Spreading the Light Archie Crawford,2004 This book is about life and is written in plain everyday language The author boldly faces up to those fundamental questions rankling at the back of one s mind such as Is there really a God Where is He What is the nature of the soul What is truth Is reincarnation true Is there any purpose in the universe Does God cause suffering Do angels exist Who am I Can effect become cause Does space and time really exist etc He probes deep into the structure of your mind and with great clarity shows you how your mind works and how you can use it to find success in

everything you do He shows how we attract our present circumstances and how emotionally intense events are not only registered in our psychic memory but also in the memories of the cells of our body and what this means for us He devotes a chapter in which he advocates going within through meditation to find solutions to our problems Religion is examined with candor He explains the many positive benefits of religion examines its dark side and points out that like individuals some religions must resolve and get rid of the baggage of past evil deeds before they and their followers can step into the light The author shows how in spite of itself science through its quantum theories is currently making discoveries which lead to a new view of the universe more in line with that of the essence of the religions and the experiences of the mystics of this world He shows how science and religion are at last beginning to merge For example there is now scientific proof of the value of prayer proof that the mind is non local that is it is not located in the brain and also can cause actions over distance that there is no solid matter in the universe it is all energy in one form or another He further states that a field of energy outside the material universe has been discovered where speeds exceed that of light It has also been found that our human consciousness is directly connected with matter and influences at least its microscopic particles The nature of the universe as being holographic is explored These scientific findings have profound spiritual significance He quotes experts on the future of mankind including Arthur C Clark Nobel physicist Brian Josephson Stephen Hawking etc and many more Reading this book will prepare you for the new age that is fast enveloping the earth The author s message is that in spite of the terrorism and devastation of the earth currently going on there is powerful hope There are powerful spiritual forces at work which will overcome the present chaos and lead us into a life of enlightenment and eventually of love Your needs are met. The

master of your fate. Unappropriated millions. The secret of power. This one thing I do Robert Collier,1925 **How Your**

Robert Collier,1925 **Mysticism in Newburyport** Peter James Ford,2021-08-05 This is the second book of lighthearted tales in this seven book series under the title MYSTICISM IN NEWBURYPORT This is the personal journey of just another soul re awakening to his divinity in this lifetime and reuniting with his true self Peter was to have many profound spiritual experiences along the Merrimac River in Newburyport Massachusetts So to honor this unique historic seaport he has chosen

to use this title for his seven book series on his continued journey of awakening These personal accounts of Peter s journey are more of an individual perspective of life rather than any particular location Book One was introduced at the Miami International Book Fair as a modern day version of the Herman Hesse classic novel called SIDDHARTHA After a profound spiritual awakening through the grace of a Meditation Master Peter was to personally have the experiences from long nights along the river in meditation that the fictional character had experienced in Herman s classic novel These writings are really a Unique School of Thought from Peter s insights through Nature As in Newburyport where the river revealed all its secrets Now the shifting sands of the Southern Maine coast are revealing its secrets for book two Peter feels blessed as the treasures from Nature are so abundant in New England coast and in the White Mountains of New Hampshire After growing up in Lynn Mass where Peter was involved with heavy alcohol consumption sixties drug use arrests broken bones violence motorcycle crashes and high speed chases Peter realized a deep love for motorcycles and physical training during his early years Peter was to end up in the 12 step program at nineteen years old He entered the program over fifty years ago in March 1970 and almost immediately had a spiritual awakening There is a difference between a spiritual awakening and a spiritual experience On Peter s path he was to experience both as did the founder of the first 12 step program Seven years sober Peter was in deep emotional and mental pain experiencing despair and from this pain pain is the touchstone of spiritual growth he was to have his first spiritual experience Peter now knew deep in his heart that God was actually The Intelligence Behind Nature and also that this intelligence was in his every cell of his body as it is the giver of all life It was around twenty five years sober that Peter s older brother introduced him to a Meditation Master who was to become his guide at these higher levels of understanding and evolvment Peter has said That the more he learned about the Ancient Universal Principles the less he felt he knew Peter said It is kind of humorous that when you actual attain something worthwhile what goes along with it is humility just another soul on the path another bozo on the bus Best Wishes on Your Personal Journey
