The German Center Party 1890 1906:

Germany, 1866-1945 Gordon Alexander Craig, 1978 Pays close attention to the people parties and pressure groups that influenced German policy in foreign and domestic matters Half the book is devoted to the crucial period following the collapse of Germany in World War I The author deals with Weimare Germany in all its contradictory elemetns and show how forces at work before and during the war combined with postwar conditions to sap the strength of the German republic and so brought Hitler s Nazi regime to power

The German Center Party, 1880-1906 John K. Zeender, 1976

The German Center Party, 1870-1933 Ellen Lovell Evans, 1981 This is the only book to deal with the Cath olic clerical influence on the German Center party a forerunner of Germany s present Christian Democratic Union In addition to tracing the effect of the Catholic clerical influence up on the parliamentary functioning of the Center party Ms Evans explores the relationship between the Center and other political parties both in opposition and in coalition and the efforts of the party s leaders to satisfy the diverse interest groups it represented Ms Evans notes that a combination of cir cumstances made necessary a separate party for German Catholics the resentment of Catholics concerning the events of German unification the increased solidarity and militancy of the church under Pius IX and the need for defense against the demands for anticlerical legislation made by German liberals The original small party grew enormously It changed both its nature and its platform during the years of the Kulturkampf the campaign to weaken the Catholic church con ducted by Bismarck and the liberal parties As a consequence of the conflict the party developed an ideological base flexible enough to encompass a strong civil rights platform an opposition to militarism a concern for social welfare an affiliation with labor union Organi zations and even a tentative embrace of democracy At the same time the continued pursuit of clerical goals and in particular the goal of maintaining denominational education made it difficult for the Center to form enduring partnerships with either Liberals or Socialists in spite of many mutual inter ests Nevertheless the party accomplished many of its goals Ms Evans concentrates on some of these The party s education policy social policy church state relations and corporativism

German Peasants and Agrarian Politics, 1914-1924 Robert G. Moeller, 2017-10-10 Robert Moeller investigates the German peasantry s rejection of the Weimar Republic in the 1920s and provides a new interpretation of Catholic peasant conservatism in western Germany According to Moeller rural support for conservative political solutions to the troubled Weimar Republic was the result of a series of severe economic jolts that began in 1914 and continued unabated until 1933 During the late nineteenth century peasant farmers in the Rhineland and Wesphalia adjusted their production to a capitalist market and enjoyed an unprecedented period of prosperity that lasted until the outbreak of World War I After August 1914 peasant producers confronted state intervention in the agricultural sector regulation of prices and markets and the subordination of agrarian interests to the demands of urban consumers A controlled economy for many agricultural products continued into the postwar period Focusing on the Catholic peasantry Moeller shows that peasant rejection of the Weimar Republic was firmly

grounded in the immediate circumstances of the war economy and the uneven process of postwar recovery He challenges the dominant view that rural support for conservative political solutions was primarily the product of the peasantry's hostility toward industrial capitalism and of long term social and political affinities dating from the nineteenth century Moeller's findings show that conservative agrarian ideology was carefully formulated in response to the specific peasant grievances that originated in this period of continuing economic and political crisis Originally published in 1986 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value [The Making of the Slovak People's Party](#) Thomas Lorman, 2019-05-30 Winner of the BASEES George Blazys Prize In 1945 just six years after coming to power the Slovak People's Party SLS was disbanded as a criminal organisation and its leader Jozef Tiso hanged for treason What made it possible for the SLS initially founded in 1905 by priests to represent the Catholic Slovak minority residing in the north of the Kingdom of Hungary to form an openly pro Nazi government in 1939 And what put Slovakia on the path to a fascism that would see more than 45 000 Jews deported to their deaths in 1942 To answer these questions Thomas Lorman draws on more than a decade's research in archives across the region in Hungarian Slovak and Latin and studies the party's formative years in depth for the first time in English Lorman examines the various strands which fused to form the party and its popularity including a complex and nebulous nationalism Catholicism and a resounding mistrust of liberalism and modernity The Making of the Slovak People's Party is a vital and timely study of the genesis and success of far right movements that will be essential reading for all scholars working on 20th century Eastern European history nationalism and the interplay of religion and politics [Imperial Culture in Germany, 1871-1918](#) Matthew Jefferies, 2020-10-01 It has often been suggested that artists and writers in Germany's imperial era shunned social engagement preferring instead apolitical introspection However as Matthew Jefferies reveals whether one looks at the painters poets and architects who helped to create an official imperial identity after 1871 the cultural critics and reformers of the later 19th century or the new generation of cultural producers that emerged in the years around 1900 the social political and cultural were never far apart In this attractively illustrated book Jefferies provides a lively introduction to the principal movements in German high culture between 1871 and 1918 in the context of imperial society and politics He not only demonstrates that Germany's Imperial culture was every bit as fascinating as the much better known Weimar culture of the 1920s but argues that much of what came later has origins in the imperial period Filling a significant gap in the current historiography this study will appeal to all those with an interest in the rich and diverse culture of Imperial Germany [The Origins of Christian Democracy](#) Maria Mitchell, 2012-10-04 A pioneering exploration of the origins of German Christian Democracy in the context of 19th and 20th century politics and religion **Tirpitz** Patrick J. Kelly, 2011-05-03 A first rate biography of this grand admiral who is better

known for his political skills than his naval ones US Naval Institute Proceedings Grand Admiral Alfred von Tirpitz 1849 1930 was the principal force behind the rise of the German Imperial Navy prior to World War I challenging Great Britain's command of the seas As State Secretary of the Imperial Naval Office from 1897 to 1916 Tirpitz wielded great power and influence over the national agenda during that crucial period By the time he had risen to high office Tirpitz was well equipped to use his position as a platform from which to dominate German defense policy Though he was cool to the potential of the U boat he enthusiastically supported a torpedo boat branch of the navy and began an ambitious building program for battleships and battle cruisers Based on exhaustive archival research including new material from family papers Tirpitz and the Imperial German Navy is the first extended study in English of this germinal figure in the growth of the modern navy Well written and based on new sources allows the reader deep insights into the life of a man who played a very important role at the turn of the last century and who like almost nobody else shaped German policy International Journal of Maritime History An invaluable reference work on Tirpitz the Imperial German Navy and on politics in Wilhelmine Germany The Northern Mariner **Society and Politics in Wilhelmine Germany (Routledge Revivals)** Richard J. Evans, 2015-06-03 In the search for the causes of the First World War and the origins of Hitler's Third Reich the attention of historians has turned increasingly towards the development of German society under Kaiser Wilhelm II These ten essays first published in 1978 introduced interpretations of Wilhelmine Germany to an English speaking audience and contributed towards the discussion of these interpretations that were taking place amongst German historians This book is ideal for student of history particularly German history **Neither German nor Pole** James Bjork, 2009-12-21 A unique study of the importance of religious identification in a multi national region **Peasants and Lords in Modern Germany** Robert G. The German Army League Marilyn Shevin Coetzee, 1990-06-28 This book traces the development of the German Army League from its inception through the earliest days of the Weimar Republic Founded in January 1912 the League promoted the intensification of German militarism and the cultivation of German nationalism As the last and second largest of the patriotic societies to emerge after 1890 the League led the campaign for army expansion in 1912 and 1913 and against the growing influence of socialism and pacifism within Germany Attempting to harness popular and nationalist sentiment against the government's foreign and domestic policies by preying on Germans fears of defeat and socialism the League contributed to the polarization of German society and aggravated the international tensions which culminated in the Great War Coetzee combines an analysis of the League's principal personalities and policies with an exploration of the inner workings of local and regional branches arguing that rather than having served solely as a barometer of populist nationalist sentiment the League also reflected the machinations of men of education and prominence who believed that an unresponsive German government had stifled their own careers dealt ineffectually with the prospect of domestic unrest and squandered the nation's military superiority over its European rivals

Proceedings, American Philosophical Society (vol. 121, No. 1, 1977) , *Militarism in a Global Age* Dirk Bönker, 2012-03-15 At the turn of the twentieth century the United States and Germany emerged as the two most rapidly developing industrial nation states of the Atlantic world The elites and intelligentsias of both countries staked out claims to dominance in the twentieth century In *Militarism in a Global Age* Dirk Bonker explores the far reaching ambitions of naval officers before World War I as they advanced navalism a particular brand of modern militarism that stressed the paramount importance of sea power as a historical determinant Aspiring to make their own countries into self reliant world powers in an age of global empire and commerce officers viewed the causes of the industrial nation global influence elite rule and naval power as inseparable Characterized by both transnational exchanges and national competition the new maritime militarism was technocratic in its impulses its makers cast themselves as

members of a professional elite that served the nation with its expert knowledge of maritime and global affairs American and German navalist projects differed less in their principal features than in their eventual trajectories Over time the pursuits of these projects channeled the two naval elites in different directions as they developed contrasting outlooks on their bids for world power and maritime force Combining comparative history with transnational and global history Militarism in a Global Age challenges traditional exceptionalist assumptions about militarism and national identity in Germany and the United States in its exploration of empire and geopolitics warfare and military operational imaginations state formation and national governance and expertise and professionalism
