The French Civil Wars, 1562-1598 R. J. Knecht, 2014-07-22 The French Wars of Religion tore the country apart for almost fifty years. They were also part of the wider religious conflict between Catholics and Protestants which raged across Europe during the 16th century. This new study by a major authority on French history explores the impact of these wars and sets them in their full European context.

Between Crown and Community Hilary Bernstein, 2004 The sixteenth century was an important period of transition in France in which antagonistic religious beliefs led to prolonged civil wars and a growing state apparatus competed with medieval notions of political authority and the social order. Poitiers, a mid-sized provincial capital, actively experienced these tensions. Early known as a center of Reformed belief, it became a stronghold of ultra-Catholic sentiment by 1575. In examining sixteenth-century Poitiers, Hilary J. Bernstein argues that civic governments and the French monarchy enjoyed a mutually beneficial and reinforcing relationship rather than an antagonistic one. That disparate urban groups shared a political language for defining the identity and interests of the city that helped to balance the exclusive nature of urban government and that French provincial cities did not suffer inevitable decline at the hands of the developing state but instead continued to help define the nature of early modern political culture. Though Poitiers continued to celebrate the traditions and institutions of local rule, it sought throughout the century to maintain a strong bond with the monarchy. Bernstein's meticulous research in the rich archives of Poitiers allows her to analyze early modern rhetorical culture and reveal the processes of daily decisionmaking. Using contemporary printed sources, she compares Poitiers to other cities and draws general conclusions about royal policies toward provincial cities. *Between Crown and Community* illustrates in precise and sometimes dramatic fashion the actual performance of politics: the interaction of political identities, rhetorical strategies, and ritual practices with the civic traditions of the premodern urban world.

Medicine and Society in Early Modern Europe Mary Lindemann, 1999-10-28 *Medicine and Society in Early Modern Europe* in the highly successful series of *New Approaches* offers undergraduate students a concise introduction to a subject rich in historical excitement and interest. Bringing together the best and most innovative recent research, Mary Lindemann examines medicine from a social and cultural perspective rather than a narrowly scientific one. Drawing on medical anthropology, sociology, and ethics as well as cultural and social history, she focuses on the experience of illness and on patients and folk healers as much as on the rise of medical science, doctors, and hospitals. Mary Lindemann is a distinguished scholar in the history of medicine and writes with exceptional clarity on this fascinating subject; her book will be essential reading for all students of the history of medicine and provide invaluable context for historians of early modern Europe in general.

Richelieu and Mazarin David Sturdy, 2017-03-14 Drawing upon recent research and past studies, David J. Sturdy presents a concise up-to-date analysis of the private and public careers of two of the most influential ministers in seventeenth-century France: Richelieu and Mazarin. Adopting a broadly chronological approach interspersed with passages at relevant points which compare and contrast the key

achievements of the two Cardinals Examines such central themes as the internal government of France the ministers conduct of foreign policy and the nature of elite and popular resistance to their policies Explores the political ideas and strategies of Richelieu and Mazarin the relations between the ministers and the Crown and the patronage they exercised The book concludes with a comparative assessment of the significance of the two figures for the history of France *Religion and Royal Justice in Early Modern France* Diane C. Margolf, 2004-01-01 Diane Margolf looks at the Paris Chambre de l'Edit in this well researched study about the special royal law court that adjudicated disputes between French Huguenots and the Catholics Using archival records of the court's criminal cases Margolf analyzes the connections to three major issues in early modern French and European history religious conflict and coexistence the growing claims of the French crown to define and maintain order and competing concepts of community and identity in the French state and society Based on previously unexplored archival materials Margolf examines the court through a cultural lens and offers portraits of ordinary men and women who were litigants before the court and the magistrates who heard their cases
