Resina,2017-06-30 A book that offers new directions in the study of memory in Spain written by one of the world s leading scholars of contemporary Spanish culture **CALLING BACK THE GHOST OF REVOLUTION** Rong Jian,2022-11-24 At a time when China is once again facing a major turning point in its direction I firmly believe that my academic dispute with

Wang Hui is in no way a personal or left right dispute Wang Hui's grand narrative about the Chinese revolution and the Chinese century is meant to provide a new legitimate basis for one party to rule forever to place world history in the value system of the Chinese revolution and to shape the Chinese revolution and its regime into the ultimate source and ultimate judge of universal justice in the world There is no doubt that Wang Hui's new theoretical proposition is not only far from the basic idea of liberalism but also far from the political democratic position that the Western left wing tradition has always insisted on Since liberal scholars have automatically given up head on confrontation with Wang Hui it is time to end Wang Hui's theories which have never been subjected to comprehensive and systematic academic criticism in China's intellectual and intellectual spheres for nearly thirty years Therefore at such a time it would be an unforgivable dereliction of duty for liberals to fail to take the initiative as Raymond Aron did to undertake the historical mission of criticizing barbaric ideologies totalitarianism and statism and to hold fast to the basic virtues given to intellectuals by providence As Arendt said the storm of ideas is not characterized by knowledge but by the ability to distinguish good from evil beauty from ugliness And this may indeed prevent disaster in that rare moment of crisis

Memory, Transitional Justice, and Theatre in Postdictatorship Argentina Noe Montez, 2018 In this work examining Argentine theatre over the past four decades and drawing on contemporary research Noe Montez considers how theatre can serve as activism and alter public reception to a government addressing human rights violations by its predecessor

Karl Marx's Theory of Revolution: The "dictatorship of the proletariat" Hal Draper, 1986

The Dictator's Seduction Lauren H. Derby, 2009-07-17 An analysis of the ways that General Rafael Trujillo's dictatorship 1930-1961 pervaded everyday life in the Dominican Republic's capital Santo Domingo

Reframing the Transitional Justice Paradigm Jill Stockwell, 2014-01-29 This volume explores the evolving and complex memorial consequences of state sponsored violence in post dictatorial Argentina Specifically it looks at the power and significance of personal emotions and affects in shaping memorial culture This volume contends that we need to look beyond political and ideological contestations to a deeper level of how memorial cultures are formed and sustained It argues that we cannot account for the politics of memory in modern day Argentina without acknowledging and exploring the role played by individual emotions and affects in generating and shaping collective emotions and affects Drawing from direct testimony from Argentinian women who have experienced political and physical

violence the research in this volume aims at understanding how their memories may be a different source of insight into the deep animosities within and between Argentine memorial cultures In direct contrast to the nominally objective and universalist sensibility that traditionally has driven transitional justice endeavours this volume examines how affective memories of trauma are a potentially disruptive power within the reconciliation paradigm and thus affect should be taken into account when considering transitional justice Accordingly *Cultures of Remembrance for Women in Post Dictatorial Argentina* is an excellent resource for those interested in human rights transitional justice clinical psychology and social work and Latin American conflicts

Ghosts of Archive Verne Harris, 2020-12-21 *Ghosts of Archive* draws on the discourses of deconstruction intersectionality and archetypal psychology to mount an argument that archive is fundamentally and structurally spectral and that the work of archive is justice Drawing on more than 20 years of the author's research on deconstruction and archive the book posits archive as an essential resource for social justice activism and as a source or location of soul for individuals and communities Through explorations of what Jacques Derrida termed hauntology Harris invites a listening to the call for justice in conceptual spaces that are non disciplinary He argues that archive is both constructed in relation to and beset by ghosts ghosts of the living of the dead and of those not yet born and that attention should be paid to them Establishing a unique nexus between a deconstructive intersectionality and traditions of memory for justice in struggles against oppression from South Africa and elsewhere the book makes a case for a deconstructive praxis in today's archive Offering new ideas about spectrality banditry and archival activism *Ghosts of Archive* should appeal to those working in the disciplines of archival science information studies and psychology It should also be essential reading for those with an interest in social justice issues transitional justice history philosophy memory studies and postcolonial studies

Toward a Cultural Archive of la Movida William J. Nichols, H. Rosi Song, 2013-11-26 *Toward a Cultural Archive of la Movida* revisits the cultural and social milieu in which laMovida an explosion of artistic production in the late 1970s and early 1980s was articulated discursively aesthetically socially and politically We connect this experience with a broader national and international context that takes it beyond the city of Madrid and outside the borders of Spain This collection of essays links the political and social undertakings of this cultural period with youth movements in Spain and other international counter cultural or underground movements Moving away from biographical experiences or the identification of further participants and works that belong to laMovida the articles collected in this volume situate this movement within the political and social development of post Franco Spain Finally it also offers a reading of recent politically motivated recoveries of this cultural phenomenon through exhibitions state sponsored documentaries musicals or tourist itineraries The perception of Spain as representative of a successful dual transition from dictatorship to democracy and free market capitalism created a Spanish model that has been emulated in countries like Portugal Argentina Chile and Hungary all formerly ruled by totalitarian regimes While social scientists study the promises contradictions and failures of the Spanish Transición especially

on issues of memory repression and the lack of reconciliation our approach from the humanities offers another vantage point to a wider discussion of an unfinished chapter in recent Spanish history by focusing on la Movida as the cultural archive whose cultural transitions parallel the political and economic ones. The transgressive urban nature of this movement demonstrated an overt desire especially among Spanish youth to reach onto a global arena emulating the punk and new wave aesthetic of such cities as London, New York, Paris, and Berlin. Art, design, film, music, fashion during this period helped to forge a sense of a modern urban identity in Spain that also reflected the tensions between modernity and tradition, global forces and local values, international mass media technology and regional customs.

The Ideal World of Dictatorship Stefan Wolle, 2019

The Dictator Novel Magalí Armillas-Tiseyra, 2019-07-15

Where there are dictators there are novels about dictators. But dictator novels do not simply respond to the reality of dictatorship. As this genre has developed and cohered it has acquired a self-generating force distinct from its historical referents. The dictator novel has become a space in which writers consider the difficulties of national consolidation, explore the role of external and global forces in sustaining dictatorship, and even interrogate the political functions of writing itself. Literary representations of the dictator therefore provide ground for a self-conscious and self-critical theorization of the relationship between writing and politics itself. The Dictator Novel positions novels about dictators as a vital genre in the literatures of the Global South. Primarily identified with Latin America, the dictator novel also has underacknowledged importance in the postcolonial literatures of francophone and anglophone Africa. Although scholars have noted similarities, this book is the first extensive comparative analysis of these traditions; it includes discussions of authors including Gabriel García Márquez, Ngũgĩ wa Thiong'o, Alejo Carpentier, Augusto Roa Bastos, Domingo Faustino Sarmiento, José Martí, Esteban Echeverría, Ousmane Sembène, Chinua Achebe, Aminata Sow Fall, Henri Lopès, Sony Labou Tansi, and Ahmadou Kourouma. This juxtaposition illuminates the internal dynamics of the dictator novel as a literary genre. In so doing, Armillas-Tiseyra puts forward a comparative model relevant to scholars working across the Global South.

National Trauma in Postdictatorship Latin American Literature Irene Wirshing, 2009

National Trauma in Postdictatorship Latin American Literature: Chile and Argentina examines the traumatic experiences of Chile and Argentina under authoritarian regimes and argues that in order for postdictatorship countries to successfully implement transitions to democracy they must confront the past. This book employs the research of psychologists Bessel van der Kolk, Judith Herman, Donald Dutton, Elizabeth Loftus, and Cathy Caruth in order to better understand the emotional and psychological effects of national trauma in the works of Chileans Diamela Eltit and Ariel Dorfman and Argentines Ricardo Piglia and Griselda Gambaro. The themes and characters transcend national boundaries; the abuse, torture, paranoia, anguish, and shame are common to all human beings oppressed by tyranny. The inclusion of theater is necessary in global times for the art of drama has the power to ignite a repressed consciousness to emerge and contribute to progress and change.

National Trauma in Postdictatorship Latin American Literature: Chile and Argentina proceeds with the reality that it is

possible to heal from past trauma and become once again dignified citizens of the world
