The Glass Bottom Boat Fish Managers At Work:

The Glass Bottom Boat David Gilmour,1987 **CM** ,1987 Fishery Management Plan for Coral Reef Ecosystems of the Western Pacific Region ,2000 **Behind the Smile** George Gmelch,2012-03-21 Behind the Smile is an inside look at the world of Caribbean tourism as seen through the lives of the men and women in the tourist industry in Barbados The workers represent every level of tourism from maid to hotel manager beach gigolo to taxi driver red cap to diving instructor These highly personal accounts offer insight into complex questions surrounding tourism how race shapes interactions between tourists and workers how tourists may become agents of cultural change the meaning of sexual encounters between locals and tourists and the real economic and ecological costs of development through tourism This updated edition updates the text and includes several new narratives and a new chapter about American students experiences during summer field school and home stays in Barbados *The Glass Bottom Hoax: A Madison Night Cozy Mystery* Diane Vallere,2024-09-24 Cruising Caprice Madison Night has a reputation for excellence in mid century modern decorating but when a covert opportunity to expose a crime ring on a cruise ship comes her way she goes undercover The job will test her acting skills as much as her investigative prowess she s booked as a Doris Day impersonator and police captain Tex Allen is posing as her manager husband But roleplay and reality blur when the body of the entertainment director is found on the lido deck sometime between shuffleboard and sunset The purser was Madison s lone contact on the cruise ship which leaves her adrift Catching crooked employees is one thing but exposing a murderer in the middle of the ocean is another It s bad enough that she s expected to sing for her supper her convenient cover story puts her in the center of danger With a very fake husband and a very real crisis Madison has to dive deep for answers before the tides turn against her Can Madison keep her head above water or will this case send her overboard THE GLASS BOTTOM HOAX is the twelfth mystery in the Madison Night series If you like Doris Day movies resourceful sleuths or edgy cozies you ll love Diane Vallere s fun escapist mystery Florida Keys National Marine Sanctuary: Development of the management plan : environmental impact statement ,1996 *Coral Reefs of the Indian Ocean* T. R. McClanahan,C. R. C. Sheppard,D. O. Obura,2000-10-12 Coral reefs are among Earth s most diverse productive and beautiful ecosystems but until recently their ecology and the means to manage them have been poorly understood and documented In response to the inadequate information base for coral reefs this book reviews the ecological and conservation status of coral reefs of the Western Indian Ocean bringing together presentations of the region s leading scientists and managers working on coral reefs Coral Reefs of the Indian Ocean Their Ecology and Conservation starts with a general overview of the biogeography of the region and a historical account of attempts to conserve this ecosystem It goes on to describe the state of the reefs in each of the countries with coral reefs and it concludes with a series of management case studies The book also summarizes most of the existing ecological information on reefs in this region and efforts at management making it useful for students teachers and investigators interested in tropical or marine ecology conservation

Swim Pretty Jennifer A. Kokai,2017-06-28 Drawing on cultural associations with bodies of water the spectacle of pretty women and the appeal of the concept of family friendly productions performative aquatic spectacles portray water as an exotic fantasy environment exploitable for the purpose of entertainment In Swim Pretty Jennifer A Kokai reveals the influential role of aquatic spectacles in shaping cultural perceptions of aquatic ecosystems in the United States over the past century Examining dramatic works in water and performances at four water parks Kokai shows that the evolution of these works and performances helps us better understand our ever changing relationship with the oceans and their inhabitants Kokai sorts the regard for and harnessing of water in aquatic spectacles into three categories natural tamed and domesticated and discusses the ways in which these modes of water are engaged in the performances through an aesthetics of descension Ultimately this study links the uncritical love of aquatic spectacles to a disregard for the rights of marine animals and lack of concern for the marine environment
