Ian Kershaw

The German Youth Movement 1900-1945 An Interpretative And Documentary History:

The German Youth Movement, 1900-1945 Peter D. Stachura, 1984 *Nature* Peter Coates, 2013-04-26 Nature is a deceptively simple and ahistorical term suggesting intrinsic unchanging reality Yet nature has a history too both in terms of human attitudes and human impacts Coates outlines the major understandings of nature in the western world since classical times from nature as higher authority to its more recent meaning of threatened physical space and life forms Unlike many others this book places the history of attitudes to nature within the story of human induced changes in the material environment And few others take a supranational perspective or cross the divides between historical eras A distinctive unifying theme is Coates's interest in how green writers over the last thirty years have interpreted our past dealings with nature specifically their efforts to diagnose the roots of contemporary ecological problems and their search for ancestors He concludes with a discussion of the future of nature in the context of developments such as the new ecology global warming advances in genetic engineering and research on animal behaviour Assuming no previous knowledge Nature provides the reader with an accessible synthesis and introduction to some of environmental history's central features and debates confirming its status as one of the most enthralling current pursuits within historical studies This will be essential reading for second year undergraduates and above in cultural history and environmental history as well as to the general reader interested in environmental issues *The Wayward Flock* Mark Edward Ruff, 2005-01-31 In the late nineteenth and early twentieth centuries the western and southern regions of Germany were home to intensely devout Roman Catholic communities By the late 1950s however this Catholic subculture could not withstand the onslaught of a culture of consumption motorcycles Hollywood films and vacations abroad In *The Wayward Flock* Mark Edward Ruff analyzes why the strategy of using modern means to fight modern society which had worked so successfully from the 1870s to the 1920s did not succeed in the postwar era Ruff examines the vast network of Catholic youth organizations in West Germany that had traditionally served as a source for future youth leaders and a means by which the church could resist the changes of modern society But organization membership dwindled from nearly 1.5 million in the 1920s to 600,000 by the early 1960s due in large part Ruff argues to generational differences an emerging ethic of consumption and changes in West Germany's political makeup Ultimately Ruff demonstrates church leaders were unable to provide viable alternatives to the antimodern and antiliberal ideologies of the past *The Coming of the Third Reich* Richard J. Evans, 2005-01-25 The definitive account of Hitler's rise to power and the collapse of civilization in Nazi Germany from the author of *The Third Reich in Power* *The Third Reich at War* and *Hitler's People* The clearest and most gripping account I've read of German life before and during the rise of the Nazis A S Byatt *Times Literary Supplement* Impressive in its command of an immense literature perceptive in analysis fluent in style and humane in judgment this work could only have been produced by a master historian Sir Ian Kershaw Brilliant Richard Cohen *The Washington Post* There is no story in twentieth century history more important to understand

than Hitler's rise to power and the collapse of civilization in Nazi Germany With *The Coming of the Third Reich* Richard J Evans one of the world's most distinguished historians has written the definitive account for our time A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations Evans's history restores drama and contingency to the rise to power of Hitler and the Nazis even as it shows how ready Germany was by the early 1930s for such a takeover to occur *The Coming of the Third Reich* is a masterwork of the historian's art and the book by which all others on the subject will be judged

Hitler's 'National Community' Lisa Pine, 2017-01-12 Lisa Pine's *Hitler's National Community* explores German culture and society during the Nazi era and analyses how this impacted upon the Germany that followed this fateful regime Drawing on a range of significant scholarly works on the subject Pine informs us as to the major historiographical debates surrounding the subject whilst establishing her own original interpretative arc The book is divided into four parts The first section explores the attempts of the Nazi regime to create a *Volksgemeinschaft* national community The second part examines men women the family the churches and religion The third section analyses the fate of those groups that were excluded from the *Volksgemeinschaft* The final section of the book considers the impact of the Nazi government upon German culture in particular focusing on the radio and press cinema and theatre art and architecture music and literature This new edition includes historiographical updates throughout an additional chapter on the early Nazi movement and brand new primary source excerpt boxes and illustrations There is also expanded material on key topics like resistance women and family men and masculinity and religion A crucial text for all students of Nazi Germany this book provides a sophisticated window into the social and cultural aspects of life under Hitler's rule

The Racial State Michael Burleigh, Wolfgang Ippermann, 1991-11-07 This book deals with the ideas and institutions which underpinned the Nazi regime's attempt to restructure a class society along racial lines

Social Mendelism Amir Teicher, 2020-02-13 Will revolutionize reader's understanding of the principles of modern genetics Nazi racial policies and the relationship between them

The Forgotten Kindertransportees Frances Williams, 2014-02-25 *The Forgotten Kindertransportees* offers a compelling new exploration of the Kindertransport episode in Britain The Kindertransport brought close to 10 000 unaccompanied children and young people to Britain on a trans migrant basis between 1938 and 1939 with an estimated 70% of these children being of the Jewish faith The outbreak of the Second World War turned this short term initiative into a longer term episode and Britain became home to the thousands that had been forced to migrate across the continent to flee the Nazis and the tragic Holocaust that would take place This book re-evaluates and challenges misconceptions about the Kindertransportees experiences in Britain misconceptions that currently pervade Kindertransport scholarship It focuses on the particularity of the Scottish experience scrutinising misleading national pictures which have dominated existing literature and excluded this important part of the Kindertransport episode An estimated 8% of Kindertransportees were cared for in Scotland for the duration of the war years and this book demonstrates how national agendas were put into practice in a

region that was far removed from the administrative and bureaucratic hub of London *The Forgotten Kindertransportees* provides original interpretations as it considers a number of important aspects of the Kindertransportees experiences in Scotland including those of a social political and religious nature This includes an examination of Scotland's philanthropic welfare solutions for the dependent trans migrant minor the role of Zionism and the impact of Scottish Jewry's particular approach to Judaism and a Jewish lifestyle upon broader life stories of Kindertransportees Using a vast body of new research material Frances Williams provides a fascinating and detailed examination of the Kindertransport that is region specific and one that is all the more important because of its specificity This is an important text for anyone interested in the Holocaust and the social history of those involved

Republican and Fascist Germany John Hiden, 2020-10-28 This important addition to modern German studies treats the Weimar Republic and the Third Reich as a continuum exploring its themes through the 1920s and 1930s without artificial breaks John Hiden looks at key issues in political social and economic history and in international relations He highlights Germany's potentially constructive role in Europe before Hitler analyses the country's structural problems considers the importance of personalities and personal responsibility in the period and examines the legacy of the Third Reich to postwar Germany Filled with energy and ideas the book has an intellectual substance far beyond its relatively modest length

On My Honour Tammy M. Proctor, 2002 Arising in the first decades of the twentieth century the Boy Scout and Girl Guide movements came into existence in Britain in an era of social and political unrest and were initially the center of intense controversy Through the years Guiding and Scouting broke down class race and gender distinctions and helped youth cope with an emerging mass culture and allowed boys and girls to stretch gender and generational boundaries Using official documents logbooks diaries and oral histories Tammy Proctor explores the formation of the Scouts and Guides and their transformation during and after World War I The interwar period marked a departure for the two organizations as they emerged as large multinational organizations that targeted not only adolescents but also smaller children and young adults

Cytherica Josef Chytrý, 2005 *Cytherica* boldly introduces a new faculty of thought called cytherics to contemporary academic discursivities It defines cytherics as the sighting and siting of an aesthetic erotic or aphrodisian environment Building on the furthest extensions of aesthetics since the eighteenth century cytherics develops both the aesthetic political and aesthetic erotic dimensions of the aesthetic tradition to formulate exciting new responses to the pressing issues of contemporary societies While drawing richly on the background of German and European Hellenism this book provides valuable new insights for those working in the areas of the aesthetic political critical theory postmodernist discursivities and dialectical speculation

Hitler, 1889-1936 Ian Kershaw, 1999 Traces Hitler's rise from a shelter for needy children in Austria to dictatorship over Germany and the beginning of his persecution of the Jews

Three German Women Erika Esau, 2021-05-11 This book presents the life stories of three women of the German speaking realm whose lives inspired the author directly mathematician Maria Weber Steinberg 1919-2013 journalist Irmgard Rexroth

Kern 1907 1983 and Viennese art historian Fr Dr Anna von Spitzm ller 1903 2001 The lives of these three women serve as emotional mirrors to the cultural transformations and tumultuous history of the 20th century Their stories tell of the hardships struggles and victories of intellectual European women in this era Each woman was related to men who played a prominent role in European cultural life men who received some recognition in history books As intellectual professionals these women in contrast received very few public accolades for their important achievements Placing them in the cultural context of the times in Germany and Austria the book highlights the traumatic choices imposed on ordinary people by political and social circumstances over which they had no control Along with the women s individual stories the chapters focus on overarching themes including educated women s roles in European society narratives of perseverance in confronting Nazism and specific historical background describing the incidents affecting their life trajectories *Fascism and the Right in Europe 1919-1945* Martin Blinkhorn,2014-07-22 This new text places interwar European fascism squarely in its historical context and analyses its relationship with other right wing authoritarian movements and regimes Beginning with the ideological roots of fascism in pre 1914 Europe Martin Blinkhorn turns to the problem torn Europe of 1919 to 1939 in order to explain why fascism emerged and why in some settings it flourished while in others it did not In doing so he considers not just the major fascist movements and regimes of Italy and Germany but the entire range of fascist and authoritarian ideas movements and regimes present in the Europe of 1919 1945 **No Hamlets** Andreas Höfele,2016 No Hamlets is the first critical account of the role of Shakespeare in the intellectual tradition of the political right in Germany from the founding of the Empire in 1871 to the Bonn Republic of the Cold War era In this sustained study Andreas H fele begins with Friedrich Nietzsche and follows the rightist engagement with Shakespeare to the poet Stefan George and his circle including Ernst Kantorowicz and the literary efforts of the young Joseph Goebbels during the Weimar Republic continuing with the Shakespeare debate in the Third Reich and its aftermath in the controversy over inner emigration and concluding with Carl Schmitt s Shakespeare writings of the 1950s Central to this enquiry is the identification of Germany and more specifically German intellectuals with Hamlet The special relationship of Germany with Shakespeare found highly personal and at the same time highly political expression in this recurring identification and in its denial But Hamlet is not the only Shakespearean character with strong appeal Carl Schmitt s largely still unpublished diaries of the 1920s reveal an obsessive engagement with Othello which has never before been examined Interest in German philosophy and political thought has increased in recent Shakespeare studies No Hamlets brings historical depth to this international discussion Illuminating the constellations that shaped and were shaped by specific appropriations of Shakespeare H fele shows how individual engagements with Shakespeare and a whole strand of Shakespeare reception were embedded in German history from the 1870s to the 1950s and eventually 1989 the year of German reunification **Nature's Path** Susan E. Cayleff,2016-03-30 An eclectic group of firebrands overcame strong odds to create the naturopathic healing system An

alternative medical system emphasizing prevention through healthy living positive mind body spirit strength and therapeutics to enhance the body's innate healing processes naturopathy has gained legitimacy in recent years In *Nature's Path* the first comprehensive book to examine the complex history and culture of American naturopathy Susan E Cayleff tells the fascinating story of the movement's nineteenth century roots While early naturopaths were sometimes divided by infighting they all believed in the healing properties of water nutrition exercise the sun and clean fresh air Their political activism was vital to their professional formation they loathed the invasive depletive practices of traditional medicine and protested against medical procedures that addressed symptoms rather than disease causes while resisting processed foods pharmaceuticals environmental toxins and atomic energy Cayleff describes the development of naturopathy's philosophies and therapeutics and details the efforts of its proponents to institutionalize the field She recognizes notable naturopathic leaders explores why women doctors organizers teachers and authors played such a strong role in the movement and identifies countercultural views such as antivivisection antivaccination and vegetarianism held by idealistic naturopaths from 1896 to the present *Nature's Path* tracks a radical cultural critique medical system and way of life that links body soul mind and daily purpose It is a must read for historians of medicine and scholars in women's studies and political history as well as for naturopaths and all readers interested in alternative medicine

Democracy and Dictatorship in Europe Sheri Berman, 2019-01-04 *Democracy and Dictatorship in Europe* examines the development of various political regimes in Europe from the ancient time up through the present day It analyzes why democracy flourishes at some times and in some places but not others and draws lessons from European history that can help us better understand the political situation the world finds itself in today

The "Hitler Myth" Ian Kershaw, 2001 Few twentieth century political leaders enjoyed greater popularity among their own people than Hitler in the 1930s and 1940s This remarkable study of the myth that sustained one of the most notorious dictators and delves into Hitler's extraordinarily powerful hold over the German people In this major contribution to the study of the Third Reich *Times Literary Supplement* Ian Kershaw argues that it lay not so much in Hitler's personality or his bizarre Nazi ideology as in the social and political values of the people themselves In charting the creation rise and fall of the Hitler Myth he demonstrates the importance of the manufactured Führer cult to the attainment of Nazi political ends and how the Nazis used the new techniques of propaganda to exploit and build on the beliefs phobias and prejudices of the day

A German Generation Thomas A. Kohut, 2012-01-01 Germans of the generation born just before the outbreak of World War I lived through a tumultuous and dramatic century This book tells the story of their lives and in so doing offers a new history of twentieth century Germany as experienced and made by ordinary human beings On the basis of sixty two oral history interviews this book shows how this generation was shaped psychologically by a series of historically engendered losses over the course of the century In response this generation turned to the collective to repair the losses it had suffered most fatefully to the community of the Volk during the Third Reich a racial collective to which this generation

was passionately committed and which was at the heart of National Socialism and its popular appeal The Renaissance of Jewish Culture in Weimar Germany Michael Brenner, 1998-01-01 Although Jewish participation in German society increased after World War I Jews did not completely assimilate into that society In fact says Michael Brenner in this intriguing book the Jewish population of Weimar Germany became more aware of its Jewishness and created new forms of German Jewish culture in literature music fine arts education and scholarship Brenner presents the first in depth study of this culture drawing a fascinating portrait of people in the midst of redefining themselves The Weimar Jews chose neither a radical break with the past nor a return to the past but instead dressed Jewish traditions in the garb of modern forms of cultural expression Brenner describes for example how modern translations made classic Jewish texts accessible Jewish museums displayed ceremonial artifacts in a secular framework musical arrangements transformed synagogue liturgy for concert audiences and popular novels recalled aspects of the Jewish past Brenner s work while bringing this significant historical period to life illuminates contemporary Jewish issues The preservation and even enhancement of Jewish distinctiveness combined with the seemingly successful participation of Jews in a secular non Jewish society offer fresh insight into modern questions of Jewish existence identity and integration into other cultures

Thank you utterly much for downloading **The German Youth Movement 1900 1945 An Interpretative And Documentary History**. Most likely you have knowledge that, people have look numerous time for their favorite books when this The German Youth Movement 1900 1945 An Interpretative And Documentary History, but end up in harmful downloads.

Rather than enjoying a good PDF considering a cup of coffee in the afternoon, then again they juggled as soon as some harmful virus inside their computer. **The German Youth Movement 1900 1945 An Interpretative And Documentary History** is manageable in our digital library an online entry to it is set as public correspondingly you can download it instantly. Our digital library saves in combination countries, allowing you to acquire the most less latency time to download any of our books taking into consideration this one. Merely said, the The German Youth Movement 1900 1945 An Interpretative And Documentary History is universally compatible in the same way as any devices to read.
