The God Of Space And Time:

The God of Space and Time Bernard J. Cooke,1969 **Plato's Battle between the Gods and the Giants and Its Continuing Relevance in the Speculative Philosophy of History** Ben Mijuskovic,2024-12-16 This book discusses two general theories of human consciousness The methodology interdisciplinary and history of ideas oriented concentrates on two opposing theories one humanistic and the other scientific Leibniz s optimistic claim in the seventeenth century that this world was the best of all possible worlds is posed against nineteenth century Schopenhauer who argued pessimistically that it was the worst and that it was best not to survive Against this background the book compares the current danger of a civil war in the United States of America as patterned along the same lines that engulfed the former Yugoslavia thus demonstrating the insidious roots of that evil and its destructive engulfment and power Ultimately it questions whether these same dynamic forces are leading today s world to annihilation as countries threaten each other with nuclear arms and the age of pessimism has become entrenched *Sexual Subversions* Elizabeth Grosz,2020-09-02 *Sexual Subversions* introduces the works of three well known if not well read French feminists Julia Kristeva Luce Irigaray and Micele Le Doeuff It provides a map of an area where there are few detailed discussion of the achievements of these difficult yet immensely rewarding writers In doing so this overview raises issues of general relevance to feminist research it participates in debates around the nature of feminist theory the relations feminist intellectuals have to male dominated knowledges and the strategies appropriate for developing non patriarchal autonomous or woman centred knowledges No book in French feminists would be complete without including the contributions of Kristeva and Irigaray The inclusion of Le Deouff s work which brings a different perspective to bear on the question of sexual difference provides a counterbalance to literary appropriations of French feminism by Anglo American readerships Kristeva Irigaray and Le Deouff are the focal points of this study precisely because each highlights the differences of the others revealing the frameworks to which the others are committed Nevertheless while these writers do not present a common political or theoretical position or form a school each addresses the question of women s autonomy from male definition affirms the sexual specificity of women seeks out a femininity women can use to question the patriarchal norms and ideals of femininity and rejects the preordained positions patriarchy allots to women Western Book of the Dead Alfred Schmielewski,Yogi A. S. Narayana, There are no beings there are only divine thoughts that appear as beings Shapes constantly transform manifest and dissolve while essential being is forever Essential Being is the One Being the that permeates the Cosmos No being was ever created by anyone for being is forever in the past present and future Being is One The Ocean of being permeates all beings Brahma the Creator is not needed in an eternal cosmos Vishnu the Preserver is not needed in an ever transforming cosmos Shiva the Destroyer is not possible in an eternal cosmos for all things transform into other things Although shapes appear and dissolve forever being never dies nor is being destroyed *Thomas F. Torrance's Theology of the Ascension* Stavan Narendra John,2025-05-29 The ascension is a crucial

doctrine integrally related to the incarnation When it is underemphasized it results in an impoverishment of our theology of Christ the church human beings and eschatology T F Torrance s theology offers a compelling vision and holistic doctrine of the ascension that notwithstanding its flaws deserves a careful and detailed examination Torrance develops a holistic account of the ascension by considering the ontology spatiality and present ministry of the ascended Jesus What results is a theological construction that affirms the ascended body of Christ and understands the Lord to be currently serving as our human representative in a ministry of priestly intercession prophetic declaration and ascended kingship Torrance is able to do this without succumbing to literalism space travel demythologization metaphorical reading or Pelagianism human effort based sanctification and glorification This book interprets and then develops Torrance s theology of the ascension in critical dialogue with contemporary theological interlocutors

Enchanted by Eternity William J. Slattery, 2025-01-20 Whether we realize it or not Catholics have been deeply influenced by modernity s failed worldview While we want to live and share our faith with joy we struggle to do so because we unwittingly see the cosmos the human person and society as machines functioning independently of their Creator and of one another If we want to bring the life transforming effects of our faith into the world we must first find and live real Catholicism breaking free of the gravitational pull of modernity s worldview A worldview is the stable all encompassing way in which each of us looks at reality the pair of glasses through which we see the world around us It makes up the grid of givens assumptions and presuppositions through which we view the world It colors what we mean by God universe and human Everyone has a worldview and recognizing our worldview and the worldviews of others is crucial in our search for truth goodness and beauty In *Enchanted by Eternity* Fr William Slattery shows how Catholicism proposes an enchanted and enchanting view of self nature society and the future of each human person created to live in a resurrected body in the new heavens and the new earth As this book reveals rediscovering a truly Catholic worldview will change the way we live and it might even change the world

Embodied Liturgy C. Andrew Doyle, 2021-05-18 Can the reality of the Eucharist be maintained online Author C Andrew Doyle in a well researched and thoughtful study of both virtual reality and liturgy argues that the Eucharist is not a formulaic rehearsal of words and rituals but an embodied and lived experience This requires a shared place and presence While the church should not shy away from virtual ministry we should be wary of using the technological realm for the celebration of the Eucharist an act that is an outward and visible sign of our spiritual union with God and one another It brings us closer to friend and stranger for the transformation of individuals into unity in Christ The context of the ritual with people objects words and all sorts of nuance creates intimacy with God and each other This unique book is especially timely and will be of interest to scholars liturgists and those interested in sacramental theology in the digital age

Roman Imagination is a unique exploration of the relationship between the ancient Romans visual and literary cultures and their imagination Drawing on a vast range of ancient sources from all levels of Roman society it analyses how the Romans used conceptualized viewed and moved around their city The Mystery of the Universe: Our Common Faith Joseph William Reynolds,1884

The Search for the Sacred: Is Holiness a State of Space, Time or Mind? Rabbi David Paskin,2016-07-28 Rabbi David Paskin s The Search for the Sacred is an articulate amplification of the Torah s command to be holy to fully BE How urgently needed this message in today s increasingly fragile world How blessed we are to be granted access to this curated collection of wisdom from one of our great teachers Menachem Creditor Rabbi Congregation Netivot Shalom Berkeley CA Founder Rabbis Against Gun Violence The search for the sacred has taken people of faith and those still navigating the waters of belief far and wide We have built majestic cathedrals and meditated quietly as we ve walked on the sea shores We have found quiet moments in the hustle and bustle of our busy days and religiously attended communal prayer gatherings In The Search for the Sacred David explores the history of this search and how we can continue to find holiness in our lives today Sharing in God's Presence Roy D. Kindelberger,2018-10-05 Sharing in God s Presence means far more than getting saved and experiencing God s blessing in our lives As believers his presence becomes a very personal part of who we are and what we do God actually shares himself with us The language that we use often fails to capture the depths of God s nature penetrating ours the fullness of his Spirit permeating our hearts and the innermost infusion of his presence in our lives But the truth couldn t be more intimate The person who is joined to the Lord is one spirit with him 1 Corinthians 6 17 This book is an invitation to share in God s presence by allowing God to share himself with you God wants everyone to share in his embrace As we accept our responsibility for prayer ministry and even revival we share in the very precious dynamic of give and response that s involved in an intimate walk with Jesus Christ For a general readership this book is a reworking of material from the second half of the author s academic work God s Absence and the Charismatic Presence

Relationship Is the Transformative Space Darryl Wooldridge,2016-02-09 This book affirms relationship as the shared human elemental pursuit and proposes relationship as the transformative space Wonderfully the author asserts it is God s intention to fulfill this intrinsic human desire in the present in all of us and universally This desire is an often inarticulate innate desire and pursuit to enjoy and reflect the divine image in which every human being was created In this book this pursuit is referred to as proleptic spiritual transformation Pr ST That is this book demonstrates that what is too often relegated to eternity is available now Relationship is the Transformative Space considers God s heart in relationship and its implication toward human spirituality and how this intent has been interrupted and restored God is actively interested in the recovery of a fully expressed image in humanity **Space, Time and Language in Plutarch** Aristoula

Georgiadou,Katerina Oikonomopoulou,2017-10-10 Space and time have been key concepts of investigation in the humanities in recent years In the field of Classics in particular they have led to the fresh appraisal of genres such as epic historiography

the novel and biography by enabling a close focus on how ancient texts invest their representations of space and time with a variety of symbolic and cultural meanings This collection of essays by a team of international scholars seeks to make a contribution to this rich interdisciplinary field by exploring how space and time are perceived linguistically codified and portrayed in the biographical and philosophical work of Plutarch of Chaeronea 1st 2nd centuries CE The volume s aim is to show how philological approaches in conjunction with socio cultural readings can shed light on Plutarch s spatial terminology and clarify his conceptions of time especially in terms of the ways in which he situates himself in his era s fascination with the past The volume s intended readership includes Classicists intellectual and cultural historians and scholars whose field of expertise embraces theoretical study of space and time along with the linguistic strategies used to portray them in literary or historical texts

Sarg,2005 *The World of Art* Robert Payne,2014-10-23 Very few books try to capture a subject as vast as the world of art and even fewer succeed But Robert Payne has succeeded and in this book he portrays in vivid fresh nontechnical language the entire history and achievement of the world s artists from the original caveman painters who decorated their homes with animal paintings to contemporary artists who fill their canvases with often bewildering abstract forms Payne approaches each artistic period and each great artist with sympathetic understanding and an appreciation of the values and aesthetic ideals of the time Through carefully chosen illustrations woven into his text moreover he shows exactly what makes a work of art great WORLD OF ART casts its view over all the types of art not only the Western tradition but the contributions of Egypt Persia India China Japan and other important cultures as well Yet the book is more than a mere survey for Robert Payne s special brilliance lies in showing the common spirit and aspiration that have united all the world s great artists The main value of this book is spontaneity There is nothing pedantic about it Although it ranges all over the world art from its earliest beginnings to the present the author keeps the flow of his account moving at a rapid pace Its importance is to offer a fast paced critical reassessment of the history of art in terms of today s outlook Mr Payne relies chiefly on a beautiful use of language which enables him to telescope the essence of a culture or period into a few well turned paragraphs He gives the reader a dynamic reevaluation based on critical judgments and first hand observations rather than a rehash of conventional academic views Rather than the pedantic accuracy of an encyclopedia approach Mr Payne s book possesses the rare quality of persuasiveness and enthusiasm and it will send the reader off to go and look Henry A La Farge Senior Editor Art News

Concepts of Space, Ancient and Modern Kapila Vatsyayan,1991 *God's Church-Community* David Emerton,2020-07-09 David Emerton argues that Dietrich Bonhoeffer s ecclesial thought breaks open a necessary third way in ecclesiological description between the Scylla of ethnographic ecclesiology and the Charybdis of dogmatic ecclesiology Building on a rigorous and provocative discussion of Bonhoeffer s thought Emerton establishes a programmatic theological grammar for any speech about the church Emerton argues that Bonhoeffer understands the church as a pneumatological and

eschatological community in space and time and that his understanding is built on eschatological and pneumatological foundations. These foundations in turn give rise to a unique methodological approach to ecclesiological description, an approach that enables Bonhoeffer to proffer a genuinely theological account of the church in which both divine and human agency are held together through an account of God the Holy Spirit. Emerton proposes that this approach is the perfect remedy for an endemic problem in contemporary accounts of the church: that of attending either to the human empirical church community ethnographically or to the life of God dogmatically and to each problematically at the expense of the other. This book will act as a clarion call towards genuinely theological ecclesiological speech which is allied to real ecclesial action.
