The Global City:

The Global City Saskia Sassen, 2025-09-09 In her classic book *The Global City* Saskia Sassen tells how New York London and Tokyo became command centers of the emerging global economy and in the process underwent massive and parallel changes The book reorients the way we think about how cities shape and are shaped by globalization and provides lessons for the future

Everyday Lives in the Global City Jörg Dürrschmidt, 2013-04-15 Rejecting simplifying notions of globalisation as a macro economic force this book provides a grounded picture of the various ways in which people s biographies are tied up with the global cultural economy The main argument of the book is that the globalisation of lives is experienced by people as the extension of their milieux both spatially and symbolically

The Global City 2.0 Kristin Ljungkvist, 2015-08-27 Global cities all over the world are taking on new roles as they increasingly participate directly and independently in international affairs and global politics So far surprisingly few studies have analyzed the role of the Global City beyond its already well explicated role in the globalized economy How is it that local governments of Global Cities claim international political authority and develop what appears to be their own independent foreign and security policies despite the fact that such policy areas have traditionally been considered to be the core function of nation states and central governments What does it mean to be and to govern the contemporary Global City In this book Kristin Ljungkvist claims that we can better understand why local governments find it to be in their Global City s interest to claim international political authority by exploring how the city s role in the globalized world is constructed and narrated locally A core claim is that Global City hood as a specific type of collective identity can play a constitutive part in such interest formation Combining insights from International Relations and Urban Studies scholarship and with the help of a case study on New York City Ljungkvist develops a new analytical framework for studying the Global City as an international political actor The Global City 2 0 shows that even as the Global City engages in various global issues such as global environmental governance or counterterrorism such pursuit will be framed and rationalized in terms of the city s economic growth The quest for growth and global competitiveness are not necessarily the only available meanings attached to the being and governing of the contemporary Global City However there seems to be a remarkable persistency and attraction in economic ideas and an economic conception of the Global City

The Global City and the Holy City Tovi Fenster, 2016-09-17 The Global City the Holy City explores the local embodied knowledge of women and men of different national cultural and ethnic identities and age groups living in London and Jerusalem Their narratives focus on the three main concepts of Comfort Belonging and Commitment to the various spaces in which they live By deconstructing the meanings of these three notions and analyzing their expression in cognitive temporal maps The Global City The Holy City examines the practicalities of incorporating this kind of local embodied knowledge into the professional planning and management of cities in the age of globalization

The Global City Theodore Hermann Von Laue, 1969

Urban World/global City David Clark, 2003 The millennium marked a

symbolic transition in the history of human settlement Over half of the world's six billion people now live in towns and cities The world is an urban place This book identifies and accounts for the characteristics of the contemporary city and of urban society It analyses the distribution and growth of settlements and explores the social and behavioural characteristics of urban living The latest theoretical and empirical developments and insights are synthesized and presented in an accessible way Emphasis throughout is placed upon the world scale urban developments being seen as the geographical consequences of the evolution of capitalism Individual chapters focus upon populations and places growth and urbanization urban development as a global phenomenon socio economic consequences of global urban development urban culture and global urban society world cities and the urban future This second edition has been extensively updated and referenced Each chapter includes sets of learning objectives annotated readings and topics for discussion

Democracy, Citizenship and the Global City

Engin F. Isin, 2013-04-15 Democracy Citizenship and the Global City focuses on the controversial neglected theme of citizenship It examines the changing role of citizens their rights obligations and responsibilities as members of nation states and the issue of accountability in a global society Using this interdisciplinary approach the book offers an innovative collection of work from Robert A Beauregard Anna Bounds Janine Brodie Richard Dagger Gerard Delanty Judith A Garber Robert J Holton Warren Magnusson Raymond Rocco Nikolas Rose Evelyn S Ruppert Saskia Sassen Bryan S Turner John Urry Gerda R Wekerle and Nira Yuval Davis

How to Build a Global City

Michele Acuto, 2022-01-15 In How to Build a Global City Michele Acuto considers the rise of a new generation of so called global cities Singapore Sydney and Dubai and the power that this concept had in their ascent in order to analyze the general relationship between global city theory and its urban public policy practice The global city is often invoked in theory and practice as an ideal model of development and a logic of internationalization for cities the world over But the global city also creates deep social polarization and challenges how much local planning can achieve in a world economy Presenting a unique elite ethnography in Singapore Sydney and Dubai Acuto discusses the global urban discourses aspirations and strategies vital to the planning and management of such metropolitan growth The global city he shows is not one single idea but a complex of ways to imagine a place to be global and aspirations to make it so often deeply steeped in politics His resulting book is a call to reconcile proponents and critics of the global city toward a more explicit engagement with the politics of this global urban imagination

The Making of

Global City Regions Klaus Segbers, Simon Raiser, Krister Volkmann, 2007 Publisher description

Sustainability in the

Global City Cindy Isenhour, Gary McDonogh, Melissa Checker, 2015-03-05 Cities play a pivotal but paradoxical role in the future of our planet As world leaders and citizens grapple with the consequences of growth pollution climate change and waste urban sustainability has become a ubiquitous catchphrase and a beacon of hope Yet we know little about how the concept is implemented in daily life particularly with regard to questions of social justice and equity This volume provides a unique and vital contribution to ongoing conversations about urban sustainability by looking beyond the promises propaganda and policies associated with the concept in order to explore both its mythic meanings and the practical implications in a variety of everyday contexts The authors present ethnographic studies from cities in eleven countries and six continents Each chapter highlights the universalized assumptions underlying interpretations of sustainability while elucidating the diverse and contradictory ways in which people understand incorporate advocate for and reject sustainability in the course of their daily lives

Global City 2. 0 Kristin Ljungkvist, 2014-11-25 The aim of this thesis is to increase our understanding of the Global City s pursuit of what can be regarded as independent foreign and security policies despite the fact that such policies have traditionally been considered to be a core function of central governments By studying how the Global City s role in the globalized world is constructed in local public narratives as the local government develops and pursues specific international policies the thesis argues we can come closer to an understanding of what it means to be and to govern a Global City and why its local government find it to be in the city s interest to claim international political authority A core claim is that Global City hood as a specific type of collective identity can play a constitutive part in such interest formation The study seeks to make three contributions one of empirical nature and two of theoretical nature The empirical contribution involves furthering our understanding of New York City s local role conception as a Global City This is also closely related to the first theoretical contribution whereby the case study of New York City as a most important case serves to develop our general understanding of what meanings are attached to contemporary Global City hood from a local perspective The second theoretical contribution involves outlining a new way of studying the Global City as international political actor by developing an interdisciplinary analytical framework combining insights from the Global Cities literature studies on Urban Politics and International Relations respectively The analysis shows that even as the Global City engages in issues such as global environmental governance or counterterrorism such pursuit will be framed and rationalized in terms of the city s economic growth The quest for growth and global competitiveness are not necessarily the only available meanings attached to the being and governing of the contemporary Global City However there seems to be a remarkable persistency and attraction in economic ideas and an economic conception of the Global City

What makes a city "global"? Zubeda Issa Mohammed, 2014-09-12 Essay from the year 2012 in the subject Sociology Habitation and Urban Sociology grade B Monash University South Africa Campus course International Studies language English abstract Nowadays globalization occurs in places where a mass of people work and live in cities However for a city to achieve the title of being global it must

have values and ideas that will have an impact of the rest of the world Global city is a term that raises an understanding for the cognoscenti Low 2005 p218 Low 2005 further says that a global city is a city that is well thought out to be an important node in the world s economic system A global city has wealth power and influence to other countries as well as hosts the largest capital markets Moreover a city that has wealthy multinational companies good infrastructure better economy well educated and diverse populations and powerful organizations as well as a good political structure that are linked to the other parts of the world like nowhere else is considered to be global Badcock 2002 p31 A global city therefore is the world s most important and influential city that covers the dimensions of the globalization These dimensions are cultural experience business activity human capital as well as political engagement London New York Paris Rome and Tokyo are one of the most well known global cities as it provides global competitiveness for its citizens and companies Study On Globalizing Cities, A: Theoretical Frameworks And China's Modes Zhenhua Zhou,2014-01-24 A Study on Globalizing Cities is the latest masterpiece by Zhou Zhenhua a famous Chinese economist who closely tracks the theoretical study of global cities and is actively engaged in the strategic research of Shanghai s development With rich empirical data and an in depth analysis this book is of great theoretical and practical significance Different from studies on global cities by renowned western scholars this book extends its perspective to globalizing cities It explores a unique development model for China s globalizing cities by adopting a creative angle of observation and analytical methods By criticizing that the traditional global city theory derives the logic relations of global cities directly from globalization Mr Zhou puts forward the concept of globalization city which is introduced as a new intermediate explanatory variable More importantly this book emphasizes that the building of global cities is not only dependent on the distribution of urban space and urban economic development but also on comprehensive construction of multiple structures and functions of cities A Research Agenda for Cities John Rennie Short,2017-03-31 Elgar Research Agendas outline the future of research in a given area Leading scholars are given the space to explore their subject in provocative ways and map out the potential directions of travel They are relevant but also visionary This book provides a critical assessment of key areas of urban scholarship In twelve stimulating chapters expert contributors examine a range of important pressing topics from sustainability and gentrification to feminist interventions and globalization to security and food issues Six more regionally informed expert reviews examine recent urban research in sub Saharan Africa South America East Asia the Middle East Australia and Eastern Europe The chapters provide polemical assessments and signposts for future research The book will be an indispensable and accessible guide to urban research across the globe

Spatial Turns Jaimey Fisher,Barbara Caroline Mennel,2010 The phrase spatial turns signals the growing importance of space as an analytical as well as representational category for culture The volume addresses such emerging modes of inquiry by bringing together for the first time essays that engage with spatial turns spatiality and the theoretical implications of both in the context of German culture history and theory Migrating from fields like geography urban studies and architecture the

new centrality of space has transformed social science fields as diverse as sociology philosophy and psychology In cultural studies productive analyses of space increasingly cut across the studies of literature film popular culture and the visual arts Spatial Turns brings together essays that apply a spatial analysis to German literature and other media and engages with specifically German theorizations of space by such figures as Siegfried Kracauer and Walter Benjamin The volume is organized in four sections Mapping Spaces addresses cartography in all forms and in its intersection with culture Spaces of the Urban takes up one of the key sites of spatial studies the city Spaces of Encounter considers how Germany has become a contact zone for multiple ethnicities and Visualized Spaces concerns the theorization of space in film and new media studies

The Imperatives of Urban and Regional Planning Anis Ur Rahmaan, 2011 This book is comprised of articles and papers that have come about after years of academic and applied research endeavors of the practitioners and academicians in the field of urban and regional development planning Most of these articles have already been presented and deliberated in national and international conferences held in different parts of the world namely Indianapolis Newcastle upon Tyne Rome Istanbul Cairo Alexandria Vienna Stockholm Jeddah Riyadh Jubail Islamabad Penang and Bandung The concepts and case studies described in this book bring home the fact that the world is undergoing a gyrational transition Not only are developed and developing countries getting influenced by each other and transforming due to a process of circular causation but each of the two sets of countries are also undergoing a simultaneous internal transformation due to the differential infusion of technology and indigenous entrepreneurship As a consequence highly diversified urban systems are getting integrated interactively leading to the formation of a global village and achievement of a unity in diversity Cities of Others Xiaojing Zhou, 2014-12-01 Asian American literature abounds with complex depictions of American cities as spaces that reinforce racial segregation and prevent interactions across boundaries of race culture class and gender However in Cities of Others Xiaojing Zhou uncovers a much different narrative providing the most comprehensive examination to date of how Asian American writers both celebrated and overlooked depict urban settings Zhou goes beyond examining popular portrayals of Chinatowns by paying equal attention to life in other parts of the city Her innovative and wide ranging approach sheds new light on the works of Chinese Filipino Indian Japanese Korean and Vietnamese American writers who bear witness to a variety of urban experiences and reimagine the American city as other than a segregated nation space Drawing on critical theories on space from urban geography ecocriticism and postcolonial studies Zhou shows how spatial organization shapes identity in the works of Sui Sin Far Bienvenido Santos Meena Alexander Frank Chin Chang rae Lee Karen Tei Yamashita and others She also shows how the everyday practices of Asian American communities challenge racial segregation reshape urban spaces and redefine the identity of the American city From a reimagining of the nineteenth century flaneur figure in an Asian American context to providing a framework that allows readers to see ethnic enclaves and American cities as mutually constitutive and transformative Zhou gives us a provocative new way to understand some of the most important works of

Asian American literature *The Companion to Development Studies* Vandana Desai, Rob Potter, 2014-03-21

The Companion to Development Studies contains over a hundred chapters written by leading international experts within the field to provide a concise and authoritative overview of the key theoretical and practical issues dominating contemporary development studies. Covering a wide range of disciplines, the book is divided into ten sections, each prefaced by a section introduction written by the editors. The sections cover the nature of development theories and strategies of development, globalization and development, rural development, urbanization and development, environment and development, gender, health and education, the political economy of violence and insecurity and governance and development. This third edition has been extensively updated and contains 45 new contributions from leading authorities dealing with pressing contemporary issues such as race and development, ethics and development, BRICs and development, global financial crisis, the knowledge based economy and digital divide, food security, GM crops, comparative urbanism, cities and crime, energy, water, hydropolitics, climate change, disability, fragile states, global war on terror, ethnic conflict, legal rights to development, ecosystems, services for development, just to name a few. Existing chapters have been thoroughly revised to include cutting edge developments and to present updated further reading and websites. The Companion to Development Studies presents concise overviews providing a gateway to further reading and a flexible resource for teaching and learning. It has established a role as essential reading for all students of development studies as well as those in cognate areas of geography, international relations, politics, sociology, anthropology and economics.
