The God Society:

Demystifying the gods, goddesses, and mythology of Ancient Chinese society. Henry Romano, 2021-03-13 We have in China the universal worship of ancestors which constitutes or did until A D 1912 the State religion usually known as Confucianism and in addition we have the gods of the specific religions which also originally took their rise in ancestor worship namely Buddhism and Taoism Other religions though tolerated are not recognized as Chinese religions It is with a brief account of this great hierarchy and its mythology that we will now concern ourselves Besides the ordinary ancestor worship as distinct from the State worship the people took to Buddhism and Taoism which became the popular religions and the literati also honoured the gods of these two sects Buddhist deities gradually became installed in Taoist temples and the Taoist immortals were given seats beside the Buddhas in their sanctuaries Every one patronized the god who seemed to him the most popular and the most lucrative There even came to be united in the same temple and worshipped at the same altar the three religious founders or figure heads Confucius Buddha and Lao Tz The three religions were even regarded as forming one whole or at least though different as having one and the same object san rh i yeh or han san wei i the three are one or the three unite to form one a quotation from the phrase T ai chi han san wei i of Fang Y lu When they reach the extreme the three are seen to be one In the popular pictorial representations of the pantheon this impartiality is clearly shown The God Matrix: Decoding the Divine Blueprint for Reality, Faith, and Society Roger Ball, 2025-09-01 This book is not a single linear argument but a collection of expeditions into the deepest questions of human existence Each chapter essay stands alone as a focused intense exploration of a specific facet of truth life and reality Together they weave a larger tapestry revealing the profound and often hidden architecture of the divine order in which we live move and have our being Here the Matrix is not an illusion it s the foundational gridwork of reality the operating system authored by God These essays are attempts to interface with that system to understand its source code of love logic justice and grace Some ideas will comfort you others will challenge you You are invited not to simply agree but to actively participate in a conversation as old as creation Read in sequence or begin wherever your most urgent question lies Within these pages you will find the tools to decode the divine signals in your life better understand the heart of God and ultimately see the world as it truly is a reality sustained by and forever connected to the mind of its Maker This is the story of everything This is the red pill that can change your life Chapter titles include Can God s Existence Be Proven Why Did God Create Mankind Why Do Good People Go to Hell Moral Failure and God s Purposes How to Destroy Any Society Know the Truth Can Same Sex Attraction Be Overcome Do You Have a Soul Mate Does Suicide Damn the Soul American Bloodlust The Violent Psychological Conditioning of Today s Young People Nurturing the Divine Within Raising Healthy Children Through Structure Love and Spiritual Awareness Knowing God s Will Don t Just Do Something What Are Your Spiritual Gifts Explore the Faith A Glossary of Christian Words Beliefs and Practices **Society and God** William Charlton, 2020-01-30 Where should God be in thinking about society or

society in thinking about God This book shows how philosophy can help non philosophers with these questions It shows that intelligence is the product not the source of society and language and the rationality of individuals is inevitably conditioned by the distinctive customs and beliefs of their societies Addressing the idea that religion can impede the smooth running of society it argues that the Western concept of religion is taken from Christianity and cannot usefully be extended to non European cultures But any society will be threatened by a sub society with customs conflicting with those of the whole in which it exists and Jews Christians and Muslims have sometimes formed such sub societies Charlton proceeds to consider how our dependence upon society fits with traditional beliefs about creation salvation and life after death and offers a synthesis that is new without being unorthodox He indicates where Christian customs concerning birth death sex and education conflict with those of secular liberalism and considers which culture Christian or secular liberal has the better chance of prevailing in a globalised world **Discerning God's Justice in Church, Society and Academy** E. Restivo, 2021-06-08 This book advances the strong programme that sociology and anthropology provide a scientific foundation for arguing that God and the gods are human creations Contending that religion is one but not the only way to systematize and institutionalize the moral order of a society the author argues that religion reflects the fundamental human need for belonging and the social function of compassion As such our transcendental and supernatural ideas are really concerned with our everyday lives in communities and faced with the severity and immediacy of the global problems with which the world is confronted existential threats it is increasingly important to abandon delusions and correct our mistake in reference not by eradicating religion but by grounding it more explicitly in earthly matters of community social solidarity belonging and compassion A wide ranging study of the roots nature and purpose of religion and theistic belief Society and the Death of God will appeal to sociologists social theorists and philosophers with interests in the scientific study of religion and the role of religion in the life of humankind The Constitution of Society as Designed by God.
