Mimesis in a Cognitive Perspective Nicolae Babuts, 2017-07-05 Mimesis is a critical and philosophical term going back to Aristotle It carries a wide range of meanings including imitation representation mimicry the act of expression and the presentation of self In modern literary criticism mimesis has received renewed attention in the last two or three decades and been subject to wide ranging interpretations Nicolae Babuts looks at the concept of mimesis from a cognitive perspective He identifies two main strands the mimetic relation of art and poetry to the world defined in terms of reference to an external reality and the importance of memory in the making of plots or storytelling Babuts suggests that there is a material identity we cannot know beyond the limits of our senses and intellect and a symbolic or coded identity that is processed by memory All writers including Mallarmé in his esoteric poetry Flaubert in his realist narratives and Mihai Eminescu the Romanian poet in his romantic poems rely on mimetic strategies to link the two identities the images in memory to the outside reality All order their narratives in accordance with the dynamics of memory Babuts describes this phenomenon with great insight showing how new traditions are formed

Jeffrey Sachs Japhy Wilson, 2014-04-15 An investigation of Sachs's schizophrenic career and the worldwide havoc he has caused Jeffrey Sachs is a man with many faces A celebrated economist and special advisor to UN Secretary General Ban Ki moon he is also no stranger to the world of celebrity accompanying Bono Madonna and Angelina Jolie on high profile trips to Africa Once notorious as the progenitor of a brutal form of free market engineering called shock

therapy Sachs now positions himself as a voice of progressivism condemning the 1 per cent and promoting his solution to extreme poverty through the Millennium Villages Project. Appearances can be deceiving. Jeffrey Sachs' *The Strange Case of Dr Shock and Mr Aid* is the story of an evangelical development expert who poses as saviour of the Third World while opening vulnerable nations to economic exploitation. Based on documentary research and on the ground investigation, Jeffrey Sachs exposes Mr Aid as no more than a new, more human face of Dr Shock. *A Comparative Analysis of Violence in Margaret Drabble and Four Selected Iraqi Novels* Bushra Juhi Jani, 2021-11-22. This book is the first work comparing Margaret Drabble with key Iraqi novelists. It analyses physical and soft violence in Drabble's novels and the works of four Iraqi contemporary novelists including Ahmed Saadawi's *Frankenstein in Baghdad* 2013. The book argues that physical and soft violence are interwoven and interconnected, meaning that where there is physical violence there is nearly always soft violence and though to a lesser extent vice versa. Thus soft violence can cause just as much damage psychologically or literally as hard violence.

Jeremiah, Zedekiah, and the Fall of Jerusalem Mark Roncace, 2005-09-08. Uses both a narratological and historical critical method to read these specific passages of Jeremiah. Demonstrates that the story of Jeremiah and Zedekiah is not the typical god prophet bad king story found in much of prophetic literature and the Deuteronomistic History. Provides an intertextual reading of the passages which connects Jeremiah to other figures in the Old Testament. The book offers a narratological and intertextual reading of Jeremiah 37:1-40:6, a text that features the dynamic interaction between the prophet Jeremiah and King Zedekiah in the context of events surrounding the fall of Jerusalem. While there have been many literary studies of biblical texts, there has been little such work on the narratives in the book of Jeremiah. This fact is surprising since the Jeremianic stories are narrated in a lively and sophisticated manner and contain complex characters and vivid dialogue and action reminiscent of texts in the Primary History which have received much more literary attention. Roncace's book begins to uncover the richness of the prophetic narratives in Jeremiah. The study focuses on issues of characterization and point of view as well as the text's connections with other passages in the book of Jeremiah and those beyond it, particularly the Deuteronomistic History. Roncace argues that the text develops complex images of both Zedekiah and Jeremiah. It is not a story of the good prophet and the bad king; times as chaotic and confusing as the final days of Jerusalem do not call for a black and white story. Rather, the text invites both sympathy and criticism for Jeremiah and Zedekiah. Jeremiah is the embattled prophet of God, yet at times he appears deceptive and manipulative, more concerned about his own well-being than that of the people, and his message can be ambiguous and in the end is not fully correct. Zedekiah, for his part, appears receptive to Jeremiah's word and protects the prophet from others who would harm him, yet he is too irresolute to take any action to save the city. The ambiguity in the portrayals of both figures is further developed by intertextual connections. Jeremiah can be compared to Moses, the Rabshakeh, Daniel, Joseph, Samuel, Nathan, and Micaiah, while Zedekiah can be compared to the monarchs that correspond to these figures: Pharaoh, Hezekiah, Saul, David, and Ahab. Software Evangelism

and the Rhetoric of Morality Jennifer Helene Maher, 2015-08-27 Examining the layers of meaning encoded in software and the rhetoric surrounding it this book offers a much needed perspective on the intersections between software morality and politics In software development culture evangelism typically denotes a rhetorical practice that aims to convert software developers as well as non technical lay users from one platform to another e g from the operating system Microsoft Windows to Linux This book argues that software evangelism like its religious counterpart must also be understood as constructing moral and political values that extend well beyond the boundaries of the development culture Unlike previous studies that locate such values in the effects of code in use or in certain types of code like free and open source FOSS software Maher argues that all code is meaningful beyond its technical executable functions To facilitate this analysis this study builds a theory of evangelism and illustrates this theory at work in the proprietary software industry and FOSS communities As an example of political liberalism at work at the level of code these evangelical rhetorics of software construct competing conceptions of what is good that fall within a shared belief in what is just Maher illustrates how these beliefs in goodness and justice do not always execute in replicable ways as the different ways of decoding software evangelisms in the contexts of Brazil and China reveal Demonstrating how software evangelisms exert a transformative force on the world one comparable in significance to code itself this book highlights the importance of rhetoric in even the most seemingly a rhetorical of technical endeavors and foregrounds the crucial need for rhetorical literacy in the digital age **Dante** John Freccero, 1986 The essays are arranged to follow the order of the Comedy and they form the perfect companion for a reader of the poem Throughout Freccero operates on the fundamental premise that there is always an intricate and crucial dialectic at work between Dante the poet and Dante the pilgrim from cover **Cool Men and the Second Sex** Susan Fraiman, 2003 The author identifies a number of male figures with cool masculinity including Edward Said Henry Louis Gates Jr Quentin Tarantino Spike Lee and Brian de Palma *The Cambridge History of Literary Criticism: Volume 5, Romanticism* George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction Shakespeare and Moral Agency Michael D.
