Rural Society and the Anglican Clergy, 1815-1914 Robert Lee, 2006 A vivid and accessible reappraisal of the frequently uneasy relationship between the Victorian clergyman and his congregation The conduct of divine service was only one item on the agenda of the nineteenth century clergyman He might have to sit on the magistrates bench or concern himself with business as a farmer or landowner or attend a meeting of the Poor Law guardians He would in all probability be closely involved with the day to day running of the local school and he would almost certainly be the principle administrator of the parochial charities While some of these roles were clearly predestined to bring him into conflict with certain members of his flock others seem ostensibly designed to operate in their interests None however seem to have earned him much in the way of devotion and respect instead each of them at one time or another attracted the direct hostility of parishioners most particularly those attached to dissenting and or radical groups This book is a detailed exploration of the relationship between Anglican clergymen and the inhabitants of rural parishes in the nineteenth century Taking Norfolk as a focus the author examines the many and profound ways in which the Victorian Church affected the daily lives and political destinies of local communities
