Social Insecurity In The New Millennium The Central Provident Fund In Singapore:

Management of Success Terence Chong, 2010 Rev ed of Management of success the moulding of modern Singapore

Social Insecurity in the New Millennium Linda Low, Tar Choon Aw, 2004 The Central Provident Fund CPF which used to work for Singapore as a distinctive national social security and welfare protection scheme has come up against a myriad of challenges in a world more volatile uncertain disruptive and risky than it was at the time of its inception Without some form of redistribution the CPF model has become inadequate in the provision of social welfare safety and protection The aim of the book is to review the origin and evolution of the CPF and the role it plays in both the social security and political economy of Singapore The authors maintain that the CPF is still a cornerstone in the growth and development of Singapore and that even though it is past its golden age the next page in its history can still be illustrious *Developmental States* Linda Low, 2004

As the Asian crisis triggered or precipitated the meltdown a second objective is to explore the reasons and factors for the breakdown or redundancy of developmental states distinguishing between domestic transformative capacity and external global factors as identified A third objective is to cull experiences and lessons beyond East Asia With many transition economies in Central and Eastern Europe beside China and Indochinese states the theory and practice of developmental states may be a useful bridge These are by no means exhaustive and comprehensive aims questions and issues For individual developmental states covered in this volume country specific lessons may also be drawn for them to be reconfigured to stay relevant The most important consideration for this volume is to value add to the literature both the theory and principles of the Asian developmental state as well as empirical observations observed elsewhere This volume comprises 13 chapters in two parts **Social Policy in Post-Industrial Singapore** Kwen Fee Lian, Chee-Kiong Tong, 2008-03-31 Notwithstanding

the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counter factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind **Abu Dhabi's Vision 2030: An Ongoing Journey Of Economic Development** Linda

Low, 2012-05-21 This book aims to tell the Abu Dhabi story in economic development from its past dominance in oil to its economic vision for the future More than being an exemplar of industrial restructuring and diversification from a resource based to a 21st century knowledge based economy and society Abu Dhabi emphasises its cultural legacy and tradition as an environmental advocate for green and sustainable pathways It has as many challenges as creative responses to show that its

success is not by wealth alone This case study unveils Abu Dhabi in particular and the rest of Arabic and GCC economic development in general They have all attracted foreign investment and global business typically as hydrocarbon rich resource economies Beyond that the geoeconomics and geopolitics of the Middle East and North Africa with or without the Arab Spring in 2011 is in and of itself a rich region for multidisciplinary studies and research not just for economics and business With Qatar Abu Dhabi boasts of one of the highest per capita income in the world therein lies a reason to enquire about its success and pivotal role in the GCC and global contexts

Singapore's Economic Development: Retrospection And Reflections Linda Y C Lim, 2015-12-30 Singapore is known internationally for its successful economic development Key to its economic successes is a variety of policies put into place over the past 50 years since its independence Singapore's Economic Development Retrospection and Reflections provides a retrospective analysis of independent Singapore's economic development from the perspective of different policy domains each considered by different expert scholars in that particular field The book is written by academic economists in a style that is accessible to non experts Each chapter includes reviews of past scholarship current data on each policy area and reflections on required or desirable future policy changes and outcomes By examining the evolution of past and current policies which combined to make Singapore's development a success and exploring emerging developmental challenges Singapore's Economic Development Retrospection and Reflections gives readers a better understanding of Singapore's economic trajectory and future

Kim, 2015-10-22 The author aims to develop conceptual refining and theoretical reframing of the productivist welfare capitalism thesis in order to address a set of questions concerning whether and how productivist welfarism has experienced both continuity and change in East Asia
