Social Policy A Critical Introduction Issues Of Race Gender And Class:

Social Policy Fiona Williams, 1989 Social Policy Fiona Williams, 1989 This major new introductory textbook in social policy breaks new ground in arguing for the centrality of race gender and class in welfare theory and practice The book describes and evaluates the major theoretical perspectives on welfare as well as the different strands of feminism and work on racism which are relevant to social policy The author develops a new analytical framework for the study of the welfare state which takes account of factors deriving from capitalism patriarchy racism and the international division of labour This framework is then used to re examine the major developments in the history of the welfare state in Britain from the nineteenth century to the so called crisis of the welfare state today Fiona Williams draws out the implications of her approach for current debates about welfare policy and strategy Social Policy is an indispensable introductory text for all students and teachers of social policy and administration who want a clear challenging and politically relevant approach to welfare studies

Gender Equality in Public Services Hazel Conley, Margaret Page, 2014-11-13 The provision of state funded and democratically accountable care services represents one of the most potentially transformative advances in gendered social relations and equality for women by defamilizing care and providing paid work But the cost of providing these services which women have access to them and how they should be provided are always at the forefront of debate especially during economic crises Socially funded and publicly accountable care services are therefore a key site of feminist activity but also the frontline for spending cuts and reform during times of austerity *Gender Equality in Public Services* analyses how gender equality work in British public services is changing in response to factors including equality legislation the erosion of local democracy privatisation of public services and new forms of feminist activism and leadership It also assesses the challenges and opportunities for promoting women's equality in producing and using public services Impacting upon developed and developing economies the arguments in this challenging book explore the potential of equality and feminist activism and leadership for radical and transformational change It will appeal to advanced students researchers and practitioners interested in social policy feminist organization theory equal opportunities and gender mainstreaming practice

Reconfiguring Citizenship Mehmoona Moosa-Mitha, 2016-03-23 Citizenship as a status assumes that all those encompassed by the term citizen are included albeit

within the boundaries of the nation state Yet citizenship practices can be both inclusionary and exclusionary with far reaching ramifications for both nationals and non nationals This volume explores the concept of citizenship and its practices within particular contexts and nation states to identify whether its claims to inclusivity are justified This will show whether the exclusionary dimensions experienced by some citizens and non citizens are linked to deficiencies in the concept country specific policies or how it is practised in different contexts The interrogation of citizenship is important in a globalising world where crossing borders raises issues of diversity and how citizenship status is framed This raises the issue of human rights and their protection within the nation state for people whose lifestyles differ from the prevailing ones Besides highlighting the importance of human rights and social justice as integral to citizenship it affirms the role of the nation state in safeguarding these matters It does so by building on Indigenous peoples insights about linking citizenship to connections to other people and the environment and arguing for the inalienability and portability of citizenship rights guaranteed collectively through international level agreements These issues are of particular concern to social workers given that they must act in accordance with the principles of democracy equality and empowerment However citizenship issues are often inadequately articulated in social work theory and practice This book redresses this by providing social workers with insights knowledge values and skills about citizenship practices to enable them to work more effectively with those excluded from enjoying the full rights of citizenship in the nation states in which they reside
