The Nordic Languages Oskar Bandle, Lennart Elmevik, Gun Widmark, 2002

Annotation This handbook is conceived as a comprehensive history of the North Germanic languages from the oldest times up to the present day Whereas most of the traditional presentations of Nordic language history are confined to individual languages and often concentrate on purely linguistic data the present work covers the history of all Nordic languages in its totality embedded in a broad culture historical context The Nordic languages are described both individually and in their mutual dependence as well as in relation to the neighboring non Nordic languages The handbook is not tied to a particular methodology but keeps in principle to a pronounced methodological pluralism encompassing all aspects of actual methodology Moreover it combines diachronic with synchronic systematic aspects longitudinal sections with cross sections periods such as Old Norse transition from Old Norse to Early Modern Nordic Early Modern Nordic 1550 1800 and so on The description of Nordic language history is built upon a comprehensive collection of linguistic data it consists of more than 200 articles written by a multitude of authors from Scandinavian and German and English speaking countries The organization of the handbook combines a central part on the detailed chronological developments and some chapters of a more general character chapters on theory and methodology in the beginning and on overlapping spatio temporal topics in the end

The Continuity of Linguistic Change Matilde Vida-Castro, Antonio Manuel Ávila-Muñoz, 2024-02-15 The Continuity of Linguistic Change presents a collection of selected papers in honour of Professor Juan Andrés Villena Ponsoda The essays revolve around the study of linguistic variation and the mechanisms and processes associated with linguistic change a field to which Villena Ponsoda has dedicated so many years of research The authors are researchers of renowned international prestige who have made significant contributions in this field The chapters cover a range of related topics and provide modern theoretical and methodological perspectives addressing the structural cognitive historical and social factors that underlie and promote linguistic change in varieties of Dutch German Greek Italian Spanish and Swedish The reader will find contributions that explore topics such as phonology acoustic phonetics and processes deriving from the contact between languages or linguistic varieties specifically levelling koineisation standardisation and the emergence of ethnolects

The Handbook of Dialectology Charles Boberg, John Nerbonne, Dominic Watt, 2018-01-31 The Handbook of Dialectology provides an authoritative up to date and unusually broad account of the study of dialect in one volume Each chapter reviews essential research and offers a critical discussion of the past present and future development of the area The volume is based on state of the art research in dialectology around the world providing the most current work available with an unusually broad scope of topics Provides a practical guide to the many methodological and statistical issues surrounding the collection and analysis

of dialect data Offers summaries of dialect variation in the world's most widely spoken and commonly studied languages including several non-European languages that have traditionally received less attention in general discussions of dialectology Reviews the intellectual development of the field including its main theoretical schools of thought and research traditions both academic and applied The editors are well known and highly respected with a deep knowledge of this vast field of inquiry

Second Dialect Acquisition Jeff Siegel, 2010-08-19 What is involved in acquiring a new dialect for example when Canadian English speakers move to Australia or African American English speaking children go to school How is such learning different from second language acquisition SLA and why is it in some ways more difficult These are some of the questions Jeff Siegel examines in this book which focuses specifically on second dialect acquisition SDA Siegel surveys a wide range of studies that throw light on SDA These concern dialects of English as well as those of other languages including Dutch German Greek Norwegian Portuguese and Spanish He also describes the individual and linguistic factors that affect SDA such as age social identity and language complexity The book discusses problems faced by students who have to acquire the standard dialect without any special teaching and presents some educational approaches that have been successful in promoting SDA in the classroom

Language in Society Suzanne Romaine, 2000-10-05 Why have 1500 separate languages developed in the Pacific region Why do Danes understand Norwegians better than Norwegians understand Danish Is Ebonics a language or a dialect Linguistics tends to ignore the relationship between languages and the societies in which they are spoken while sociology generally overlooks the role of language in the constitution of society In this book Suzanne Romaine provides a clear lively and accessible introduction to the field of sociolinguistics and emphasizes the constant interaction between society and language discussing both traditional and recent issues including language and social class language and gender language and education and pidgins and creoles The text shows how our linguistic choices are motivated by social factors and how certain ways of speaking come to be vested with symbolic value and includes examples drawing on studies of cultures and languages all over the world This new edition incorporates new material on current issues in the study of gender as well as other topics such as the linguistic dimension to the ethnic conflict in the Balkans and the controversy over Ebonics in the United States

Sociolinguistics Around the World Martin J Ball, 2009-12-16 Drawing on examples from a wide range of languages and social setting The Routledge Handbook of Sociolinguistics Around the World is the first single volume collection surveying current and recent research trends in international sociolinguistics With over 30 chapters written by leading authorities in the region concerned all continents and their respective regions are covered The book will serve as an important tool to help widen the perspective on sociolinguistics to readers of English Divided into sections covering The Americas Asia Australasia Africa and the Middle East and Europe the book provides readers with a solid up to date appreciation of the interdisciplinary nature of the field of sociolinguistics in each area It clearly explains the patterns and systematicity that underlie language variation in use as well as the ways in which alternations between different

language varieties mark personal style social power and national identity The Routledge Handbook of Sociolinguistics around the World is the ideal resource for all students on undergraduate sociolinguistics courses and researchers involved in the study of language society and power English Language and Linguistics Sociolinguistics

History and Development of the Arabic Language Muhammad al-Sharkawi, 2016-11-25 History and Development of the Arabic Language is a general introduction for students to the history of the Arabic language It is divided into two parts the pre Islamic language up to the emergence of the first well known works of Classical Arabic Secondly the transition from the pre Islamic situation to the complex Arabic language forms after the emergence of Islam and the Arab conquests both in Arabia and in the diaspora The book focuses on the pre Islamic linguistic situation where the linguistic geography and relevant demographic aspects of pre Islamic Arabia will be introduced In addition the book will also discuss the communicative contexts and varieties of Modern Arabic The book includes readings discussion questions and data sets to provide a complete textbook and resource for teachers and students of the history of Arabic

Shared Languages, Shared Identities, Shared Stories Doris Schüpbach, 2008 This book explores how 15 immigrants from German speaking Switzerland in Australia make sense of their migratory experience of building a new life in a different language It does so by examining their written and oral life stories The analysis takes two complementary perspectives Firstly the construction of language identities is studied through the language practices and attitudes discussed and displayed by the participants Secondly the ways in which they create coherence in their life stories focuses on autobiographical identities where language is a medium of sense making across their life course The combined perspectives highlight the diversity among the participants and the complexities of language and identity construction in the context of migration
