

A complex collage representing social problems. The background features a city skyline with smoke rising from it, suggesting industrial pollution. In the center, a large blue whale is depicted, possibly representing environmental issues. To the left, a crowd of people is shown, with one person holding a sign that says "CENTRE". In the foreground, a young child is looking up, and several people are wearing blue headscarves. Social Problems In Today's World:

How Can We Solve Our Social Problems? James A. Crone, 2010-05-13 Updated with recent issues such as the national debate on health care reform this Second Edition of *How Can We Solve Our Social Problems* gives students a sense of hope by demonstrating specific realistic steps we can take to solve some of the most pervasive social problems in America today. Author James Crone maintains a sense of sociological objectivity throughout and helps students realize that we can take steps to solve such key social problems as poverty, racial and ethnic inequality, unequal education, and environmental issues. The book's first two chapters define social problem, provide a theoretical background, discuss the daunting barriers we face in attempting to solve social problems, and demonstrate how sociology can help. Evaluation in Today's World Veronica G. Thomas, Patricia B. Campbell, 2020-08-27 Recipient of a 2021 Most Promising New Textbook Award from the Textbook Academic Authors Association. *Evaluation in Today's World: Respecting Diversity, Improving Quality, and Promoting Usability* is a timely and comprehensive textbook that guides students, practitioners, and users of evaluations in understanding evaluation purposes, theories, methodologies, and challenges within today's sociocultural and political context. Veronica G. Thomas and Patricia B. Campbell include discussions of evaluation history, frameworks, models, types, planning, and methods through a social justice, diversity, and inclusive lens. The authors focus on ethics in diverse cultural contexts, help readers understand how social problems and programs get politicized, and sometimes framed through a racialized lens, show how to engage stakeholders in the evaluation process, and communicate results in culturally appropriate ways. Included with this title is the password-protected Instructor Resource Site, formally known as SAGE Edge, which offers access to all text-specific resources, including a test bank and editable chapter-specific PowerPoint slides. **Global Social Problems** Victor George, Robert M. Page, 2004-11-19 Suggesting ways in which global social problems could be dealt with through global social policy, this work provides an introduction to a wide range of social problems and their relation to the global era, such as AIDS, poverty, and racism. The Sociology of Social Problems Adam Jamrozik, Luisa Nocella, 1998-07-13 Social problems such as unemployment, poverty, and drug addiction are a fact of life in industrialized societies. This book examines the sociology of social problems from interesting and challenging perspectives. It analyzes how social problems emerge and are defined, as well as who takes responsibility for them, who is threatened by them, and how they are managed, solved, or ignored. The authors examine and critique existing theories of social problems before developing their own theoretical framework. Their theory of residualist conversion of social problems explains how certain social problems threaten legitimate power structures so that problems of a social or political nature are transformed into personal problems, and the helping professions are left to intervene. This book will become a key reference on class inequality and social intervention and an important text for students in sociology and social work courses. **Investigating Social Problems** A.
