Countering Discrimination in Social Work Bogdan Lesnik, 2017-07-05 Discrimination Isn't there enough talk about discrimination Yes indeed That is why we have to begin countering discrimination We need strategies that will make it inoperative or at least limit its scope But first we need to think how discrimination works and identify it where it works It concerns far more than mere procedural hitches for which a few legal provisions will do Countering Discrimination Volume 1998 of International Perspectives in Social Work yearbook brings papers that analyse mechanisms of social discrimination in a variety of such locations and bring proposals for counter strategies This is essential in social work if causes rather than manifestations of the problems it is concerned with are to be addressed But it is also essential that everybody who opposes discrimination recognise its subtle and dispersed ways of operation in the human services regardless of their own basic field of work In this respect the book will be useful to a very wide audience **Addressing Offending Behaviour** Simon Green, Elizabeth Lancaster, Simon Feasey, 2013-05-13 Offending behaviour is one of the most talked about issues in contemporary society What can be done to stop people reoffending What can be done to help people escape their criminal lifestyles This book aims to review and analyse the different ways in which these questions are addressed in practice drawing upon the expertise of academics and practitioners The book provides a critical reference text for practitioners students and researchers interested in devising the most effective means of addressing offending behaviour Its focus is on the actual work undertaken with offenders and draws upon generic issues of practice applicable across the voluntary community and statutory sectors Addressing Offending Behaviour aims to bridge the gap between practice and research It explores a wide range of innovative techniques for offender intervention along with some of the most challenging academic theories It also considers the wider social political and legal context in which this work takes place and explores the values and bias which operate at both individual and institutional levels It will be key reading for both students and practitioners involved in the
