Socialist Dilemmas:

Socialist Dilemmas Henryk Flakierski, Thomas T. Sekine, 2019-07-26 This book consisting of eight related articles deals with several dimensions of socialism in the 1980s just before the beginning of the great changes which took place in Eastern Europe. Profound changes in the political economy of the world in the 1970s led to a decline of over confidence and over optimism characteristic of the earlier times both in the West and in the East. The painful experience of stagnation ended the grand Keynesian dream and led to the return of neo conservatism in the West. The disappointing pace of industrial and technological progress during the Brezhnev era and increasing shortages of productivity of communism in the East. With both sides in the grip of political and economic uncertainties the ideological confrontation seemed to have lost much of its sharp edge. No longer did the accepted dogmas and ideologies of the past appear either valid or convincing. The presupposition of the debate on comparative economic systems were in need of fundamental revisions. It was in this perspective that the Political Economy Workshop at York University undertook to feature a series of lectures on socialism in its 1988 sessions. Of about a dozen presentations by York University scholars and invited speakers eight were subsequently made available in the form of articles and are published in this volume. These articles cover a wide range of issues both theoretical and practical and from both the Western and the Eastern perspective. It is recognized by all authors that neither the East European experiments in communism nor the Western process into social democracy have been a great success. The clue to what might lie beyond the socialist dilemmas in the age of perestroika will be found only by going through once again to the circumstances which led to the failure of socialism thus far.

Socialism, Perestroika, And The Dilemmas Of Soviet Economic Reform John E Tedstrom, 2019-07-09 This book highlights that Soviet economic planners and politicians must come to recognize the need to make fundamental changes not simply incremental refinements in the failing Soviet system. It examines the dynamics of the process of perestroika and the complexity of individual economic issues.

Contradictions and Dilemmas János Kornai, 1986 These seven essays by the Eastern block's most important economist address and explore many of the critical social and economic issues inherent in the socialist economy. Published in Hungary in 1983 they are the firsthand observations of an insider who attempts to be as frank and impartial as possible about the experiment in his own country. The essays distinguish the classical or traditional form of a highly centralized socialist economy from a system like that of Hungary's that is in the process of institutional reforms. They focus on a few important characteristics of social economies rather than providing a broad description and analysis of socialist systems in order to stimulate thinking along comparative lines. The wider problems and issues related to socialist systems that they address will interest sociologists and political scientists, historians and philosophers as well as economists. Kornai points out that because real modern societies are different from the pure models of capitalism and socialism, combinations and mixtures of socialist and capitalist systems, sellers and buyers, markets, centralized and decentralized management occur widely and intensively in both socialist and

highly developed industrial market economies and in the nonsocialist third world countries in some segments and to a certain degree Looking at these phenomena comparatively reveals both the deep differences and the similarities and analogies between the systems The essays are The Reproduction of Shortage Hard and Soft Budget Constraint Degrees of Paternalism Economics and Psychology Comments on the Present State and the Prospects of the Hungarian Economic Reform Efficiency and the Principles of Socialist Ethics The Health of Nations J nos Kornai is Professor of Economics at the Institute of Economics Hungarian Academy of Sciences Budapest Against Socialist Illusion - A Radical Argument David
