Political and Social Thought in Africa Sharawy, Helmi, 2015-03-02 The essays collected together in this book reflect the author's varied experiences in the realms of politics and social struggle he notes that they

cannot be separated from his other experiences in his country Egypt over the years These experiences extend from popular culture or folklore through the wider political world of African liberation politics to the Committee for the Defense of National Culture This book is like a long trip through African culture from the 1950s to the beginning of the 21st century These essays will most likely provoke a lot of memories sweet and bitter with maybe the bitter ones as the more lasting The author notes that it appears as if the only relationship that seems to have mattered for a long time for the Egyptians with the rest of Africa was the river Nile which joins the country to ten other countries while a vast desert stands in between Such separation ignores the ancient relations between Pharaonic Egypt and the rest of Africa and the role of Egypt in supporting many liberation movements on the continent The author has set himself some tough questions in this book Is it legitimate today to use race to sub divide the African continent Can this moreover be simply done as if race is ahistorical or an idealistic concept of identities Or are we going to talk about Arabism in Egypt Libya or Maghreb as if it were an identity gained with the advent of the Arabs implying that these were lands with no people a sort of No Man s Land Or was this a fragile space that could not confront the invading empire Or will Arabism equate with Bantuism or negroism sometimes and Hausa and Swahili cultures at other times These are the types of issues that Helmi Sharawy examines in this very important book Experiences that inform this book began with the author s first encounter in March 1956 with some African youths who were in Cairo for higher studies or as representatives of liberation movements with whom he worked as an intermediary with the Egyptian national state which work left on him an everlasting impression

Margaret Mead Kate Maguire,2015-02-27 This book makes a case for Margaret Mead s contributions to education discourses which in retrospect appear visionary and profoundly democratic non judgemental and transdisciplinary and for their relevance for education today at primary secondary and tertiary levels Mead combined her substantial skills and knowledge as a linguist anthropologist and psychologist to draw attention to the primary role of culture and society in identity formation privileging against sterner perspectives the idea that the conditions that support the emergence of balanced personalities able to contribute to society and to progress themselves as individuals starts with observation of self before that of others This observation of and reflection on self was for her a necessary demonstration of transparency while close observation of others was an act of love much as the artist contemplates his her subject that dissolved negative differences of culture belief and status

General Will 2.0 Hiroki Azuma,2014-11-25 Stay informed Talk about the issues Always be engaged Liberal societies have encouraged their members to take part or at least interest in politics Yet even in developed nations where it is said to work the democratic process as we know it routinely fails to give voice on the one hand and to appeal at all on the other hand to a good number of citizens Whatever countervailing hopes the worldwide web gave rise to in its dawning years far from restoring the public sphere of yore the internet has completed its fragmentation According to Japanese thinker Hiroki Azuma the way forward must be sought through what network technology is actually good at aggregating and processing the traces

we leave without always meaning to every time we wade into the world of connectivity Harking back to Rousseau and his idea of the general will dropping by Freud and his discovery of the unconscious taking inspiration from Google and the tenor of its innovations revisiting Christopher Alexander and his highway planning and making curious bedfellows of Twitter Rorty and Nozick General Will 2.0 is a wild ride bound to delight not just citizens who care but those who find doing so to be increasingly difficult and false
