The Geography Of Laws And Justice Spatial Perspectives On The Criminal Justice System:

The Geography of Laws and Justice Keith D. Harries, Stanley D. Brunn, 1978-01-01 **Bibliography of Geography** Chauncy Dennison Harris, 1984 Pt 1 Introduction to general aids pt 2 Regional v 1 The United States of America Progress in Political Geography (Routledge Revivals) Michael Pacione, 2014-06-03 Since the 1970s the field of political geography has undergone a significant transformation where new methodologies have been implemented to investigate the exercise of the power of the state within the urban environment First published in 1985 the essays in this collection addressed the growing need to assess the academic revisions that had been taking place and provide a reference point for future developments in the discipline Still of great relevance the essays consider the most prominent themes in areas of key importance to political geography including theory and methodology minority groups local government and the geography of elections This volume will be of significant value for students of political geography urban demography and town planning **A Century of British Geography** Ron Johnston, Michael Williams, 2022-09-11 These essays trace the evolution of British geography as an academic discipline during the last hundred years and stress how the study of the world we live in is fundamental to an understanding of its problems and concerns Never before has such an ambitious and wide ranging review been attempted and never before has it been done with so much knowledge and passion The principal themes covered in this volume are those of environment place and space and the applied geography of map making and planning The volume also addresses specific issues such as disease urbanization regional viability and ethics and social problems This lively and accessible work offers many insights into the minds and practices of today's geographers Routledge Library Editions: Criminology Various Authors, 2021-02-25 Reissuing seven works originally published between 1940 and 1997 this collection spans the time in which Criminology has been a recognised academic discipline It offers a set of excellent works on diverse aspects of the field from nineteenth century criminality to burglary in the 1980s The set includes a Dictionary and several works looking at the social and psychological side of crime **The Geography of Execution** Keith D. Harries, Derral Cheatwood, 1997 The perennially controversial issue of capital punishment has generated especially passionate debate in recent years In this book two noted experts on crime provide a geo historical perspective on capital punishment showing vividly the incoherencies and contradictions in policies and practices across the country Going back to the earliest U S executions the authors challenge the belief that capital punishment serves as a deterrent Using state of the art methods drawn from geographic information systems GIS they illustrate the culture of capital punishment and its impact on selected groups mapping the execution of women for example and the origin and diffusion of electrocution the gas chamber and lethal injection This book will be indispensable to anyone scholar policy maker or lay person who must be informed on the issue of capital punishment *Crime and Environment* R. N. Davidson, 2019-03-11 Originally published in 1981 This book unifies the diverse literature on the role of environmental factors in the uneven distribution of crime in society and provides an assessment of the validity

of environmental explanations and their utility It analyses and assesses the major work done by researchers in Britain America and elsewhere The extent of the differences between communities is reviewed from a number of perspectives Offences are examined by location nature and seriousness Offenders are located in their environment and variations according to sex age race social class and recidivism are considered The risks of victimisation also reflect environmental differences and need to be set in the context of wider community perceptions fears and attitudes to crime The role of the community in the distribution of justice is also discussed

Geography Inside Out Richard Symanski, 2002-06-01 Taking sharp aim at complacent geography scholars this irreverent book turns the world of academic geography upside down The author a foremost figure in the field joins forces with his alter ego the incorrigible Korsi to draw fire from his own personal and professional experience No one knows better than they the stuffy censorship and skewed logic that inform the geography establishment and stifle the valiant geographer and they tell all With an unsparing eye Geography Inside Out exposes a discipline soiled by cerebral litter and shamed by intellectual cowardice Symanski shows no mercy for the pompous the mediocre or the hypocritical And he reveals the devastating truth about a geographer blackballed for life for writing about prostitution and for his intellectual attack of a major figure within the discipline A shrewd look at high profile geographers this book sheds light on how geographers write and think It also helps explain why geography has long been seen as the poor and neglected sister of the social sciences Unprecedented in subject and scope Geography Inside Out is certain to be as controversial as it is edifying

Comparative Perspectives on Criminal Justice in China Michael McConville, 2013-01-01 Comparative Perspectives on Criminal Justice in China is highly recommended The editors have assembled the leading Western and Chinese scholars in the field to examine the administration of criminal justice in China showing both how far the system has come and the challenges that lie ahead This is an important and timely book It is essential reading for anyone who wants to understand or has to deal with the Chinese criminal justice system Klaus M hlhahn Freie Universit t Berlin Germany This highly informative and engaging volume on the Chinese criminal justice system today provides a window into the vagaries of law and its operation in the People s Republic McConville and Pils bring together an impressive array of scholars whose studies span the criminal process From initial police investigation through to prosecution and sentencing of defendants we see how dominant values in the Chinese state and its structures of power make the practice of criminal justice today still intensely political Susan Trevaskes Griffith University Australia Comparative Perspectives on Criminal Justice in China is an anthology of chapters on the contemporary criminal justice system in mainland China bringing together the work of recognised scholars from China and around the world The book addresses issues at various stages of the criminal justice process investigation and prosecution of crime and criminal trial as well as problems pertaining to criminal defence and to parallel systems of punishment All of the contributions discuss the criminal justice system in the context of China s legal reforms Several of the

contributions urge the conclusion that the criminal process and related processes remain marred by overwhelming powers of the police and Party State and a chapter discussing China's 2012 revision of its Criminal Procedure Law argues that the revision is unlikely to bring significant improvement This diverse comparative study will appeal to academics in Chinese law society and politics members of the human rights NGO and diplomatic communities as well as legal professionals interested in China **Topical Bibliography**, 1983 *Research Paper* University of Chicago. Department of Geography, 1948
