through the Periodical Press, 1850-1915 Kristine Moruzi, 2016-05-23 Focusing on six popular British girls periodicals Kristine Moruzi explores the debate about the shifting nature of Victorian girlhood between 1850 and 1915 During an era of significant political social and economic change girls periodicals demonstrate the difficulties of fashioning a coherent consistent model of girlhood The mixed genre format of these magazines Moruzi suggests allowed inconsistencies and tensions between competing feminine ideals to exist within the same publication Adopting a case study approach Moruzi shows that the Monthly Packet the Girl of the Period Miscellany the Girl's Own Paper Atalanta the Young Woman and the Girl's Realm each attempted to define and refine a unique type of girl particularly the religious girl the Girl of the Period the healthy girl the educated girl the marrying girl and the modern girl These periodicals reflected the challenges of embracing the changing conditions of girls' lives while also attempting to maintain traditional feminine ideals of purity and morality By analyzing the competing discourses within girls' periodicals Moruzi's book demonstrates how they were able to frame feminine behaviour in ways that both reinforced and redefined the changing role of girls in nineteenth century society while also allowing girl readers the opportunity to respond to these definitions

Darwin's Racism, Sexism, and Idolization Rui Diogo, 2024-02-27 In this book Diogo a renowned biologist and anthropologist addresses a question that is

critical for the understanding of science beliefs idolization systemic racism and sexism and our societies in general why has Darwin been idolized in such a unique way particularly by Western scholars Diogo shows that many evolutionary facts stated in Darwin's works particularly about human evolution are inaccurate constructions based on Victorian biases and stereotypes non Europeans are inferior women have a lower intelligence than men Victorian society was the pinnacle of evolution and so on Importantly such inaccurate biased statements about our evolution are markedly in contrast with the mostly accurate and often brilliant ideas put forward by Darwin concerning non human organisms Importantly it was precisely the combination of such brilliant ideas the use of simplistic and sometimes exaggerated metaphors that were catchy and easily absorbed by the general public and Darwin's intellectual conservatism and biased ideas about women and non European peoples that led to Darwin's idolization particularly by Western scientists as well as to the darkest societal repercussions of his works By portraying such biased ideas as evolutionary facts Darwin provided easy ammunition for populist political leaders authoritarians colonialists and white supremacists to scientifically defend social hierarchies sexism racism discrimination oppression and segregation A typical argument used to defend Darwin from portraying such erroneous sexist and racist ideas as facts is that back then everybody was racist and sexist Diogo deconstructs this argument by providing enthralling case studies and travel descriptions by authors such as Wallace and Humboldt who often praised the indigenous peoples that repulsed and criticized the social hierarchies and Western imperialism that marveled Darwin The aim of this book is therefore not to cancel Darwin or argue that he was always wrong not at all in general he was an extraordinary biologist but was a much less successful anthropologist due in great part to his Victorian biases Instead the book discusses Darwin's writings ideas and their repercussions in a broader way without taboos omissions idolization or demonization in order to show Darwin and science in general in all their complexity This is because if we fail to acknowledge and emphasize the biases prejudices inaccuracies and abuses of our past and merely continue to blindly idealize it our kids will be condemned to undertake or suffer similar societal abuses in the future **Our Boys** ,1907
