A Glimpse at the Travelogues of Baghdad Iman Al-Attar,2022-09-19 The history of Baghdad in the 18th and 19th centuries had predominantly been written by two groups The first group is Baghdadi scholars and the second group is travellers These two resources complement each other while the literature of Baghdadi scholars provides insights from inside travelogues provide observations from outside By implementing this interlocking method of investigation we can reach a comprehensive understanding of the history of Baghdad Having investigated some sources from inside in my previous book Baghdad an urban history through the lens of literature the focus of this book is on travel literature The history of travelogues throughout different periods of Baghdad s history is highlighted with a particular focus on 18th and 19th century travelogues This period was a critical epoch of change not just in Baghdad but across the world Nevertheless this book does not intend to provide a documentary of the travellers who visited Baghdad It is rather an analytical study of the colonial literature in relation to the historiography of Baghdad *The Chemical Industry in Europe, 1850-1914* Ernst Homburg,Anthony S. Travis,Harm G. Schröter,1998-10-31 Europe is the cradle of the modern international chemical industry From the middle of the nineteenth century until the outbreak of World War I the European chemical industry influenced not only the production and control of science and technology but also made significant contributions towards economic development as well as bringing about profound changes in working and living environments It is a highly complex heritage both rich and threatening that calls for close scrutiny Fortunately a unique opportunity to explore the historical development of the European chemical industry from a variety of novel standpoints was made possible during 1993 as part of

the European Science Foundation ESF programme called The Evolution of Chemistry in Europe 1789 1939 This process of exploration has taken place through three workshops each dealing with different time periods The workshop concerned with the period 1850 1914 which corresponds roughly to the so called Second Industrial Revolution was held in Maastricht The Netherlands on 23 25 March 1995 This volume is the outcome of that workshop The other workshops dealing with European chemical industry were held in Liege in 1994 covering the First Industrial Revolution period 1789 1850 and Strasbourg in 1996 covering the period between the two World Wars **Jewish Music and Modernity** Philip Bohlman, 2012 Bohlman investigates several aspects of Jewish music within the context of the period beginning with the emancipation of German Jewish culture during the eighteenth century and culminating in the destruction of that same culture under the Nazis

Artists and Society in Germany, 1850-1914 Robin Lenman, 1997 In times past everyday business might mean making a trip to the pawnbroker giving a loan to a trusted friend or selling off a coat all to make ends meet Both women and men engaged in this daily budgeting but women's roles were especially important in achieving some level of comfort and avoiding penury In some communities the daily practices in place in the seventeenth century persisted into the twentieth whilst other groups adopted new ways such as using numbers to chart domestic affairs and turning to the savings banks that appeared in the nineteenth century These strategies promised respectability and greater access to new consumer goods better clothes and finer furnishings accompanied a newly disciplined behaviour Therefore in the material world of the past and in the changing habits of earlier generations lie crucial turning points This book explores these previously under researched patterns and practices that gave shape to modern consumer society ... Policy of the United States Toward Maritime Commerce in War: 1914-1918 United States. Department of State, Carlton Savage, 1936 Hazell's Annual ... a Cyclopædic Record of Men and Topics of the Day ..., 1915 Germany, 1914-1933 Matthew Stibbe, 2013-12-19 Germany 1914 1933 Politics Society and Culture takes a fresh and critical look at a crucial period in German history Rather than starting with the traditional date of 1918 the book begins with the outbreak of the First World War in 1914 and argues that this was a pivotal turning point in shaping the future successes and failures of the Weimar Republic Combining traditional political narrative with new insights provided by social and cultural history the book reconsiders such key questions as How widespread was support for the war in Germany between 1914 and 1918 How was the war viewed both from above by leading generals admirals and statesmen and from below by ordinary soldiers and civilians What were the chief political social economic and cultural consequences of the war In particular did it result in a brutalisation of German society after 1918 How modern were German attitudes towards work family sex and leisure during the 1920s What accounts for the extraordinary richness and experimentalism of this period The book also provides a thorough and comprehensive discussion of the difficulties faced by the Weimar Republic in capturing the hearts and minds of the German people in the 1920s and of the causes of its final demise in the early 1930s **Power and the Pursuit of Peace: Theory and Practice in the History of Relations**

Between States F. H. Hinsley, Francis Harry Hinsley, 1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War

Hazell's Annual Cyclopaedia ,1916 **The Chamber of Commerce Journal** ,1914 Hazell's Annual ,1915 **The British Working Class and Enthusiasm for War, 1914-1916** David Silbey,2004-12-15 This book examines what motivated the ordinary British man to go to France in 1914 especially in the early years when Britain relied on the voluntary system to fill the ranks **The Square Deal** ,1915 **The History of the University of Oxford: Volume VIII: The Twentieth Century** Brian Harrison,Trevor Henry Aston,1994-04-07 This volume the eighth in The History of the University of Oxford shows how one of the world s major universities has responded to the formidable challenges offered by the twentieth century Because Oxford s response has not taken a revolutionary or dramatic form outside observers have not always appreciated the scale of its transformation Here full attention is given to the forces for change the rapid growth in provision for the natural and social sciences the advance of professionalism in scholarship sport and cultural achievement the diffusion of international influences through Rhodes scholars two world wars and the University s mounting research priorities the growing impact of government and of public funding the steady advance of women and the impact made by Oxford s broadened criteria for undergraduate admission The volume also provides valuable background material for the discussion of educational policy In short its presents the reader with a rich cornucopia of insight into many aspects of British life European Powers in the First World War Spencer Tucker,2018-12-07 First published in 1996 The First World War was the single most important event of the twentieth century This volume concentrates on non U S aspects of the conflict Organized alphabetically its more than 600 detailed entries offer information and insight on such subjects as the causes of the conflict major battles and campaigns weapons systems including military aviation chemical warfare the submarine and the tank and the terms of the peace Some 350 biographies provide information on the roles played in the conflict by generals admirals and civilian leaders There are also biographies of individuals who were shaped by the war such as Charles De Gaulle Adolf Hitler Benito Mussolini and Joseph Stalin essays on each of the countries involved in the conflict new appraisals of such subjects as military medicine and artillery tactics and essays on such diverse subjects as art literature and music in
