Social Formalism

The Novel in
Theory from
Henry James
to the Present

Social Formalism

Anna Kornbluh

Social Formalism:

Social Formalism Dorothy J. Hale, 1998 In recent decades literary critics have praised novel theory for abandoning its formalist roots and defining the novel as a vehicle of social discourse The old school of novel theory has long been associated with Henry James the new school allies itself with the Russian theorist Mikhail Bakhtin In this book the author argues that actually it was the compatibility of Bakhtin with James that prompted Anglo American theorists to embrace Bakhtin with such enthusiasm Far from rejecting James in other words recent novel theorists have only refined James's foundational recharacterization of the novel as the genre that does not simply represent identity through its content but actually instantiates it through its form Social Formalism demonstrates the persistence of James's theoretical assumptions from his writings and those of his disciple Percy Lubbock through the critique of Jamesian theory by Roland Barthes Wayne Booth and Gerard Genette to the current Anglo American assimilation of Bakhtin It also traces the expansion of James's influence as mediated by Bakhtin into cultural and literary theory Jamesian social formalism is shown to help determine the widely influential theories of minority identity expounded by such important cultural critics as Barbara Johnson and Henry Louis Gates Social Formalism thus explains why a tradition that began by defining novelistic value as the formal instantiation of identity ends by defining minority political empowerment as aestheticized self representation

The Order of Forms Anna Kornbluh, 2019-11-20 In literary studies today debates about the purpose of literary criticism and about the place of formalism within it continue to simmer across periods and approaches Anna Kornbluh contributes to and substantially shifts that conversation in *The Order of Forms* by offering an exciting new category political formalism which she articulates through the co emergence of aesthetic and mathematical formalisms in the nineteenth century Within this framework criticism can be understood as more affirmative and constructive articulating commitments to aesthetic expression and social collectivity Kornbluh offers a powerful argument that political formalism by valuing forms of sociability like the city and the state in and of themselves provides a better understanding of literary form and its political possibilities than approaches that view form as a constraint To make this argument she takes up the case of literary realism showing how novels by Dickens Brontë Hardy and Carroll engage mathematical formalism as part of their political imagining Realism she shows is best understood as an exercise in social modeling more like formalist mathematics than social documentation By modeling society the realist novel focuses on what it considers the most elementary features of social relations and generates unique political insights Proposing both this new theory of realism and the idea of political formalism this inspired eye opening book will have far reaching implications in literary studies

Raymond Williams's Sociology of Culture P. Jones, 2003-12-19 This detailed study of Williams unlocks his late sociology of culture It covers previously overlooked aspects such as his critique of Birmingham cultural studies his use of an Adorno like approach to cultural production his social formalist alternative to structuralism and post structuralism and his approach to the media

The Nature and Types of Sociological Theory Don

Martindale,2013-11-05 First Published in 1998 This is Volume XI of twenty two in a series on Social Theory and Methodology Notions are widespread that sociological theory is either an industrious activity on the drawing boards of the architects of fantasy or a branch of esoterics operating in a shadowy realm of semi darkness The present study holds neither of these conceptions of sociological The present study s function is to illuminate the difference between one theory and another The power and reliability of a theory are not always evident all at once A theory may have a power to explain what was not originally anticipated it may also disclose the existence of problems it cannot explain Capitalism and Leisure Theory (Routledge Revivals) Chris Rojek,2013-12-19 First published in 1985 this title explores theories of leisure in a capitalist society Basing his argument on a refutation of the conventional association of leisure with freedom and free time Chris Rojek examines the four main structural characteristics of modern leisure practice privatisation individuation commercialisation and pacification The writings of Marx Durkheim Weber and Freud are used to locate the question of leisure in more mainstream social theory This interesting reissue will be of particular value to students of sociology and leisure studies and those with an interest in the relationship between leisure and power **The Aesthetics of Image and Cultural Form** Yi Chen,2024-04-24 Offering an alternative mode of visual cultural analysis to the prevalent discursive model this book proposes to situate analysis of Image within formal analyses of culture experience Specifically the discussion draws on theories of affective aesthetics with the view of addressing the sensual form of culture i e cultural form Therefore the volume puts forward a mode of formalist analysis in visual cultural research which takes purchase on the idea of cultural form A continuum of formalist attention between Image analysis visual media industrial design and probing of cultural forms establishes the theoretical underpinning of the book These concepts are expounded through a case study which looks at formal experimentations and debates arising from 1960s avant garde artistic practices in London *New Formalisms and Literary Theory* V. Theile,L. Tredennick,2013-04-11 Bringing together scholars who have critically followed New Formalism s journey through time space and learning environment this collection of essays both solidifies and consolidates New Formalism as a burgeoning field of literary criticism and explicates its potential as a varied but viable methodology of contemporary critical theory **The Linguistic Turn in Contemporary Japanese Literary Studies** Michael K. Bourdaghs,2020-06-01 The 1970s and 1980s saw a revolution in Japanese literary criticism A new generation of scholars and critics many of them veterans of 1960s political activism arose in revolt against the largely positivistic methodologies that had hitherto dominated postwar literary studies Creatively refashioning approaches taken from the field of linguistics the new scholarship challenged orthodox interpretations often introducing new methodologies in the process structuralism semiotics and phenomenological linguistics among others The radical changes introduced then continue to reverberate today shaping the way Japanese literature is studied both at home and abroad The Linguistic Turn in Contemporary Japanese Literary Studies is the first critical study of this revolution to appear in English It includes translations of landmark essays

published in the 1970s and 1980s by such influential figures as Noguchi Takehiko Kamei Hideo Mitani Kuniaki and Hirata Yumi It also collects nine new essays that reflect critically on the emergence of linguistics based literary criticism and theory in Japan exploring both the novel possibilities such theory created and the shortcomings that could not be overcome Scholars from a variety of disciplines and fields probe the political and intellectual implications of this transformation and explore the exciting new pathways it opened up for the study of modern Japanese literature *Free Indirect* Timothy Bewes, 2022-07-26

Everywhere today we are urged to connect Literary critics celebrate a new honesty in contemporary fiction or call for a return to realism Yet such rhetoric is strikingly reminiscent of earlier theorizations Two of the most famous injunctions of twentieth century writing E M Forster's Only connect and Fredric Jameson's Always historicize helped establish connection as the purpose of the novel and its reconstruction as the task of criticism But what if connection was not the novel's modus operandi but the defining aesthetic ideology of our era and its most monetizable commodity What kind of thought is left for the novel when all ideas are acceptable as long as they can be fitted to a consumer profile This book develops a new theory of the novel for the twenty first century In the works of writers such as J M Coetzee Rachel Cusk James Kelman W G Sebald and Zadie Smith Timothy Bewes identifies a mode of thought that he calls free indirect in which the novel's refusal of prevailing ideologies can be found It is not situated in a character or a narrator and does not take a subjective or perceptual form Far from heralding the arrival of a new literary genre this development represents the rediscovery of a quality that has been largely ignored by theorists thought at the limits of form *Free Indirect* contends that this self awakening of contemporary fiction represents the most promising solution to the problem of thought today **Culture and Political Psychology** Thalia Magioglou, 2014-03-01

This book is perhaps the first systematic treatment of politics from the perspective of cultural psychology Politics is a complex that psychology usually fails to understand as it assumes a position in society that attempts to be free of politics itself Politics is associated both with an everyday practice and the dynamics of globalization with the way group conflicts ideologies social representations and identities are lived and co constructed by social actors The authors of the book address these issues through their research grounded in different parts of the world on democracy and political order the social representation of power gender studies the use of metaphors and symbolic power in political discourse social identities and methodological questions The book will be used by social and political psychologists but is also of interest to the other social sciences political scientists sociologists anthropologists educationalists and it is at a level where sophisticated lay public would be able to appreciate its coverage Its use in upperlevel college teaching is possible and expected at graduate postgraduate levels

Whispering the Strategies of Language: An Psychological Journey through **Social Formalism**

In a digitally-driven earth wherever monitors reign supreme and quick interaction drowns out the subtleties of language, the profound techniques and psychological nuances concealed within words frequently go unheard. Yet, located within the pages of **Social Formalism** a charming literary treasure sporting with fresh emotions, lies an extraordinary quest waiting to be undertaken. Composed by a talented wordsmith, this enchanting opus encourages viewers on an introspective journey, delicately unraveling the veiled truths and profound affect resonating within ab muscles fabric of each word. Within the psychological depths of this moving review, we will embark upon a genuine exploration of the book is primary themes, dissect their fascinating publishing type, and yield to the effective resonance it evokes strong within the recesses of readers hearts.
