Bridging Deep South Rivers John S. Lupold, Thomas L. French Jr., 2019-03 Horace King 1807 1885 built covered bridges over every large river in Georgia Alabama and eastern Mississippi That King who began life as a slave in Cheraw South Carolina received no formal training makes his story all the more remarkable This is the first major biography of the gifted architect and engineer who used his skills to transcend the limits of slavery and segregation and become a successful entrepreneur and builder John S Lupold and Thomas L French Jr add considerably to our knowledge of a man whose accomplishments demand wider recognition As a slave and then as a freedman King built bridges courthouses warehouses factories and houses in the three state area The authors separate legend from facts as they carefully document King's life in the Chattahoochee Valley on the Georgia Alabama border We learn about King's freedom from slavery in 1846 his reluctant support of the Confederacy and his two terms in Alabama's Reconstruction legislature In addition the biography reveals King's relationship with his fellow white contractors and investors especially John Godwin his master and business partner and

Robert Jemison Jr the Alabama entrepreneur and legislator who helped secure King s freedom The story does not end with Horace however because he passed his skills on to his three sons who also became prominent builders and businessmen In King s world few other blacks had his opportunities to excel King seized on his chances and became the most celebrated bridge builder in the Deep South The reader comes away from King s story with respect for the man insight into the problems of financing building and maintaining covered bridges and a new sense of how essential bridges were to the southern market economy

Alan Brookes, 1998 First published in 1998 Routledge is an imprint of Taylor Francis an information company The Gift of Adversity Norman E Rosenthal MD, 2014-09-04 Now in paperback this acclaimed book from Norman Rosenthal the New York Times bestselling author and research psychiatrist shows how life's disappointments and difficulties provide us with the lessons we need to become happier and more resilient human beings Winner of the 2014 Nautilus Award represents Better Books for a Better World the Silver Award in the category of Heroic Journeys Adversity is an irreducible fact of life Although we can and should learn from all experiences both positive and negative bestselling author Dr Norman E Rosenthal believes that adversity is by far the best teacher most of us will ever encounter Whether the adversity one experiences is the result of poor decision making a desire to test one's mettle or plain bad luck Rosenthal believes life's most important lessons from the value of family to the importance of occasionally cutting corners can be best learned from it Running counter to society's current prevailing message that excellence must always be aspired to and failure or mistakes of any sort are to be avoided at all costs Rosenthal shows that engaging with our own failures and defeats is one of the only ways we are able to live authentic and meaningful lives and that each different type of adversity carries its own challenges and has the potential to yield its own form of wisdom Using stories from his own life including his childhood in apartheid era South Africa his years after suffering a violent attack from a stranger and his career as a psychiatrist as well as case studies and discussions with well known figures like Viktor Frankl and David Lynch Rosenthal shows that true innovation emotional resilience wisdom and dignity can only come from confronting and understanding the adversity we have experienced Even when life is hardest there

are meanings to be found riches to be harvested and gifts that can last a lifetime Rosenthal illustrates his message through a series of compact memorable chapters each one drawn from episodes in the lives of his patients colleagues or himself and concluded with a take away maxim on the lesson learned Current Affairs Year Book 2025 for UPSC State PSC Exams MYUPSC, Current Affairs Year Book 2025 for UPSC State PSC Civil Services and other exams preparation Utopophobia David Estlund,2022-05-31 A leading political theorist s groundbreaking defense of ideal conceptions of justice in political philosophy Throughout the history of political philosophy and politics there has been continual debate about the roles of idealism versus realism For contemporary political philosophy this debate manifests in notions of ideal theory versus nonideal theory Nonideal thinkers shift their focus from theorizing about full social justice asking instead which feasible institutional and political changes would make a society more just Ideal thinkers on the other hand question whether full justice is a standard that any society is likely ever to satisfy And if social justice is unrealistic are attempts to understand it without value or importance and merely utopian Utopophobia argues against thinking that justice must be realistic or that understanding justice is only valuable if it can be realized David Estlund does not offer a particular theory of justice nor does he assert that justice is indeed unrealizable only that it could be and this possibility upsets common ways of proceeding in political thought Estlund engages critically with important strands in traditional and contemporary political philosophy that assume a sound theory of justice has the overriding defining task of contributing practical guidance toward greater social justice Along the way he counters several tempting perspectives including the view that inquiry in political philosophy could have significant value only as a guide to practical political action and that understanding true justice would necessarily have practical value at least as an ideal arrangement to be approximated Demonstrating that unrealistic standards of justice can be both sound and valuable to understand Utopophobia stands as a trenchant defense of ideal theory in political philosophy
