Excerpt from *Socialism A Critical Analysis* Socialism is the first place an indictment of any and all industrial systems based on private property and competition. The indictment is urged hotly and with unsparing detail in ponderous treatise and eeting pamphlet through party organs and on party platforms. Day after day and week after week vigorously edited journals keep up a running fire on every weak spot of capitalism. Night after night on countless street corners soap box orators condemn the existing order root and branch. It is judged by its fruits and its fruits are charged to be waste and wretchedness and want. All is for the worst in this worst of possible worlds. Private property and devil take the hindmost have failed utterly to provide an abiding foundation for the social structure.
