Social Pathology In Comparative Perspective The Nature And Psychology Of Civil Society:

Social Pathology in Comparative Perspective Jerome Braun, 1995-09-19 This book builds on the notion that social pathology differs from society to society and that the sense of character that develops in each society is specific to different perceptions of interpersonal obligations and responsibilities in that society The book deals with the cultural and psychological effects of social change relevant to the study of modernity and postmodernity It deals with particular social issues such as war and conflict juvenile delinquency problems of social ecology and religious revivalism all reflecting the stresses of modern life and social change within very concrete particular environments Braun and his contributors show how individual character and civil society evolve together to create culturally specific trajectories of social change

Society and Social Pathology R.C. Smith, 2017-02-21 This book offers one of the most comprehensive studies of social pathology to date following a cross disciplinary and methodologically innovative approach It is written for anyone concerned with understanding current social conditions individual health and how we might begin to collectively conceive of a more reconciled postcapitalist world Drawing reference from the most up to date studies Smith crosses disciplinary boundaries from cognitive science and anthropology to critical theory systems theory and psychology Opening with an empirical account of numerous interlinked crises from mental health to the physiological effects of environmental pollution Smith argues that mainstream sociological theories of pathology are deeply inadequate Smith introduces an alternative critical conception of pathology that drills to the core of how and why society is deeply ailing The book concludes with a detailed account of why a progressive and critical vision of social change requires a holistic view of individual and societal transformation Such a view is grounded in the awareness that a sustainable transition to postcapitalism is ultimately a many sided social individual and structural healing process

Democratic Culture and Moral Character Jerome Braun, 2013-06-03 This book returns critical theory to its roots in both psychology and the social sciences It shows some of the relationships between equality in a political and social sense and personal identity that either relates well to such equality or rebels against it All this reflects processes of social and cultural influence that involve not only random change but also processes of social and cultural evolution that themselves have effects regarding potentials for self fulfillment and even public morality This book provides a framework to help one study the interaction between individual aspirations and social opportunities Jerome Braun known for his writings in interdisciplinary social science an approach he calls pragmatic critical theory here provides a book that discusses issues relevant to the moral underpinnings of democratic society including issues of social evolution and of culture and personality This book will be of particular interest to scholars and students of Psychology particularly in the areas of Psychology of Personality and Cultural Psychology Sociology especially those interested in Sociology of Alienation and Sociology of Culture as well as Sociology of Mental Health Anthropology particularly in the area of Psychological Anthropology Cultural Studies and Social Theory in general

Alienation and the Carnivalization of Society Jerome

Braun, Lauren Langman, 2012-04-23 This book examines alienation from both a sociological and psychoanalytic perspective revisiting classic treatments of the topic Marx Simmel Weber and exploring its relevance to understanding post modern consumer society It examines the escapist potentials for good and for ill in modern society those fostered by commercial interests and those maintained by individuals and groups as their form of resisting alienation [The Pathologies of Power](#)

Christopher J. Fettweis, 2013-09-30 The foreign policy of the United States is guided by deeply held beliefs few of which are recognized much less subjected to rational analysis Christopher J Fettweis writes in this his third book He identifies the foundations of those beliefs fear honor glory and hubris and explains how they have inspired poor strategic decisions in Washington He then proceeds to discuss their origins The author analyzes recent foreign policy mistakes including the Bay of Pigs the Vietnam War and the Iraq War and he considers the decision making process behind them as well as the beliefs inspiring those decisions The American government s strategic performance Professor Fettweis argues can be improved if these pathological beliefs are recognized and eliminated

Relationships and Patterns of Conflict Resolution Peter D. Ladd, 2007-04-16 Dr Ladd has written a reference book on couples counseling that explores six contemporary relationships and discusses how couples may change from one to another according to their life experiences In addition six common styles of conflict resolution are addressed that may make relationship changes less painful and difficult are also addressed When we realize that one of the most common methods for transforming the union between two people is through divorce then the possibility of changing a relationship instead of changing a partner may become a more attractive alternative

Max Weber Alan Sica, The most profound and enduring social theorist of sociology s classical period Max Weber speaks as cogently to concerns of the new century as he did to those of the past In Max Weber and the New Century Alan Sica demonstrated Weber s preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern Max Weber A Comprehensive Bibliography is a companion volume that offers some 4 600 bibliographic listings of work on Weber making it the most complete guide to the literature in English and a testament to the continued vitality of Weber s thought Sica s work supersedes all previous bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format In order to demonstrate the enormous variety of Weberiana in English Sica has adopted a liberal criterion for inclusion rather than a critical one choosing to mix the best with what may be more routine work Following a preface in which previous bibliographies and bibliographic problems are discussed the volume opens with a series of five specialized bibliographies The first lists Weber s works in English translation The second lists reviews of Weber s major works including those translated into English while the third covers reviews of recent books and other work on Weber The fourth section contains a selection of dissertations and theses relating to Weber or his ideas The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes The last and largest section offers a comprehensive Weber bibliography of works in

English This large scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English It will be an essential scholarly tool for sociologists historians economists and students of cultural and intellectual history Alan Sica is professor of sociology and director of the Social Thought Program at Pennsylvania State University **Pursuing Just Peace: An Overview and Case Studies for Faith-Based Peacebuilders** Mark M.

Rogers, Tom Bamat, Julie Ideh, 2008-03-24 This book on faith based peacebuilding is a practical resource for peacebuilding practitioners and all others who are grappling with injustice and conflict Seven case studies describe concrete initiatives within highly diverse contexts Three case studies focus on strengthening internal church peacebuilding capacity through peace education one looks at the role of alliances and networks in advocacy for addressing gender based violence and three focus on ecumenical and inter religious collaboration An introductory essay provides a general overview and literature review for faith based peacebuilding discusses processes and describes key roles that faith based actors can play The Sublime Object of Psychiatry Angela Woods, 2011-08-25 Schizophrenia has been one of psychiatry s most contested diagnostic categories The Sublime object of Psychiatry studies representations of schizophrenia across a wide range of disciplines and discourses biological and phenomenological psychiatry psychoanalysis critical psychology antipsychiatry and postmodern philosophy **The Blackwell Handbook of Mediation** Margaret S. Herrman, 2009-02-09 This handbook invites readers who are interested in mediation negotiation and conflict resolution to share the perspectives of experts in the field Contributors include scholars mediators trainers and negotiators all of whom are passionate about their work Emphasises both internal and external factors as important sources of influence when negotiating conflicts Explores the cultural and institutional frameworks that have shaped intervention processes Considers what techniques might work when how and why Demonstrates the sophistication of contemporary studies of mediation negotiation and conflict resolution
