

THE
SOCIAL STRUCTURE
OF THE
EARLY
CHRISTIAN
COMMUNITIES

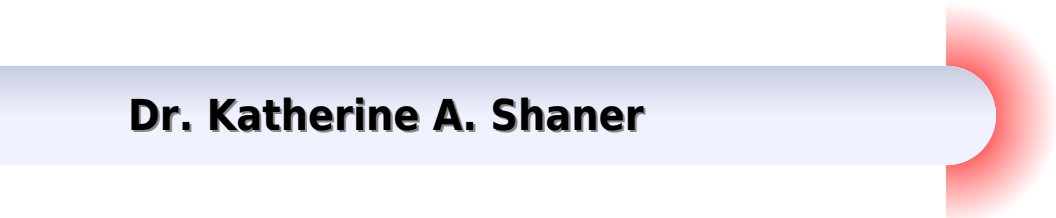

DIMITRIS J. KYRTATAS

With an Introduction by Geoffrey de Ste. Croix

Social Structure Of Early Christian Communities

Dr. Katherine A. Shaner

Social Structure Of Early Christian Communities:

The Social Structure of the Early Christian Communities Dimitris Kyrtatas, 2020-05-05 The Social Structure of the Early Christian Communities deals with a small number of topics which in one way or another have long attracted the attention of students of early Christianity Above all it is an attempt to investigate the social origins and the social positions of the early Christians Recent studies are arriving at the conclusion contrary to long held views that the primitive Christian communities those which emerge after the first chapters of Acts did not consist of the dregs of the populace However in spite of the important work which is being done on the subject few of the recent books concerned with such sociological issues go far beyond the New Testament age What still requires investigation is the composition of the early communities from the first years of the mission to the Gentiles down to the age of Constantine when large sections of the population from all social classes started joining the Christian churches

Handbook of Early Christianity Anthony J. Blasi, Jean Duhaime, Paul-André Turcotte, 2002-08-27 The Christian movement emerged amidst complex social tensions power politics ethnic diversity economic stress and cultural changes Both biblical scholars and social scientists find that a social scientific study of early Christian phenomena yields fascinating results However biblical scholars are sometimes unaware of the breadth of the useful social scientific concepts and techniques and social scientists sometimes lack the most basic background in literary research methods The Handbook of Early Christianity provides a much needed overview for biblical scholars and social scientists alike Drawing on perspectives from anthropology archaeology economics history literary analysis psychology political science and sociology the Handbook shows the myriad and complementary approaches that shed light on Christianity's formation and early development Twenty seven chapters from leading scholars along with a comprehensive bibliography make this an essential reference for anyone wishing to understand the social dynamics of Christianity's birth

The Early Christian World Philip F. Esler, 2002-09-11 Early Christian World presents an exhaustive erudite and lavishly illustrated treatment of how the small movement which formed around Jesus in Galilee became the pre eminent religion of the ancient world The work begins by firmly situating early Christianity within its Mediterranean social political and religious contexts before charting the history of the first Christian centuries The creation and perpetuation of Christian communities through various means including mission and monasticism is explored as is the everyday experience of early Christians through discussion of gender and sexuality religious practice communication and social structures The intellectual particularly theological and artistic heritage of the period is fully considered and a vivid picture painted of the internal and external challenges faced by early Christianity The book concludes with profiles of the most notable figures of the age Comprehensive and accessible Early Christian World provides up to date coverage of the most important topics in the study of early Christianity together with an invaluable collection of visual material It will be an indispensable resource for anyone studying this period

Text and Interpretation Patrick J. Hartin, Jacobus H. Petzer, 1991 Text and Interpretation

offers a concise insight into the many new approaches adopted in more recent New Testament interpretation. Written mainly by South African New Testament scholars, this work provides a guide to the theory and the practice of these new approaches and renders them more readily accessible. *Christian Origins and the Ancient Economy* David A. Fiensy, 2014-07-22. What does economics have to do with Christian origins? Why study such a connection? First of all, the New Testament makes many direct references to economic issues. But second, the economy affects every other aspect of life: family, religion, community, work, health, and politics. To understand what it was like to live in a society, one must understand what the economy was doing. The study of the economy includes not only the goods and services of a society but also human labor and its control. For one, it entails the size of the pie of goods. How prosperous was first-century Galilee? But the study of economy also takes account of the slice of the pie that each family obtained. How fair was the economy to each family? Those involved in the quest for the historical Jesus have discovered that the ancient economy is a major point of dispute among various interpreters. Was the early Jesus movement a socioeconomic protest? Or was it primarily a religious reform? These two approaches understand Jesus in remarkably different ways. This volume seeks to guide readers through some of the most controversial issues raised in the last twenty years on this important topic. *Enslaved Leadership in Early Christianity* Dr. Katherine A. Shaner, 2018-03-01. *Enslaved Leadership in Early Christianity* challenges readers to re-think common perceptions about how enslaved persons participated in first and second-century CE Christian communities. Using archaeology and ancient literature, the book destabilizes structures of domination and reimagines early Christian communities through the ambiguities of power. **The Early Christian Centuries** Philip Rousseau, 2014-06-06. Charting the first six hundred years of the Christian movement, *THE EARLY CHRISTIAN CENTURIES* carries the reader from the world of second-temple Judaism to the Byzantine age, the rise of Islam, and the beginnings of medieval European polities. With a combination of rare tact and acuity, Philip Rousseau takes the measure of a generation of scholarship on early Christianity and the late Roman world. He stresses the importance of shifting historical consciousness, the continuity and development of ideas, and the urge for social respectability. Paying the greatest attention to the inner components of Christian life, the resulting story captures fully the major figures: Paul, the gospel writers, the early apologists, and the great figures of the patristic age, including the Cappadocian Fathers, Augustine, and Gregory the Great. Scaffolds of the Church Cyril Hovorun, 2018-01-01. Unity is the categorical imperative of the church. It is not just the church's *bene esse* but its *esse*. In addition to being a theological concept, unity has become a *raison d'être* of various structures that the church has established and developed. All of these structures are supposed to serve the end of unity. However, from time to time, some of them deviate from their initial purpose and contribute to disunity. This happens because the structures of the church are not a part of its nature and can therefore turn against it. They are like scaffolding, which facilitates the construction and maintenance of a building without actually being part of it. Likewise, ecclesial structures help the church function in accordance with its nature but should not be identified with the church proper. This book considers the

evolution of some of these church structures and evaluates their correspondence to their initial rationale It focuses on particular structures that have developed in the eastern part of the Christian oecumene such as patriarchates canonical territory and autocephaly all of which are explored in the more general frame of hierarchy and primacy They were selected because they are most neuralgic in the life of the Orthodox churches today and bear in them the greatest potential to divide

Historicizing Secular-Religious Demarcations Monika Wohlrab-Sahr, Daniel Witte, Christoph Kleine, 2024-07-01 This volume aims to revitalize the exchange between sociological differentiation theory and the sociology of religion which previously held center stage among the sociological classics It brings together contributions from different disciplines as well as various forms of regional and historical expertise which are indispensable in forming a globally oriented sociological perspective today Secularization is understood as a process of boundary demarcation that is as the enactment of semantic practical and institutional distinctions between religion and other spheres of activity and knowledge These distinctions may emerge from within the religious field itself or may be absorbed into the field having originally emerged elsewhere They may even be directly imposed upon religion by external forces The volume is therefore based on the premise that societal differentiation and secularity as a specific expression of it is a widespread structural feature that nonetheless takes on various forms depending on its historical and cultural context In order to make this diversity visible the volume adopts a global comparative perspective and examines historical distinctions and differentiations in the West and beyond By examining different forms and modes of secularity in statu nascendi the volume contributes to developing a better understanding of the diversity of secularities even of those found in the present day in terms of their historicity and their specific path dependencies With this shift in perspective this special volume initiates a global and historical turn in the theory of differentiation as well as in the study of secularity

Secret Groups in Ancient Judaism Michael E. Stone, 2018 Secret societies in ancient Judaism Esoteric mysteries and secrecy Esoteric as a social category The social organization of secrecy Initiation and graded revelation Other secret Jewish groups and traditions The social setting of esoteric tradition

Decoding **Social Structure Of Early Christian Communities**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Social Structure Of Early Christian Communities**," a mesmerizing literary creation penned with a celebrated wordsmith, readers set about an enlightening odyssey, unraveling the intricate significance of language and its enduring impact on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
