25th anniversary edition Ken Ham points out the looming precipice too many church leaders are rushing towards a denial of the full authority and accuracy of the Bible from its very first verse In addition Ken powerfully shows how the unproven unscientific philosophy of evolution is driving young people away from the Christian faith and provides solid biblical solutions to turn things around The Lie uncovers Why Genesis remains critically important in presenting the Gospel This slippery slope of reinterpreting Scripture and redefining biblical doctrine How the handling of the biblical account of creation impacts your understanding of all of Scripture and your worldview The collapsing structure of Christianity as Genesis is questioned compromised and dismissed The religion of evolution The authority of God s Word versus man s fallible word Genesis as the foundation for all biblical doctrine Evolutionary ideas are actually destructive to the foundational message of the Cross of Jesus Christ Evolution is used to justify social issues such as abortion communism drug abuse homosexual practices and worse The successful use of creation evangelism to present the whole gospel message These issues are of critical importance when you realize that today we have Christians questioning Genesis the age of the earth the reality of Hell Adam as a real person and Christ s own words about creation marriage and more One compromise just leads to another and it has to end if we want to leave a legacy of faith to future generations Churches individuals and Bible colleges are using this Christian apologetic resource to strengthen their faith families and sharing of the whole gospel of Jesus Christ Applied Ethics Larry May,2017-07-05 This best selling text continues to fill an existing gap in the literature taught in applied ethics courses As a growing number of courses that include the perspectives of diverse cultures are being added to the university curriculum texts are needed that represent more multicultural and diverse histories and backgrounds This new edition enhances gender coverage as nearly half of the pieces are now authored by women The new edition also increases the percentage of pieces written by those who come from a non Western background It offers twelve up to date articles not found in previous editions on human rights environmental ethics poverty war and violence gender race euthanasia and abortion all of these topics are addressed from Western and non Western perspectives **Boundary Element Methods** S.
