner and Mike Brown people of African descent are still battling with being labelled a problem in one s own country while the USA continues to strive for a post racial era W E B Du Bois s rhetoric and motives in general are more relevant today than ever in reassessing what he so eloquently describes and unveils through the phrase double consciousness in *Souls of Black Folk* 1903 through which he reveals the feeling of a problem This ground breaking volume featuring contributions from W E B Du Bois s great grandson Arthur McFarlane II among others is organized into three parts Part I focuses on the foundation of Du Bois s Africana Rhetoric through the origins of Africana Studies Pan Africanism and Africana Critical Theory Part II focuses on Du Bois s rhetorical strategies and rhetorical analyses in his scholarship and life Part III focuses on gender and sexuality in Du Bois s selected works This work the first of its kind devoted exclusively to Du Bois s rhetoric and motives can serve as a blueprint for today as the struggle toward a post racial society continues The World's Crisis L. B. Woolfolk, 1868 **The Soviet System In Crisis** Alexander Dallin, Gail W Lapidus, 2019-07-18 This reader is intended to fill the urgent need for up to date materials on the Gorbachev era and to provide scholars and students with source materials and interpretations not available in standard texts In addition the book will be regularly revised and updated to take account of rapidly changing events Alexander Dallin and Gail Lapidus have brought together outstanding Western analyses as well as Soviet documents and commentary dealing with developments in the USSR s politics economy society culture and foreign policy since 1985 The collection covers the full spectrum of views skeptical and enthusiastic ideological and pragmatic offered by journalists politicians observers and participants Introductory and concluding material by the editors provides the essential context to help students understand the myriad opinions put forth on the vast changes in the USSR and where its

future may lie *Ronald Reagan and the Politics of Freedom* Andrew Busch,2001 In Ronald Reagan and the Politics of Freedom Andrew E Busch goes beyond economic and foreign policies to examine Reagan s understanding of statesmanship Busch analyzes Reagan s conscious attempt to strengthen the separation of powers federalism and traditional rhetoric and his efforts to revive the notion of limited government in a Constitutional Republic In this important new study Busch concludes that Ronald Reagan s politics of freedom found in his discourse policy and coalition building achieved significant successes in the 1980s and beyond *France Under Fire* Nicole Dombrowski Risser,2012-07-12 A social military and political history of the French refugee crisis tracing the impact of government responses upon civilian lives Marginality and Modernity Mauro Giardiello,2017-07-05 This book traces the major stages in the evolution of the sociological concept of marginality highlighting in particular the contribution made by Gino Germani Its purpose is to analyse starting with the sociological theory of the early 1960s the progressive maturation of the scientific status of the concept of marginality and to test the theoretical premise that gave rise to Germani s theory of marginality The author begins by examining the contribution of the Chicago School He explores the complex relationship between the theory of marginality and modernization by analysing North American theses and the criticisms mainly generated in Latin America The goal is to reconstruct Germani s theoretical model of marginality addressing its application to contemporary social and economic conditions Giardiello s analysis is intertwined with two themes that are central to Germani s thought about marginality The first concerns the origin of the concept of social exclusion within sociological thought The second shows how marginality is clearly a phenomenology connected to the contradictions of modernity Germani s paradigm of marginality enables the social scientist to resolve the contradictions between the analytical perspectives that deal with marginality in an objective way and the one that observes it subjectively **The Logic of Compressed Modernity** Chang Kyung-Sup,2022-04-13 Most theories of modernity are based explicitly or implicitly on the development of Western societies since the late medieval period but these theories are of limited value for understanding the development of societies in Asia and other parts of the world where the process of modernization took place under different circumstances and often in a rapid and highly compressed fashion not over centuries but in decades Asian societies have been propelled into modernity too but theirs is a compressed modernity which displays very different traits In this important book Chang Kyung Sup provides a systematic account of this compressed modernity and uses it to analyse the extreme social changes complexities and imbalances found in South Korea and other East Asian societies While these changes enabled South Korea to modernize very quickly and achieve high levels of economic growth they also created a society that is haunted by various developmental and civilizational costs such as endemic generational conflicts overloaded family responsibilities and exceptionally high suicide rates As with other societies that have experienced compressed modernity the South Korean miracle is replete with extreme and contradictory social traits This pioneering work of the nature and consequences of compressed modernity will be of great interest to students and
