Society And Politics In Hong Kong:

Society and Politics in Hong Kong Siu-kai Lau,Zhaojia Liu,1984 **Society and Politics in Hong Kong** Zhaojia Liu,1983-01-01 *Politics and Government in Hong Kong* Ming Sing,2009 This book examines the government of Hong Kong since its handover to mainland China in 1997 focusing in particular on the anti government mass protests and mobilisations in the years since 2003 It argues that Hong Kong has been poorly governed since transferring to Chinese rule and that public frustration with governmental performance including anti subversion laws and slow democratisation has resulted in the regular and massive protests which have been rare in Hong Kong s past political development The book then assesses different explanations for Hong Kong s government problems including lack of social cohesion incomplete economic restructuring structural budgetary deficit severe social inequality intensifying cronyism and deficiencies within the political system itself It goes on to discuss the implications of poor governance for legislative elections civil society and constitutional development and considers the prospects for the future It argues that although in the short term the Hong Kong government has managed to maintain its popular support ratings in the longer run it is unlikely to be able to maintain its legitimacy in dealing with the fundamental challenges of government unless the current system is replaced by popular election of the government with appropriate institutional capacity and political powers *Culture and Society of Hong Kong* ,1999

Between Two Worlds - Society, Politics, and Business in the Philippines Rupert Hodder,2003-08-29 Considers varying attitudes to social relationships in the West and Asia in the context of the Philippines and how bound up these are with material progress business and politics Political Development in Hong Kong Ngok Ma,2007-01-01 This book reviews the political development of Hong Kong before and after 1997 in particular the evolution of state society relations in the last two decades to analyze the slow development of democracy and governance in Hong Kong after 1997 This book is a most comprehensive analysis of the multi faceted changes in Hong Kong in the last 20 years The scope of changes analyzed included state functions and institutions political changes such as party development and development of the Legislative Council and social changes such as social movements civil liberties etc It helps the reader understand the crisis of governance of Hong Kong after 1997 and the difficulty of democratic development in Hong Kong over the years The book covers changing state institutions in Hong Kong in the last few decades party development in Hong Kong the changing role and function of the legislature in Hong Kong the evolution of social movement and movement organizational forms media freedom civil liberties and the role of civil society and theoretical discussions concerning governance problems and state society relations in Hong Kong Special emphasis is placed on how these changes brought about a new state society relation which in turn brought governance difficulties after 1997 Social Movements and Political Reform in Hong Kong Linda Butenhoff,1999-09-30 Hong Kong society is often regarded as politically apathetic Yet throughout its history Hong Kong experienced periodic waves of social movement activity In part the perception of an apathetic populace stems from the

colonial government's laissez faire policies the society's concentration on economic development the maintenance of traditional Chinese culture and a consensus that Hong Kong would revert to Chinese sovereignty Since Hong Kong was a colony instead of evolving into a democratic government Great Britain instituted a system of elite consultation and absorption of the masses political problems through indirect participation Butenhoff addresses the question of why social movements emerged and how they influenced the process of political reform Her study presents and analyzes the activities of social movements so that a clearer picture of civil society and political change from below emerges Butenhoff integrates the literature on Hong Kong civil society and social movements into an integrated approach to analyze social movement influence in Hong Kong politics Her three case studies the independent labor movement the nontraditional Christian movement and the democracy movement are analyzed using a social movement framework She evaluates the forces that drive and sustain social movements and argues that while the Chinese and British governments debated the fate of democratic Hong Kong the Hong Kong people have been overlooked throughout the process And as a result Hong Kong social movements play an essential role in raising the awareness of the people and bringing to light the voices from below *Korea Observer*, 2005
