Michael Kim Zapf

Social Work In Canada An Introduction By Hick 2nd Edition:

Case Critical Ben Carniol, 2005 A classic text in social work education *Case Critical* opens the door on Canada's social services from the perspective of social workers themselves and service users or cases people whose voices we rarely hear This completely revised and updated fifth edition includes new interviews and topics of discussion to reinforce Carniol's passionate case for social work as liberation practice

Anarchist Perspectives for Social Work Alexander W. Sawatsky, 2024 This book seeks to rigorously and specifically engage with anarchist theory and find application to social work fields of practice and social work theory

Canadian Social Policy Anne Westhues, 2006-09-20 The objective of this new edition is the same as that of previous editions to help students understand social policy from a Canadian perspective and to stir them to discussion and debate Part One provides a general overview of social policy and Part Two discusses the policy making processes from the international factors that influence them to the ways in which a social worker can become part of this process Part Three focuses on current social policy issues and Part Four offers a look to the future Each chapter of this best selling book has been thoroughly updated for this new edition with regard to current policy debated issues and resources cited Three new chapters have been added including an overview of adult mental health policy and a critical look at risk assessment in child welfare There is also a discussion of current challenges to the Charter of Rights and Canadians increasing use of the justice system to shape social policy As a result the reader gains an informed perspective of policy development and evaluation Although designed primarily for use by social workers the book will benefit anyone who is involved in the policy making process

Social Work in an International Perspective Charlotte De Kock, Christian Van Kerckhove, Eva Vens, 2014-02-18 In this work academics and practitioners from all five continents highlight the history of the social work profession and its underlying academic and social paradigms The authors come from Australia Austria Brazil Belgium Canada Ghana Great Britain India New Zealand South Africa and the United States The structure of this work allows the reader to trace back the historical and political influences in the interpretation of social work in the authors' countries Special attention is given to the notions of human rights and social diversity Are human rights universal and which impact does this universality have on the social work profession How does categorical work relate to generalist practice and does this in its turn relate to the conception of diversity The authors approach these main queries in an exemplary and balanced manner using both theoretical analysis and case studies

Social Work and the Environment Michael Kim Zapf, 2009 This ground breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions and offers a new and attractive foundational metaphor for social work The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility identity and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century Why is that a profession with a declared

focus on person in environment has been so silent on the environmental crisis Mainstream social work theory has narrowed the understanding of environment to include merely the social environment but this approach is no longer sufficient for participation in multi disciplinary efforts to tackle urgent environmental issues Transformative notions of responsibility identity and stewardship have been developed on the fringes of our professional community rural remote social workers Aboriginal social workers and international and spiritual social workers They must now move to the core of the profession

Doing Anti-Oppressive Practice, Third Edition Donna Baines,2020-05-06T00:00:00Z This updated third edition of the immensely popular Doing Anti Oppressive Practice introduces students to anti oppressive social work its historical and theoretical roots and the specific contexts of anti oppressive social work practice Key to this practice is the understanding that the problems faced by an individual are rooted in the inequalities and oppression of the socio political structure of society rather than in personal characteristics or individual choices Moreover the contributors show that social justice and social change working against racism sexism and class oppression can and must be a key component of social work practice Drawing on concrete examples from specific practice contexts personal experience and case work including child welfare poverty mental health addictions and disability the contributors demonstrate how to translate social justice theory into everyday practice This new edition adds chapters on working with refugee immigrant and racialized families children older adults cognitive behavioural therapy and using social media as a tool for social change [Walking This Path Together](#)

Jeannine Carrière,2020-07-10T00:00:00Z Walking This Path Together is an edited collection devoted to improving the lives of children and families that come to the attention of child welfare authorities by demonstrating and advocating for socially just child welfare practices In this new updated edition authors provide special consideration to the historical and political context of child welfare in Canada and theoretical ideas and concrete practices that support practitioners educators and students who are looking for anti racist anti oppressive and anti colonial perspectives on child welfare practice **Social**

institutional power systems which together with socio cultural norms ideals of gender heteronormativity and emerging sociological and psychoanalytic theories created historically unique conditions in the post WWII decades wherein the white unmarried mother was systematically separated from her baby by means of adoption This volume uncovers and substantiates evidence of the mandate ultimately finding that at least 350 000 unmarried mothers in Canada were impacted

Global Citizenship Education Eva Aboagye, S. Nombuso Dlamini, 2021-03-01 The idea of citizenship and conceptions of what it means to be a good citizen have evolved over time On the one hand good citizenship entails the ability to live with others in diverse societies and to promote a common set of values of acceptance human rights and democracy On the other hand in order to compete in the global economy nations require a more innovative autonomous and reflective workforce meaning good citizens are also those who successfully participate in the economic development of themselves and their country These competing conceptions of good citizenship can result in people's participation in activities such as profit driven labor exploitation that contradict human rights and democratic tenants Thus global citizenship education is fundamental to teaching learning and redressing sociopolitical economic and environmental exploitation around the world Detailing the historical development of this field of study to achieve recognition Global Citizenship Education Challenges and Successes provides a critical discourse on global citizenship education GCE Authors in this collection discuss the underpinnings of global citizenship education via contemporary theories and methodologies as well as specific case studies that illustrate the application of GCE initiatives Editors Eva Aboagye and S Nombuso Dlamini aim to motivate learners and educators in post secondary institutions not only to understand the issues of social and economic inequality and political and civil unrest facing us but also to take action that will lead to equitable change in both local and global spaces
