Wallace, 1982 **The Innovative Bureaucracy** Alexander Styhre, 2007-02 Original and based on unique empirical research in the areas of organization theory and organizational behaviour focusing on two major companies this work makes an invaluable contribution to the literature on bureaucracy and innovation *The Nature Of United Nations Bureaucracies* David Pitt, Thomas G Weiss, 2019-06-26 This book concentrates on the bureaucratic aspects of the United Nation It is intended to be educational and indeed young people are intended to be a special audience The book attempts to identify explanations for stability and initiative within international secretariats **Fault Lines and Controversies in the Study of Seventeenth-century English Literature** Claude J. Summers, Ted-Larry Pebworth, 2002 Written by various experts in the field this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth century English literature The turn into the twenty first century is an appropriate time to take stock of the state of the field and as part of that stocktaking the need arises to assess both where literary study of the early modern period has been and where it might desirably go Hence many of the essays in this collection look both backward and forward They chart the changes in the field over the past half century while also looking forward to more change in the future *The Oxford Francis Bacon XIX*, 2024-12-14 This volume belongs to the new critical edition of the complete works of Francis Bacon 1561-1626 The edition presents the works in broadly chronological order and in accordance with the principles of modern textual scholarship This volume comprises the first critical edition since the nineteenth century of New Atlantis Bacon's posthumously published semi utopian fable of reformed knowledge New Atlantis is set on an imaginary island whose central institution Salomon's House is a fictional embodiment of the kind of research institute Bacon dreamed of founding in order to pursue his vast project the Instauration magna and one which generates works that both expand knowledge and benefit humankind This edition establishes an authoritative text based on fresh collation of multiple copies of the 1626 edition in close comparison with the 1628 edition Thorough bibliographical analysis of the 1626 copy text elucidates the book's passage through the printing house David Colclough's detailed Introduction sets New Atlantis in the contexts of Bacon's works and of contemporary models of information gathering and management including Iberian examples in the Old and New Worlds An extensive commentary examines Bacon's sources traces analogues across his works especially with *Sylva sylvarum* alongside which New Atlantis was originally printed provides context and background glosses obsolete or unusual terms and considers critical interpretations of the text *The Cultivation of Hatred: The Bourgeois Experience: Victoria to Freud* Peter Gay, 1993-09-17 With the same sweep authority and originality that marked his best selling *Freud A*

Life for Our Time Peter Gay here takes us on a remarkable journey through middle class Victorian culture Gay's search through middle class Victorian culture illuminated by lively portraits of such daunting figures as Bismarck Darwin and his acolytes George Eliot and the great satirists Daumier and Wilhelm Busch covers a vast terrain the relations between men and women wit demagoguery and much more We discover the multiple ways in which the nineteenth century at once restrained aggressive behavior and licensed it Aggression split the social universe into insiders and outsiders By gathering up communities of insiders Professor Gay writes the Victorians discovered only too often invented a world of strangers beyond the pale of individuals and classes races and nations it was perfectly proper to debate patronize ridicule bully exploit or exterminate The aggressions so channeled or bottled could not be contained forever Ultimately they exploded in the First World War

Rockdale , 2005-01-01 A celebrated triumph of historiography Rockdale tells the story of the Industrial Revolution as it was experienced by the men women and children of the cotton manufacturing town of Rockdale Pennsylvania The lives of workers managers inventors owners and entrepreneurs are brilliantly illuminated by Anthony F C Wallace who also describes the complex technology that governed all of Rockdale's townspeople Wallace examines the new relationships between employer and employee as work and workers moved out of the fields into the closed in world of the spinning mule the power loom and the mill office He brings to light the impassioned battle for the soul of the mill worker a struggle between the exponents of the Enlightenment and Utopian Socialism on the one hand and on the other the ultimately triumphant champions of evangelical Christianity
