**Intensive Psychotherapy for Persistent Dissociative Processes: The Fear of Feeling Real (Norton Series on Interpersonal Neurobiology)** Richard A. Chefetz,2015-04-06 Winner of the International Society for the Study of Trauma and Dissociation's ISSTD Pierre Janet Writing Award 2015 What really happens in dissociation Dissociative processes have long burdened trauma survivors with the dilemma of longing to feel real at the same time as they desperately want to avoid the pain that comes with that healing a dilemma that often presents particularly acute difficulties for healing professionals Recent clinical and neurobiological research sheds some light into the dark corners of a mind undergoing persistent dissociation but its integration into the practice of talking therapy has never until now been fully realized Intensive Psychotherapy for Persistent Dissociative Processes brings readers into the consultation room and into the minds of both patient and therapist like no other work on

the treatment of trauma and dissociation Richard A Chefetz marries neuroscientific sophistication with a wealth of extended case histories following patients over several years and offering several verbatim session transcripts His unpacking of the emotionally impactful experience of psychodynamic talking therapy is masterfully written clearly accessible and singularly thorough From neurobiological foundations he builds a working understanding of dissociation and its clinical manifestations Drawing on theories of self states and their involvement in dissociative experiences he demonstrates how to identify persistent dissociation and its related psychodynamic processes including repetition compulsion and enactment He then guides readers through the beginning stages of a treatment with particular attention to the psychodynamics of emotion in both patient and therapist The second half of the book immerses readers in emotionally challenging clinical processes offering insight into the neurobiology of fear and depersonalization as well as case examples detailing struggles with histories of incest sexual addiction severe negativity negative therapeutic reactions enactment and object coercive doubting The narrative style of Chefetz s casework is nearly novelistic bringing to life the clinical setting and the struggles in both patient and therapist The only mystery in this clinical exposition as it explores several cases over a number of years is what will happen next In the depth of his examples and in continual self reflexive analysis of flaws in past treatments Chefetz is both a generous guide and an expert storyteller Intensive Psychotherapy for Persistent Dissociative Processes is unique in its ability to place readers in the consultation room of psychodynamic therapy With an evidence focused approach based in neurobiology and a bold clinical scope it will be indispensable to new and experienced therapists alike as they grapple with the most intractable clinical obstacles

*Firewalking and Religious Healing* Loring M. Danforth,2016-09-29 If the Saint calls you if you have an open road then you don t feel the fire as if it were your enemy says one of the participants in the Anastenaria This compelling work evokes and contrasts two forms of firewalking and religious healing first the Anastenaria a northern Greek ritual in which people who are possessed by Saint Constantine dance dramatically over red hot coals and second American firewalking one of the more spectacular activities of New Age psychology Loring Danforth not only analyzes these rituals in light of the most recent work in medical and symbolic anthropology but also describes in detail the lives of individual firewalkers involving the reader personally in their experiences he views ritual therapy as a process of transformation and empowerment through which people are metaphorically moved from a state of illness to a state of health Danforth shows that the Anastenaria and the songs accompanying it allow people to express and resolve conflict laden family relationships that may lead to certain kinds of illnesses He also demonstrates how women use the ritual to gain a sense of power and control over their lives without actually challenging the ideology of male dominance that pervades Greek culture Comparing the Anastenaria with American

firewalking Danforth includes a gripping account of his own participation in a firewalk in rural Maine Finally he examines the place of anthropology in a postmodern world in which the boundaries between cultures are becoming increasingly blurred
