Social Science Quotations Who Said What When And Where:

Social Science Quotations Robert Merton, 2018-04-27 Social Science Quotations has been prepared to meet an evident unmet need in the literature of the social sciences Writings on the lives and theories of individual social scientists abound but there has been no fully documented collection of memorable quotations from the social sciences as a whole The frequent use of quotations in scientific as well as literary writings that are mere summaries or paraphrases typically fail to capture the full force of formulations that have made quotations memorable This book of quotations invites the further reading or rereading of the original texts beyond the quotations themselves Sills and Merton draw extensively upon the writings that constitute the historical core of the social sciences and social thought those works with staying power often described as the classical texts Many quotations have been drawn from these classical texts because the quotations contain memorable ideas memorably expressed Both consequential and memorable these words have been quoted over the generations entering into the collective memory of social scientists everywhere and at times diffusing into popular thought and into the vernacular as well This book is useful to social scientists anthropologists economists historians political scientists psychiatrists psychologists sociologists and statisticians and for all who want to learn or verify memorable formulations and phrases concerning social thought and social theories It is particularly useful for graduate students taking courses that examine the history of their discipline Social Science Quotations David L. Sills, Robert King Merton, 2000 The use of quotations in scientific writings often fails to capture the force of formulations that made the quotations memorable In this reference work the date and source of each quotation serve to help place them in their larger contexts making it useful in examining the discipline s history **Robert K. Merton** Craig Calhoun, 2010-09-14 Includes bibliographical references p and index

Star Sociologists Philipp Korom, 2023-04-21

This book aims to overcome sociology's preoccupation with individual authors by exploring a larger social phenomenon that occurs in all academic disciplines but has been paid little attention the prestige elite Members of this elite attain the highest levels of peer recognition their books sometimes circulate by the hundreds of thousands and every student has read about them Based on large citation studies *Star Sociologists* provides a roster of eminent sociologists documents the changing elite's composition over time contrasts the elite's career pathways with those of the Nobel Laureates in economics gives insights into how scholars rise to or fall from eminence and empirically probes the gatekeeping power of one of its key proponents The book explores eminence by contextualising conditions that are outside of the elite and argues that in any discipline that is intellectually as disintegrated as sociology eminence is to be understood as a nested phenomenon scholars make it into the elite if their ideas are adopted in very different intellectual fields that share little common ground

The Words of Others Gary Saul Morson, 2011-06-28 In this lively gambol through the history of quotations and quotation books Gary Saul Morson traces our enduring fascination with the words of others Ranging from the remote past to the present he explores the formation development and significance of quotations while exploring the verbal museums in which they have been collected and displayed commonplace books treasuries and anthologies In his trademark clear witty and provocative style Morson invites readers to share his delight in the shortest literary genre The author defines what makes a quote quotable as well as the unexpected differences between quotation and misquotation He describes how quotations form transform and may

eventually become idioms How much of language itself is the residue of former quotations Weaving in hundreds of intriguing quotations common and unusual Morson explores how the words of others constitute essential elements in the formation of a culture and of the self within that culture In so doing he provides a demonstration of that very process captured in the pages of this extraordinary new book *Academic Literacy in the Social Sciences* Judy Eaton, David N. Morris, 2019-03-13

Academic Literacy in the Social Sciences is a practical introductory guide that supports students through the process of understanding and critically evaluating research in the Social Sciences This essential text develops and strengthens students ability to develop research paper topics conduct thorough literature searches critically evaluate research and effectively summarize and share information The textbook is broken down into ten chapters focusing on topics such as theory and research methods in the social sciences citing APA style ethics and integrity and statistics This is an ideal resource for all students in undergraduate courses based in the social sciences **A Transatlantic History of the Social Sciences**

Christian Fleck, 2011-02-25 From the beginning of the twentieth century scientific and social scientific research has been characterised by intellectual exchange between Europe and the US The establishment of the Third Reich ensured that from the German speaking world at least this became a one way traffic In this book Christian Fleck explores the invention of empirical social research which by 1950 had become the binding norm of international scholarship and he analyses the contribution of German refugee social scientists to its establishment The major names are here from Adorno and Horkheimer to Hirschman and Lazarsfeld but at the heart of the book is a unique collective biography based on original data from more than 800 German speaking social scientists Published in German in 2008 to great acclaim Fleck's important study of the transatlantic enrichment of the social sciences is now available in a revised English language edition *A Historiography of the Modern Social Sciences* Roger E. Backhouse, Philippe Fontaine, 2014-09-22

A Historiography of the Modern Social Sciences includes essays on the ways in which the histories of psychology anthropology sociology economics history and political science have been written since the Second World War Bringing together chapters written by the leading historians of each discipline the book establishes significant parallels and contrasts and makes the case for a comparative interdisciplinary historiography This comparative approach helps explain historiographical developments on the basis of factors specific to individual disciplines and the social political and intellectual developments that go beyond individual disciplines All historians including historians of the different social sciences encounter literatures with which they are not familiar This book will provide a broader understanding of the different ways in which the history of the social sciences and by extension intellectual history is written
