Marco Giugni

Social Protest And Policy Change Ecology Antinuclear And Peace Movements In Comparative Perspective:

Social Protest and Policy Change Marco Giugni, 2004-06-10 While movement activists spend much of their time and energy trying to change the world and we think that social movements often matter our theoretical and empirical knowledge in this field is still relatively poor *Social Protest and Policy Change* offers a systematic and empirically grounded analysis of the impact of three major contemporary movements on public policy Following a comparative and historical perspective the author argues that the policy impact of social movements is facilitated by the presence of favorable political opportunity structures and more precisely by the presence of institutional allies among the elites and by a favorable public opinion Furthermore the very content of the movements demands also plays a role insofar as the power holders are more willing to make concessions on certain issues than on others On the basis of a historical overview of the mobilization of ecology antinuclear and peace movements in the United States Italy and Switzerland and using a unique body of original data the book presents the results of time series analyses showing the joint effect of protest political alliances and shifts in public opinion for movements that do not address issues that pose too serious a threat to the power holders

Handbook of Social Movements Across Disciplines Bert Klandermans, Conny Roggeband, 2009-12-18 This book aims to revisit the interdisciplinary roots of social movement studies Each discipline raises its own questions and approaches the subject from a different angle or perspective The chapters of this handbook are written by internationally renowned scholars representing the various disciplines involved They each review the approach their sector has developed and discuss their disciplines contributions and insights to the knowledge of social movements Furthermore each chapter addresses the unanswered questions and discusses the overlaps with other fields as well as reviewing the interdisciplinary advances so far

Protest, Movements, and Dissent in the Social Sciences Giovanni A. Travaglino, 2017-10-02 Drawing on a wide range of social science disciplines and approaches each chapter in this book offers a comprehensive analysis of social protest political dissent and collective action The distinguished scholars contributing to the book discuss some of the key theoretical and methodological issues in social protest research and analyse recent instances of collective dissent around the globe ranging from the 15M movement in Spain to the 2011 Salford riots in the UK to Pro Palestinian activism in Jerusalem The result of these contributions is a sophisticated and multifaceted collection that enriches our understanding of why when and how groups of people decide to act collectively in order to pursue political change The book is a timely testament to the vitality of the field This book was originally published as a special issue of *Contemporary Social Science*

The Oxford Handbook of Social Movements Donatella della Porta, Mario Diani, 2015-10-29 The Oxford Handbook of Social Movements is an innovative volume that presents a comprehensive exploration of social movement studies mapping the field and expanding it to examine the recent developments in cognate areas of studies within and beyond sociology and political science This volume brings together the most distinguished social and political scientists working in this field each writing thought provoking essays in

their area of expertise and facilitates conversations between classic social movement agenda and lines of research The Oxford Handbook of Social Movements discusses core theoretical perspectives recent contributions from the field and how patterns of macro social change may affect social movements as well as suggesting what contributions social movement studies can give to other research areas in various disciplines

Progressive Community Organizing Loretta

Pyles,2013-07-24 The second edition of Progressive Community Organizing offers a concise intellectual history of community organizing and social movements while also providing practical tools geared toward practitioner skill building Drawing from social constructionist feminist and critical traditions Progressive Community Organizing affirms the practice of issue framing and offers two innovative frameworks that will change the way students of organizing think about their work Progressive Community Organizing is ideal for both undergraduate and graduate courses focused on community theory and practice community organizing community development and social change and service learning The second edition presents new case studies including those of a welfare rights organization and a youth led LGBTQ organization There are also new sections on the capabilities approach queer theory the Civil Rights movement and the practices of self inquiry and non violent communication Discussion of global justice has been expanded significantly and includes an account of a transnational action research project in post earthquake Haiti Each chapter contains discussion questions written and web resources and a list of key terms a full free access companion website is also available for the book

Social Movements in Violently Divided Societies John Nagle,2016-02-26 Violently divided societies present major challenges to institutions seeking to establish peace in places characterised by ethnic conflict and high levels of social segregation Yet such societies also contain groups that refuse to be confined within separate forms of ethnic community and instead develop alternative modes of action that generate shared identities build trust and foster consensual peaceful politics Advancing a unique social movement approach to the study of violently divided societies this book highlights how various social movements function within a context of violent ethnic politics and provide new ways of imagining citizenship that complements peacebuilding By analysing the impact of social movements on divided societies this book contributes to debates about the complexity of belonging and identity and constructs a nuanced understanding of political mobilisation in regions defined by ethnic violence In turn the book provides important insights into the dynamics of social movement mobilisation Based on the author s extensive research in Lebanon and Northern Ireland and drawing on numerous examples from other divided societies this book examines a range of social movements including nationalists victims sexual minorities labour movements feminists environmentalists secularists and peace movements Bringing together social theory and case studies in order to consider how grassroots movements intersect with political institutions this book will be of interest to students scholars and policymakers working in sociology and politics

The Politics of War Memory in Japan Kamila Szczepanska,2014-05-09

Since the 1990s questions of Japanese wartime conduct apologies for aggression and compensation to former victims of the country s imperial

policies have been brought to the fore of national and regional politics The state is undoubtedly the most important actor in the process of memory production and along with conservative legislators and the grass root revisionist movement there has been a consistent trend towards denying or undermining the existing acknowledgments of responsibility for Japan's wartime past However to fully comprehend war memory in Japan due attention must be paid to competing discourses that demand an alternative view and only then can the complexity of Japanese war memory and attitudes towards the legacies of the Asia Pacific war be understood The Politics of War Memory in Japan examines the involvement of five civil society actors in the struggle over remembering and addressing the wartime past in Japan today In studying progressive war memory activists it quickly becomes clear that the apologia by conservative politicians cannot be treated as representative of the opinion of the majority of the Japanese public Indeed this book seeks to remedy the disparity between studies devoted to the official level of addressing the history issue and the grass root historical revisionist movement on the one side and progressive activism on the other Furthermore it contributes to scholarly debates on the state of civil society in Japan challenging the characterisation of Japanese civil society as a depoliticised space by demonstrating a more contentious side of civil society activism Drawing important new empirical research this book will be of huge interest to students and scholars of Japanese civil society Japanese politics Japanese history and memory in Japan

The Politics of Nuclear Energy in Western Europe Wolfgang C. Müller, Paul W. Thurner, 2018-01-26 This volume investigates nuclear energy policies in Western Europe over the entire post war period but with special attention to the two most recent decades The comparative analytical perspective draws on the interplay between voters attitudes challenging movements party competition and coalition formation Spanning more than 60 years and 16 countries the researchers examine the underlying causal processes leading to the observed varieties of Western European nuclear energy policies Based on a mixed methods approach using both structured case studies as well as quantitative analyses the study shows that the nature of party competition under given institutional contexts is a key driver for as a rule tactically motivated governmental policy changes and stability respectively Part I introduces the practical and theoretical relevance of the topic It outlines the reasoning of the major scientific contributions with regard to nuclear energy policies and offers a theoretical alternative to the previous literatures that has been predominantly movements oriented Additionally it provides core economic and political indicators of the changing role of nuclear energy in the countries Part II consists of seven in depth case studies where the outlined theoretical perspective is applied Part III consists of a general summary short narratives of the countries not covered in case studies qualitative comparison and an assessment of the factors for policy change from multivariate analysis

The Oxford Handbook of Political Participation Marco Giugni, Maria Grasso, 2022-06-16 The Oxford Handbook of Political Participation provides the first comprehensive up to date treatment of political participation in all its varied forms investigates a wide range of topics in the field from both a theoretical and methodological perspective and covers the most recent developments in the area It

brings together research traditions from political science and sociology bridging the gap in particular between political sociology and social movement studies contributions also draw on crucial work in psychology economics anthropology and geography Following a detailed introduction from the editors the volume is divided into nine parts that explore political participation across disciplines core theoretical perspectives methodological approaches modes of participation contexts determinants processes outcomes and current trends and future directions The book will be a valuable reference work for anyone interested in understanding political participation and related themes

Conventional Versus Non-conventional Political Participation in Turkey Cristiano Bee, Ayhan Kaya, 2018-12-07 This book focuses on the emergence of different forms of civic and political activism in Turkey It has taken into account different components of active citizenship specifically looking at the development of civic and political forms of activism that bridge the realms of conventional and non conventional participation Focusing on the effects of the 2013 Gezi Park protests which originated in Istanbul but spread throughout the country this book reflects on how this experience might re orient current on civic and political participation in Turkey Specifically focusing on the main dynamics of non conventional forms of civic and political activism this volume attempts to understand the impact of non conventional forms of political participation on voting behaviour The internal domestic conditions of the country as well as its role in the international arena have dramatically changed since 2013 and are constantly evolving due to the domestic societal and political cleavages and the regional problems in the Middle East Yet the papers in the book reflect upon the significance of occupygezi nowadays demonstrating not only its importance in questioning the link between the patrimonial state and its citizens but also for stimulating participatory behaviours The chapters originally published as a special issue in Turkish Studies
