Society And Psyche Social Theory And The Unconscious Dimension Of The Social:

Society and Psyche Kanakis Leledakis,2020-08-25 Providing interpretations and drawing critically from classical and modern social theory post structuralism and psychoanalytic theory this original study offers an alternative way of thinking about the social and the individual It offers critical analyses of among others Marx Giddens Bourdieu Derrida Laclau and Mouffe Castoriadis Freud and modern psychoanalytic theorists and considers their roles in advancing our present day conceptualization of the social and the self In theorizing that behaviour is both socially determined and autonomous it avoids the impasses of either individualist or structuralist approaches Bourdieu, Habitus and Field Sadiya Akram,2023-11-27

This innovative book argues that establishing an ontological framework makes a substantial difference to Pierre Bourdieu's core concepts of habitus and field In doing so it addresses the charges of determinism tautology and circularity that have long been directed at habitus and field Teasing out Bourdieu's ontology the book offers a novel critical realist reading of Bourdieu arguing that while Bourdieu explored the epistemological basis of his key concepts he neglects their ontological underpinnings and that elaborating on this adds a layer of depth and complexity which enriches Bourdieu's project In addition to articulating the synergies between Roy Bhaskar's critical realism and Bourdieu's oeuvre this book extends Bourdieu's insights in new and exciting directions by developing an ontologically informed Bourdieusian account of institutions as explored through the lens of institutional racism and by outlining a unique methodological approach to habitus

The Charmed Circle of Ideology Geoff Boucher, 2009-03 Set against the collapse of social theory into a theory of ideological discourse Geoff Boucher sets to work a rigorous mapping of the contemporary field targeting the relativist implications of this new form of philosophical idealism Offering a detailed and immanent critique Boucher concentrates his critical attention on the postmarxism of Laclau and Mouffe Butler and i ek In response Boucher points to intersubjectivity as an exit from postmarxist theory's charmed circle of ideology Human Rights, or Citizenship? Paulina

Tambakaki, 2010-04-05 While human rights have been enjoying unprecedented salience the concept of the citizen has been significantly challenged Rising ethical concerns the calling into question of state sovereignty and the consolidation of the human rights regime have all contributed to a shift in focus from an exclusionary problematic citizenship to human rights Human Rights or Citizenship examines this shift and explores its implications for democracy In an accessible way the book explores the arguments within contemporary democratic theory that privilege law and legally codified human rights over citizenship questioning whether legalism alone could lead us to a better more equitable politics Does the prioritisation of law and legally codified human rights risk depoliticisation Do human rights always contest relations of power and subordination Addressing these questions Human Rights or Citizenship opens a debate about the role of citizenship and human rights in democracy It will be invaluable reading for anyone interested in democratic politics today **Emancipation and History**
