The Gaze And The Labyrinth:

The Gaze and the Labyrinth Gaetana Marrone, 2000-01-30 In this the first comprehensive book on Liliana Cavani Gaetana Marrone redraws the map of postwar Italian cinema to make room for this extraordinary filmmaker whose representations of transgressive eroticism spiritual questing and psychological extremes test the limits of the medium pushing it into uncharted areas of discovery Cavani's film *The Night Porter* 1974 created a sensation in the United States and Europe But in many ways her critically renowned endeavors which also include *Francesco di Assisi* *Galileo* *I cannibali* *Beyond Good and Evil* *The Berlin Affair* and several operas and documentaries remain enigmatic to audiences Here Marrone presents Cavani's work as a cinema of ideas showing how it takes pleasure in the telling of a story and ultimately revolts against all binding ideological and commercial codes The author explores the rich visual language in which Cavani expresses thought and the cultural icons that constitute her style and images This approach affords powerful insights into the intricate interlacing of narrated events We also come to understand the importance assigned to the gaze in the genesis of desire and the acquisition of knowledge The films come to life in this book as the classical tragedies Cavani intended where rebels and madmen experience conflict between historical and spiritual reality the present and the past Offering intertextual analyses within such fields as psychology history and cultural studies along with production information gleaned from Cavani's personal archives Marrone boldly advances our understanding of an intriguing important body of cinematic work

Conley, 2016-01-04 Vienna has been the locale for nearly one hundred and fifty films and television productions in English from 1920s through the first years of this century with imaginative representations of Freud Strauss Franz Josef Mozart Beethoven and Klimt mad scientists assassins spies refugees romantics and American professors historical dramas cartoons documentaries and Hitchcock's only musical comedy *The City of Dreams* has appeared as an imperial court a center of scientific and medical research a Jewish and Catholic homeland a locus of international espionage and domestic crime the destination for innocents abroad the birthplace of the waltz a stage for performances and performers and the site for romantic rendezvous For many in English language audiences such productions have constituted the most significant representations of Vienna a city that historically has been the capital of one of Europe's largest empires one of the most important centers for classical music and opera both a victim and an accomplice of Nazi Germany and the home of international diplomacy Cultural historians and Austrian writers have provided significant commentary on the city but their influence has seldom reached such an extensive audience as the films and television productions screening Vienna for English language audiences Screening Vienna thus analyzes the representation of Vienna and the Viennese in English language film and television reviews the critical reception of these productions and measures the representations against the cultural and historical contexts and the writings of contemporary Austrian writers The book is unique in its scope over one hundred and fifty productions from the 1920s to 2013

and in its inclusion of leading reviews of many films references to cultural and historical studies of Vienna and references to modern and contemporary Austrian fiction Thus the analysis is more extensive in its coverage and more intensive in its analysis of each film than any previous study with a focus on scene language plot characterization and the reception of these films Scholars and students in American cultural studies film studies Austrian and Viennese history and popular culture will find the book informative and essential for studies of Vienna in the American and British imagination Given the extensive coverage and filmography many libraries should also view the book as a reference work in addition to its status in cultural and film studies The book will also be useful for film studies and American popular culture studies courses at advanced or graduate level

The Ends of Literature Brett Levinson, 2001. *The Ends of Literature* analyzes the part played by literature within contemporary Latin American thought and politics, above all the politics of neoliberalism. The why of contemporary Latin American literature is the book's overarching concern. Its wide range includes close readings of the prose of Cortázar, Carpentier, Paz, Valenzuela, Piglia, and Las Casas, of the relationship of the Boom movement and its aftermath of testimonial narrative and of contemporary Chilean and Chicano film. The work also investigates in detail various theoretical projects as they intersect with and emerge from Latin American scholarship, cultural studies, deconstruction, psychoanalysis, and postcolonial studies. Latin American literature, both as a vehicle of conservatism and as an agent of subversion, is bound from its inception to the rise of the state. Literature's nature, role, and status are therefore altered when the Latin American nation-state succumbs to the process of neoliberalism, as the too strong state dictatorship yields to the too weak state, the market, and as the various practices of civil society and public life are replaced by private or privatized endeavors. However, neither the end of literature nor the end of the state can be assumed. The end of literature in Latin America is in fact the call for more literature; it is the call of literature in particular that of the Boom. The end of the state likewise is the demand upon this state. The book then analyzes the ends in question as at once their purpose, direction, future, and conclusion. Also key to the study is the notion of transition. Within much recent Latin American political discussion, *la transición* refers to the passage from dictatorship to democracy as well as to the failure of this shift, the failure of post-dictatorship. The author argues that the movement from literary to cultural studies, while issuing from intellectual and aesthetic circles, is an integral component of this same transition. The thematization of the bind between these two displacements, hence of Latin America's voyage into post-transition, forms a fundamental portion of the text.
