Metaphors and Social Identity Formation in Paul's Letters to the Corinthians Kar Yong Lim, 2017-05-05 Why did Paul frequently employ a diverse range of metaphors in his letters to the Corinthians Was the choice of these metaphors a random act or a carefully crafted rhetorical strategy Did the use of metaphors shape the worldview and behavior of the Christ followers In this innovative work Kar Yong Lim draws upon Conceptual Metaphor Theory and Social Identity Theory to answer these questions Lim illustrates that Paul employs a cluster of metaphors namely sibling familial temple and body metaphors as cognitive tools that are central to how humans process information construct reality and shape group identity Carefully chosen these metaphors not only add colors to Paul's rhetorical strategy but also serve as a powerful tool of communication in shaping the thinking governing the behavior and constructing the social identity of the Corinthian Christ followers

Pauline Language and the Pastoral Epistles Jermo van Nes, 2017-12-11 In *Pauline Language and the Pastoral Epistles* Jermo van Nes questions the common assumption in New Testament scholarship that language variation is necessarily due to author variation. By using the so-called Pastoral Epistles (PE) as a test case, Van Nes demonstrates by means of statistical linguistics that only one out of five of their major lexical and syntactic peculiarities differs significantly from other Pauline writings. Most of the PE's linguistic peculiarities are shown to differ considerably in the *Corpus Paulinum*, but modern studies in classics and linguistics suggest that factors other than author variation account equally if not better for this variation. Since all of these explanatory factors are compatible with current authorship hypotheses of the PE, Van Nes suggests to no longer use language as a criterion in debates about their authenticity.

Pauline Politics Daniel Oudshoorn, 2020-03-10 The Pauline Epistles have been claimed as a useful ally by parties across the political spectrum. Neoconservatives claim that Paul and his coworkers were law-abiding authority honoring devoutly religious people oriented around their respect for hard work, private property, and family values. Liberals claim that the Pauline faction was devoted to the celebration of diversity internally transcending social markers of status and the embrace of peace. Radicals claim that Paul was a leader within an anti-imperial revolutionary movement sweeping across the eastern portion of the Roman Empire. However, it is rare for these and still other parties to engage in dialogue with each other because each party tends to operate with presuppositions that make open engagement difficult. *Pauline Politics* examines the main positions taken in relation to Paul and politics and then engages in a thorough examination of the underlying arguments used to argue that this or that position is more or less plausible. Underlying arguments tend to relate to two things: first, positions on the socioeconomic status of Paul, his coworkers, and other early Jesus loyalists; and second, positions on Pauline eschatology. This volume will comprehensively explore these matters.

Phoebe Joan Cecelia Campbell, 2015-04-09 Human beings are embedded in a set of social relations A social network is one way of conceiving that set of relations in terms of a number of persons connected to one another by varying degrees of relatedness In the early Jesus group documents featuring Paul and coworkers it takes little effort to envision the apostle's collection of friends and friends of friends that is the Pauline network The persons who constituted that network are the focus of this set of brief books For Christians of the Western tradition these persons are significant ancestors in faith While each of them is worth knowing by themselves it is largely because of their standing within that web of social relations woven about and around Paul that they are of lasting interest Through this series we hope to come to know those persons in ways befitting their first century Mediterranean culture Imagine trying to find a window into the life of an individual who lived approximately two thousand years ago in a culture vastly different from our own Consider the added difficulty when that individual is a woman and the only written record of her consists of two biblical verses Rom 16 1 2 In this volume Joan C Campbell takes on the challenge and provides a surprisingly full and rich account of Phoebe of Kenchreai With Campbell we visit Phoebe's hometown we wander the city streets with her and we meet her associates Along the way we gain insight into the social roles that Paul ascribes to her sister deacon and patron and what these roles entailed in first century Mediterranean Jesus groups This book is important reading for anyone interested in the contribution of women to emerging Christianity and for contemporary deacons who seek to understand the biblical roots of their ministry Joan C Campbell CSM PhD is a member of the Congregation of Saint Martha of Prince Edward Island Canada and assistant professor of New Testament Studies at Atlantic School of Theology in Halifax Nova Scotia A major teaching and research interest of hers is the cultural world of first century Mediterranean Jesus groups and how knowledge of that cultural world can illumine biblical texts that deal with women such as Phoebe She is the author of *Kinship Relations in the Gospel of John*

You Belong to Christ J. Brian Tucker, 2011-01-01 *You Belong to Christ* explores the way that the Apostle Paul sought to form the social identity of one of his most important Christ following communities It sheds light on the way various social identities function within the Pauline community and provides guidance concerning the social implications of the gospel Drawing from contemporary social identity theories as well as ancient source material J Brian Tucker describes the way 1 Corinthians 1 4 forms social identity in its readers so that what results is an alternative community with a distinct ethos in contrast to the Roman Empire and its imperial ideology This book contends that previous identities are not obliterated in Christ but maintain their fundamental significance and serve to further the Pauline mission by means of social integration Providing a

comprehensive survey of Christian identity in Pauline studies as well as an interesting look into the material remains of Roman Corinth this volume provides a social scientific reading of 1 Corinthians 1-4 and argues that Paul's strategy was to form salient in Christ social identity in those to whom he wrote
